BALKAN WAR COMMISSION REPORT.

The report of the international commission sent into the Balkan Peninsula in 1913 on behalf of the Carnegie Peace Foundation to investigate conditions in Macedonia following the Balkan war and charges of atrocities made by all sides in that conflict was made public in May, 1914.

Atrocities, it was found, were committed on all sides to a greater or lesser extent, the Bulgarians in this matter having the cleanest record. The accusations against the Greeks, on the other hand, were presented strongly, the commission presenting a long list of proofs.

DEATH OF POPE PIUS X.

Pope Pius X (Joseph Sarto), the 259th successor to the chair of St. Peter, died Aug. 20, 1914, at 1:20 A.M. He was 80 years old, and ascended the Papal throne on Aug. 9, 1903. According to Dr. Marchiafava, his physician, "Pope Pius was conscious to the last moment of his life. He was tranquil and his intellect was so keen that when his secretary, Mgr. Bressan, was overcome by emotion, the dying Pontiff prompted him by repeating the words of absolution, the Pope shed a few tears, while with his tired hand he made slowly the sign of the cross."

His last message to Christiandom was a prayer and an appeal for peace. The war raging in Europe caused the Pope sadness and anxiety, and the opinion was expressed by his physician and his secretary that continental disturbances hastened his death.

In the little Town of Riese, in the Province of Trevisco, Venice, Joseph Sarto was born of humble parents, June 2, 1835. His early educational training was had at a parochial school at Castelfranco, Veneto. His priestly studies were made with great distinction at the University of Padua. He was ordained in 1858 and was at once appointed curate of Tombosco. He was afterward made archpriest of Salzano, this appointment being a reward for his industry as curate. The local bishop, observing the zealous young priest, and recognizing his ability, made him a canon of the Cathedral of Trevisto. Six years later he was consecrated Bishop of Mantua. Bishop Sarto had a difficult task before him, for this diocese at the time was in a turbulent condition. Nine years later he was made Patriarch of Venice, and because of his success in winning the hearts of his flock in Mantua, he was asked to retain the office of Apostolic Administrator of that city.

Bishop Sarto was consecrated a cardinal in Aug., 1893, but was not enthroned in St. Mark's until the following year, because the Italian Government refused the execuatur. In 1903, at the conclave that assembled after the death of Leo XII, the Patriarch of Venice was elected the successor of St. Peter. When enthroned as Pope Pius X, he took as his motto, "Instaurare omnia in Christo," "To renew all things in Christ." Many wise reforms were instituted in his reign. The body was brought to the Chapel of the Blessed Sacrament, in St. Peter's, after the body lay in state for three days in the Vatican throne room. On Aug. 22 the Patriarch of Constantinople sang the funeral mass for the departed Pope and on the evening of the same day the body was interred in the crypt of St. Peter's. He was the first Pope for a century and a half who was of plebian origin.

Choosing a Successor.

On Aug. 31 the Sacred College of Cardinals, 57 in number, assembled in the Vatican to elect a successor to Pope Pius X. The arrival of Cardinals Gibbons and O'Connell of this country and Cardinal Begin of Canada later increased the number to 60. The form of procedure was based upon customs that have persisted throughout the centuries. A high mass was celebrated in the Pauline Chapel, after which the Cardinals formed in procession and marched to the Sistine Chapel, to the strains of the ancient chant, "Veni Creator." Along the two walls of the chapel were placed 60 chairs of state for the Cardinals, each surmounted by a canopy. The chairs for the Cardinals who had been appointed by Pope Pius X were draped in violet in sign of mourning, the others were draped in green. Before each chair was placed a little table bearing the name and arms of the Cardinal, writing materials, two sticks of red sealing wax, a candle stick and a box of matches. In the center were tables for three Cardinals designated to count the ballots, and three Cardinals designated to revise the count of their colleagues. Before entering the chapel, the Cardinals agreed on an oath to preserve an absolute secrecy regarding what they might hear and see in the conclave. After a brief address from the oldest of the Cardinals present, the master of ceremonies handed a ballot to each member of the Sacred College. When the ballots were ready, the Cardinals left their places and walked in single file toward the altar, on which was an urn in the form of a chalice, which served as a ballot box. As each Cardinal knelt before the altar he repeated the following words: "I bear witness before our Saviour Jesus Chrust, who will judge me hereafter, that I have voted for the one who, before God, I feel ought to be elected."

After the ninth ballot, Cardinal della Chiesa was elected Pope.

POPE BENEDICT XV.

In the presence of about 70,000 persons in the great square of St. Peter's, in Rome, on Sept. 3, 1914, Cardinal della Chiesa was announced as the successor of Pope Pius X. His election was received with great enthusiasm, both from the Cardinals and the crowd in the street.

In the Town of Pegli, in the Diocese of Genoa, Giacomo della Chiesa, son of Marquis della Chiesa, was born on Nov. 21, 1854. He was ordained to the priesthood on Dec. 21, 1878, following a course in the Capranican College and in the Academy of the Noble Ecclesiastics in Rome. In 1883 he was made a monsignor and shortly afterward accompanied Cardinal Rampolla to Madrid as secretary of the Papal Nunciature. When Leo XIII made Cardinal Rampolla Secretary of State, Mgr. della Chiesa returned to Rome. On April 23, 1901, he was made an assistant to the Secretary of State and also held the office of Secretary of the Cypher. He was appointed consultor of the Holy Office on May 30, 1901, and on Dec. 22, 1907, was elevated to the Archbishopric and was signally honored by being consecrated by Pope Pius X in the Sistine Chapel on Dec. 22 of the same year. Mgr. della Chiesa had a very deep affection for Collegio Caprianica, where he made his studies for the priesthood, and when he received the news that Pope Pius had decided to officiate at his consecration, he immediately sent word to the college that he wanted all of the students to take part in the ceremonies. Two Brooklyn priests, the Rev. James McMahon, D.D., curate at the Church of the Nativity, and the Rev. Joseph Kelly of St. Patrick's Church, were present at the consecration.

On Feb. 23, 1908, he was appointed to the See of Bologna, succeeding Cardinal Svampa, and on May 25, 1914, he was created a Cardinal. When he learned at the conclave which assembled, following the death of Pope Pius X, that he was elected to fill the Chair of Peter, he selected the name of Benedict XV. The first important act of the new Pope was to appoint Cardinal Ferrata as Secretary of State. He appointed Mgr. Parolin, a nephew of Pope Pius X, to the canonry of St. Peter's, and later on conferred the red hat on three Cardinals named by Pope Pius X and elevated Mgr. Czernoch to the Cardinalate.

Thomas W. Hynes was elected president of the N. Y. Conference of Charities and Corrections to be held in 1915 in New York City.

WOMAN SUFFRAGE IN THE UNITED STATES.

In the United States women now possess suffrage on equal terms with men in 15 States and Territories. They are as follows, with date of inception: Wyoming, 1869; Colorado, 1893; Utah, 1896; Idaho, 1896; Washington, 1910; California, 1911; Oregon, Arizona and Kansas, 1912; Alaska, 1913; Montana and Nevada, 1914; Illinois, 1913 (municipal).

The voters of Oregon, Oklahoma and South Dakota voted woman suffrage down in 1910, and the voters of Ohio, Michigan and Wisconsin voted it down in 1912.

There are two ways to amend the Constitution of the State of New York:

1—Favorable action by two legislatures is necessary and then the question must be voted upon by the men of the State. Consequently the question of women suffrage cannot be submitted to the voters of New York until 1915, when the suffragists intend to make a strong effort to carry the State.

2—The Constitutional Convention will meet April, 1915. If an amendment to enfranchise women is passed, the question will come before the voters in 1915.

The following table gives some data on the question:

Eighty yrs. ago women could not vote anywhere, except to a very limited extent in Sweden, and in a few other places in the old world.

1838—Kentucky, school suffrage to widows with children of school age.
1861—Kansas, school suffrage.
1869—Wyoming, full suffrage.
1875—Michigan, Minnesota, school suffrage.
1876—Colorado, school suffrage.
1878—New Hampshire, Oregon, school suffrage.
1879—Massachusetts, school suffrage.
1880—New York, Vermont, school suffrage.
1882—Nebraska, school suffrage.
1887—Kansas, municipal suffrage; North Dakota, South Dakota, Montana, Arizona and New Jersey, school suffrage; Montana, taxpaying suffrage.
1890—Oklahoma school suffrage.
1891—Illinois, school suffrage.
1893—Connecticut, school suffrage; Colorado, full suffrage.
1894—Ohio, school suffrage; Iowa, bond suffrage.
1896—Utah, Idaho, full suffrage.
1898—Minnesota, library trustees; Delaware, school suffrage to taxpaying women; Louisiana, taxpaying suffrage.
1900—Wisconsin, school suffrage.
1901—New York, taxpaying suffrage, local taxation in all towns and villages of State.
1903—Kansas, bond suffrage.
1907—Oklahoma, new State continued school suffrage for women.
1908—Michigan women taxpayers to vote on questions of local taxation and granting of franchises.
1909—Ginter Park, Va., taxpaying women, a vote on all municipal questions.
1910—Washington, full suffrage; New Mexico, school suffrage; New York, women in all towns, villages and 3d-class cities vote on bonding propositions.
1911—California, full suffrage.
1912—Oregon, Arizona and Kansas, full suffrage.
1913—Illinois has partial woman suffrage; New York, Pennsylvania and Iowa are called half-campaign States because an amendment passed 1913 legislature in these States. This must be approved by 1915 legislature before it can be submitted to the voters.
1914—Missouri, State vote opposed; Nebraska, opposed; Ohio, opposed; Nevada, Montana voted for suffrage.

Suffrage Legislation, 1914.

Georgia—Committee vote 4 to 5 against favorable report to House. Kentucky—Lost by vote of 51 to 29 in House. Louisiana—Vote of 60 to 40 in favor in House, but lost because a two-third vote of total membership was needed. Maryland—Lost by vote of 60 to 34 in House. Massachusetts—Passed by legislature. Needs passing by next legislature in 1915. Mississippi—Lost by vote of 80 to 12 in House. New Jersey—Passed by legislature. Needs passing by next legislature in 1915. Virginia—Lost by vote of 74 to 13 in House.

Amendment to the Constitution of the United States—A suffrage amendment to the Constitution of the U. S. has been introduced in both Houses of Congress. This amendment provides that no citizen of the U. S. shall be deprived of franchise because of sex. The Senate comm. on woman suffrage has reported favorably. There is no comm. on woman suffrage in the House. The amendment was therefore referred to the judiciary comm. which has made no report. When this amendment passes both Houses it will be submitted to the legislatures of the several States for ratification. When 36 States have ratified it will become law, and the women of every State in the U. S. will be entitled to vote on all questions and all offices on same terms as men.

COAST-TO-COAST PHONE.

The last pole of tens of thousands was erected on June 30, 1914, in Nevada by the Amer. Telephone and Telegraph Co., which completes the telephone circuit directly from N. Y. to San Francisco. The raising of the pole was made a ceremony which was attended by the officials of the company and by officers of the district divisions of the Bell system.

INDUSTRIAL GROWTH OF THE UNITED STATES—*Continued.*

1850 include total public debt. †1912. ‡Gold and silver can not be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation except on the Pacific coast, where the average specie circulation was about $25,000,000, and this estimate is contained for the three following years under the head of gold. After that period gold was available for circulation. ²As the result of special investigation by the Director of the Mint a reduction of $135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on Sept. 1, 1910, a reduction of $9,700,000 was made in the estimate of silver coin. ³Includes notes of Bank of United States, State bank notes, demand notes of 1862 and 1863; fractional currency of 1863 to 1878; Treasury notes of 1890, 1891 to date, and currency certificates, act of June 8, 1872, 1892 to 1900. ⁴Includes value of buildings, $2,555,639,496. The twelfth census was the first to collect statistics of buildings on farms. ⁵Includes value of buildings, $6,325,451,523. ⁶Gross value of all farm products, 1909. The figures of the various censuses are not comparative, reasons for which will be found in census reports. ⁷Estimate of the Department of Agriculture for wealth production on farms, 1912. ⁸Exclusive of neighborhood industries and hand trades, included in years previous to 1900. ⁹"Ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands and "miscellaneous," but do not include receipts from loans, premiums, Treasury notes, or revenue of Post Office Dept. ¹⁰Includes corporation tax, $20,961,781 in 1910 and income tax, $71,386,156, in 1914. ¹¹"Ordinary expenses" include disbursements for War, Navy, Indians, pensions, payments for interest and "Miscellaneous," but do not include payments for premiums, principal of public debt, or disbursements for postal service paid from revenues thereof. ¹²Imports for consumption after 1850, except that the figures for 1914 are based on general imports. ¹³1912. ¹⁴Includes canal boats and barges prior to 1890. ¹⁵First six months. ¹⁶The figures relate to Western Union only and after 1900 do not include messages sent over leased wires or under railroad contracts. ¹⁷Estimated 1912. ¹⁸Figures from 1869 to 1908 from Rowell's Newspaper Directory; subsequently from Ayer's American Newspaper Annual. ¹⁹Includes salaries for teachers only. ²⁰1850, total alien passengers arrived; 1820 and 1830, years ending Sept. 30; 1850, 15 months ending Dec. 31; after 1850, fiscal years ending June 30.

MANUFACTURES IN THE UNITED STATES.

(Based on the last census taken in 1910.)

SUMMARY FOR UNITED STATES, ALASKA, HAWAII AND PORTO RICO.

The following table gives for 1909 the more important figures for the manufactures of continental United States and for Alaska, Hawaii and Porto Rico. The table, which is the latest prepared by the Census Bureau, does not cover possessions of the U. S. other than those mentioned. The statistics of manufactures included in the census of the Philippine Islands taken by the War Dept. for 1903 are not comparable with those shown in the reports for continental United States; and there has been no census of manufactures in Guam, Samoa, or the Canal Zone. The statistics for Alaska, Hawaii, and Porto Rico include some small establishments of the nature of hand or neighborhood industries, such as are omitted from the canvass for continental United States:

ANTHRACITE PRODUCTION.

The production of anthracite broke the record in 1913, exceeding the highest previous output by nearly 1,000,000 tons, according to figures compiled by E. W. Parker, coal statistician of the U. S. Geological Survey and published in June, 1914. Including the coal recovered from old culm banks and a small quantity dredged from Susquehanna River, the production of anthracite for the year was 81,718,680 long tons, valued at $195,181,127, compared with 75,822,355 tons, valued at $177,622,626 for 1912. This is an increase of over 6,000,000 tons in quantity, and more than $17,500,000 in value. The previous highest record was 80,771,488 long tons, in 1910. Anthracite miners and operators are now working under an agreement extending over a period of four years from April 1, 1912; there were consequently no serious interruptions to mining operations by labor troubles in 1913 and industrial peace is assured in the anthracite region until 1916.

Reports to the Bureau of Mines show that there were 618 fatal accidents in the anthracite mines in 1913, compared with 584 in 1912.

FORESTS AND FORESTRY.

Revised to June 30, 1914, by U. S. Dept. Agric.

Forests cover 550,000,000 acres. The original forests of the U. S. contained timber in quality and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres, with a stand of not less than 5,200,000,000,000 ft. of merchantable timber, according to present standards of use. There were five great forest regions—northern, southern, central, Rocky Mountain and Pacific.

The present rate of cutting is three times annual growth of forests of the U. S. The great pineries of the Lake States are nearing exhaustion, and heavy inroads have been made upon the supply of valuable timber throughout all parts of the country, rapidly pushing the great centers of lumber industry toward the South and West. In consequence, the State of Washington has led for several years in lumber production, now followed in order by Louisiana, Mississippi, North Carolina and Oregon.

There is taken from our forests yearly, including waste in logging and in manufacture, more than 36,000,000,000 cubic ft. of wood, valued at about $2,000,000,000.

Twenty-five States have active forest departments, the majority of which employ professional foresters. 20 have efficient fire protective systems. New York has 1,664,000 acres of State forests; had planted up to June, 1914, 7,000 acres; produces 4,500,000 young trees yearly; has established a State forest experiment station, and makes an annual appropr'n for forestry of about $164,000.

INFORMATION FOR MUNICIPAL TAXPAYERS.

(For details about Income Tax, War Tax and Inheritance Tax, see Index.)

Assessments are made by the Deputy Tax Comms. They commence to assess real and personal property on April 1 and complete their work before Oct. 1. The State Tax Law (Eagle Library No. 156) directs that all property, real and personal, shall be assessed at its full value. See also City Charter, Secs. 884 to 1051 (Eagle Library No. 119).

Assessment books are open for inspection and correction from the first day in Oct. that is not a Sunday or legal holiday until Nov. 15.

Application for correction—Bet. Oct. 1 and Nov. 15. Applications for correction of assessed valuation of real estate must be made in writing, stating ground of objection thereto. Applicants for correction of assessed valuation of their personal estate are required to be examined under oath by a Comm. of Taxes and Assessments.

When assessed valuations may be increased or diminished—The Bd. of Taxes and Assessments may increase or diminish the assessed valuation of any real or personal property as may be just and necessary for the equalization of taxation; but not increase such valuations after the books of annual record are open for correction and review except upon notice given to the individual or corporation affected by such increase, at least ten days before the time for correction expires.

The power to remit or reduce a tax—The Bd. of Tax Comms. may remit or reduce, if found excessive, a tax imposed upon real or personal property.

Certiorari to review final determination—A certiorari to review or correct on the merits the final determination of the Bd. of Taxes and Assessments in regard to assessment of real or personal property may be begun at any time before first day of Nov. in the yr. in which the determination sought to be reviewed or corrected is made.

The certified assessment rolls must be completed and delivered to the Bd. of Aldermen on the first day of Mar. The corrected assessment rolls must be delivered by the Bd. of Aldermen to the Receiver of Taxes on or before Mar. 28. All real taxes are payable and become liens on real estate affected on the first day of May and first day of Nov. If taxes shall remain unpaid on June 1 and Dec. 1 interest will be charged at 7% per annum, and will be calculated from the first day of May and Nov. If personal taxes are not paid by Jan. 15 the Receiver of Taxes may issue his warrant to the Marshal for collection by distress and sale. Real estate taxes not paid after June 1 or Dec. 1 are returned to the Bureau for the Collection of Arrears.

Calendar for Taxpayers.

April 1—Commence to assess.
Oct. 1—Annual record of assessed valuation of real and personal estate open for public inspection.
Nov. 15—Real estate books close.
Nov. 30—Personal books close.
Feb. 1—Make up assessment rolls.
Mar. 1—Deliver to Bd. of Aldermen.
Mar. 8—Bd. of Aldermen fix tax rate.
Mar. 28—Deliver to Receiver of Taxes.
May 1—All personal taxes and half real estate taxes payable in May. If second half paid, rebate at rate of 4% per annum to Nov. 1.
June 1—Interest at 7% runs from May 1 on unpaid taxes due in May.
Nov. 1—2d half of real estate taxes payable.
Dec. 1—Interest at 7% from Nov. 1 on unpaid taxes due in Nov.

Personal Property Taxable.

1. Cash on hand.
2. Cash on deposit, except in savings banks.
3. Debts due from solvent debtors whether on account, contract, note, bond or mortgage. There is a special law for the taxation of mortgages recorded on or after July 1, 1906, or registered after May 13, 1907. Debts secured by such mortgages are not otherwise taxable.
4. Merchandise and stock in trade, situated in New York, at market value.
5. Household furniture, jewelry, horses and carriages and other chattels, at market value. Market value does not mean the purchase price paid or the insured value, but means the best price obtainable under ordinary circumstances, for example, at auction.

Exempt Personal Property.

1. Money on deposit in savings banks.
2. Shares of stock in corporations, both domestic and foreign.
3. Bonds of the U. S., of N. Y. State, of N. Y. City, and all municipalities in State.
4. Debts secured by mortgage of property in N. Y., recorded after July 1, 1906. Mortgages on real estate outside of N. Y. State are taxable. Bonds secured by a trust mortgage recorded in N. Y. by paying ½ of 1% to recording officer. Bonds secured by mortgages outside N. Y. State, upon payment of ½ of 1%.
5. Good will of a business.
6. Patent rights, trade marks, copyrights.
7. Automobiles are not taxed by the city because they pay a license tax to the State.
8. Unbroken original packages imported from foreign countries.
9. Vessels registered at any port in this State and engaged in ocean commerce bet. any U. S. port and any foreign port. All other floating property owned by a citizen is taxable unless registered and taxed at some port other than N. Y.
10. Real and personal property of a minister or priest, resident in city, to value of $1,500.
11. Tangible personal property, permanently situated outside of the State.

DEDUCTIONS.

The following deductions are to be allowed from the total of taxable assets:

All debts which are legal obligations, whether on mortgage, note, bond or open account. Debts incurred in the purchase of shares of stock of corporations may be included, but not debts incurred for the purchase of U. S. bonds, or imported goods in unbroken original packages, or the good will of a business. No deduction should be made for liability on a mortgage bond, after the maker of the bond has sold the mortgaged property.

Contingent liabilities as surety or endorser may not be deducted.

An exemption of $1,000 is allowed on furniture, books, pictures, jewelry, clothing, personal effects and professional instruments, and a man or woman who provides for a family is allowed $250 additional exemption on same.

Special Questions.

RESIDENCE—Domicile is a matter of fact and intention. There must be the fact of actual residence, with the intent to remain. A man may have more than one residence, but only one domicile. A new domicile is acquired only by the abandonment of the old and the acquiring of the new one. For purposes of taxation the chief residence (not necessarily the domicile) will control. The best evidence of non-residence (i. e., residence outside of the City of N. Y.) is voting and payment of personal taxes at place of residence claimed by applicant.

A married woman's residence is the residence of her husband.

A widow continues to have the residence of her late husband until she changes her residence by her own volition.

The residence of a lunatic or incompetent person is not changed by his commitment to an institution.

ESTATES. TAX LAW. SECTION 8—When one is assessed as trustee, executor, administrator, etc., his residence, not the residence of the beneficiary, controls.

Executors, etc., must be assessed in the borought in which they reside. If there are two executors, one resident and one non-resident, only one-half of estate is taxable.

The law requires that each borough be considered as a tax district. Hence the assessment of an estate must be divided when the executors reside in different boroughs. When this is done the notice is marked, for example, "one-half Brooklyn" or "one-third Manhattan."

PARTNERS—Partners own undivided interests in the firm's assets and own undivided parts of the firm's debts, in the proportions fixed among themselves by their partnership agreement. To determine each partner's share, the entire assets and the entire debts of the firm should be ascertained, and then the proportionate share of each partner taken.

A person, who is a partner in a firm, may also have undivided assets and individual debts. These should be added to his share of the firm's assets and debts to determine the net amount for which he is taxable.

Digitized by Google

INFORMATION FOR TAXPAYERS—*Continued.*

SPECIAL PARTNERS—A special partner is one who has contributed a fixed amount to the capital of the firm, who takes no active part in the management of the business, who is not liable for the firm's debts, and who is entitled to share in the profits. In other words, the capital of a special partner is only a first lien on the net assets of the firm. From the total assets of the firm, taxable and non-taxable, deduct the liabilities. The special partner's capital is the first lien on the balance. It may be found that the special partner's capital is wholly or partly invested in exempt property, as municipal bonds, unbroken original packages, good will, etc., in which event it is exempt, or exempt pro tanto.

CAPITAL OF NON-RESIDENTS INVESTED IN BUSINESS—A non-resident having capital invested in business in New York City is taxable on such capital to the extent to which such capital consists of taxable property. Any property owned by him, other than the capital invested in business here, is not taxable here, but is taxable at his residence. Only debts incurred by him for assets in his business here are to be deducted. This is intended to reach the capital of non-residents employed here in continuous trade, and not property sent here only to market. Money temporarily on deposit or goods in transit or in temporary storage are not taxable.

SAXE LAW—Property of non-residents, not invested in business, but having a permanent situs in this city, is taxable. This is intended to cover the furniture, works of art, carriages, automobiles, etc., of those who claim residence elsewhere but maintain city residences. Bonds and other evidences of debt are not taxable under this subdivision.

BONDS AND SECURITIES OUTSIDE THE STATE—If a person is a resident and taxable, the place in which he keeps his paper securities, i. e., bonds, mortgages, notes, etc., or the place in which he keeps his actual cash or his bank balances, is wholly immaterial. He is taxable upon them here.

CASH AND SECURITIES WITHIN STATE—The converse of the last rule is true. If a person is a non-resident, the fact that he has paper securities in a safe deposit vault or other place within the city, or cash or a bank balance within the city, does not make him taxable upon these items.

TAXABLE STATUS—The taxable status of each person is fixed on the first day of Oct. in each year that is not a Sunday or legal holiday. His condition before or after that date is immaterial.

Taxable Real Estate.

The total assessed value of real estate for 1913 was $8,006,647,861. For 1914 it was $8,049,859,912. The increase over 1913 is $43,212,051.

The following tabulated statement shows assessed valuation of real estate by sections and wards in the several boroughs of N. Y. City for the year 1914 as compared with assessed valuations for 1913:

Water Tax.

Payment of bills—Frontage bills are due and payable annually in advance on Jan. 1. Bills for metered water are payable when rendered. Where premises are not metered, $5 a season is charged for hose. Where metered, no special charge is made. When frontage bills are not paid by April 1, 5% penalty is added. On July 1 an additional 10% (making 15% in all) is added on all unpaid rates. Rates not entered on Jan. 1 shall be payable in any quarter of the year, when they are entered, and if not paid before the last business day of the next quarter, will be subject to a penalty of 5%, and if not paid before the close of the last business day of the next succeeding quarter, will be subject to a further penalty of 10%, making 15% in all. In the case of meter rates, bills rendered in any quarter, if not paid before the close of the last business day of the following quarter, shall be subject to a penalty of 5%, and if still unpaid at the end of the last business day of the next succeeding quarter, to a further penalty of 10%, making 15% in all. The year is divided into quarters, the first of which begins with Jan. Annual frontage rates and meter rates entered on the records prior to June 30 and not paid before the close of the last business day of Feb. of the following year will be returned to the Receiver of Taxes on Mar. 1.

Annual frontage rates and meter rates entered on records subsequent to June 30, if not paid within one year from last day of the following Feb., are returned to Receiver of Taxes on Mar. 1. The annual frontage rates on premises wholly or partly unmetered are based on following schedule:

Front, width.	1 Story.	2 Story.	3 Story.	4 Story.	5 Story.
16 ft. and under.	$4.00	$5.00	$6.00	$7.00	$8.00
16 to 18 ft.	5.00	6.00	7.00	8.00	9.00
18 to 20 ft.	6.00	7.00	8.00	9.00	10.00
20 to 22½ ft.	7.00	8.00	9.00	10.00	11.00
22½ to 25 ft.	8.00	9.00	10.00	11.00	12.00
25 to 30 ft.	10.00	11.00	12.00	13.00	14.00
30 to 37½ ft.	12.00	13.00	14.00	15.00	16.00
37½ to 50 ft.	14.00	15.00	16.00	17.00	18.00

For each additional story $1 per annum is added, and for each additional 10 ft. or part thereof, above 50 ft. in front width of building, $2 shall be added. The apportionment of the regular frontage rates upon buildings is on basis that but one family is to occupy the same and for each additional family or apartment $1 per year is charged. Rear buildings pay an annual frontage rate of $5 for each 25 ft. front or fraction thereof, but the provision does not apply to corner lots.

METER RATES.

Water meters are placed, at the discretion of the Commr. of Water Supply, for all stores, workshops, hotels, manufactories, office buildings, public edifices, on wharves, ferry houses and in all places where water is furnished for business consumption, except private dwellings; the charge by meter is 10c. per 100 cu. ft.

EXTRA AND MISCELLANEOUS RATES.

Boilers of boats—Rates for hoisting, steam rolling, dredging, pile driving, etc., all floating or portable steam plants and boats, except water boats supplying shipping, shall be as follows: Up to and including 10 h.p., $1 per month, and for each additional h.p., 10c. per month. NATURALIZATION AND QUALIFICATION OF VOTERS.

WHERE TO MAKE APPLICATION — Top floor Brooklyn Post Office Bldg. for residents of Brooklyn, Long Island and Staten Island.

Room 7, Hall of Records, Brooklyn, for residents of Brooklyn.

Ground floor of the New York Court House for Manhattan.

Bronx Co. Court House, 161st and 3d av., for the Bronx.

P. O. Bldg., Mhtn., for Mhtn., Bronx, Columbia and Rockland, Putnam, Orange, Dutchess, Sullivan, Greene, Ulster and Westchester counties. Or any State Supreme Court at a county seat.

CITIZENSHIP—The Federal statutes declare the following persons to be citizens:

All persons born in United States and not subject to any foreign power, excluding Indians not taxed.

All persons legally naturalized.

All children born out of jurisdiction of United States, whose fathers are at time of their birth citizens thereof, but the right of citizenship shall not descend to children whose fathers have never resided in the United States.

A child born without the U. S. of alien parents shall be deemed a citizen of the U. S. by virtue of the naturalization of or resumption of Amer. citizenship by the parent, provided that such naturalization or resumption takes place during the minority of such child and that the citizenship of such minor child shall begin at the time such minor child begins to reside permanently in the U. S.

An American woman who marries a foreigner takes the nationality of her husband. At the termination of the marital relation she may resume her American citizenship, if abroad by registering as an American citizen within 1 year with a consul of the U. S., or by returning to reside in the U. S., or if residing in the U. S. by continuing to reside therein.

All persons who were citizens of Hawaii on Aug. 12, 1898, are citizens of the U. S. The inhabitants of the Philippines and Porto Rico, while entitled to protection of the United States under the Constitution, must apply for citizenship, if they wish to enjoy its privileges, in the same manner as the aliens, except that they are not required to renounce allegiance to any foreign sovereignty, although they must declare their intention to become citizens at least 2 years in advance of the application.

NATURALIZATION—The applicant for citizenship must have resided in the United States for the continued term of at least 5 years next preceding his application, and 1 year within State or Territory where the court is held that admits him. Not less than 2 nor more than 7 years before his admission he must declare, on oath or affirmation, before any court of record, with seal, of unlimited jurisdiction, of any State or Territory, or before a District Court of the United States, his intention to become a citizen, etc. The language excludes County Courts, hitherto having jurisdiction. Any person over 18 years of age may declare intention and every person desiring naturalization must declare intention. There is a fee of $1 for receiving and filing declaration of intention; of $2 for filing petition, and of $2 for making final order and issuing citizenship certificates, if granted, the whole fee being payable when petition is filed. Blanks for statement of the facts material for first or final papers may be obtained from court clerk.

The petition must be accompanied by the affidavits of at least two witnesses who are citizens of the United States who have known the applicant for at least five years and have known him to be a resident of the United States for five years and of the State or Territory for one year.

Children of a naturalized citizen who become residents of the United States during their minority are entitled to citizenship without being naturalized.

Aliens of the age of 21 years and upward, who have enlisted in the armies of the United States, in the regular or volunteer forces, and have been honorably discharged, are entitled to become citizens upon petition, without previous declaration of intention, and are not required to prove more than 1 year's residence.

Seamen of foreign birth, who have declared intention to become citizens, may be naturalized after 3 years' service on merchant ships. Seamen of U. S. navy, U. S. marines honorably discharged after 5 years' service, are entitled to petition for citizenship upon presentation of discharge, without declaration of intention. Both classes, however, must produce at least 2 witnesses in each case to furnish necessary proofs as to character, residence, etc., unless, and this exception also includes Revenue Cutter service and naval auxiliary men, they apply within 4 months after their honorable discharge from the service, in which event witnesses are unnecessary.

When any naturalized citizen shall have resided 2 years in the foreign state from which he came, or for 5 years in any other foreign state it shall be presumed that he has ceased to be an American citizen and the place of his general abode shall be deemed his place of residence during said years.

NATURALIZATION FORBIDDEN—Only free white persons and persons of African descent can be citizens.

RESIDENCE—A residence once acquired continues to be the residence of a person until he absents himself therefrom and locates in another place with the intention of there remaining. For the purpose of voting, no person has gained or lost a residence by reason of his presence or absence while in the employ of the United States; nor while engaged in the navigation of the waters of the United States, or the high seas; nor while a student in any seminary of learning; nor while kept in an almshouse or institution wholly or partly supported at public expense or by charity, nor while confined in any public prison; but registration and voting must be done at residence.

QUALIFICATIONS OF VOTERS—Every male citizen 21 years old is entitled to vote if he shall be on or before the day of election a citizen of the United States 90 days, a resident of the State 1 year, a resident of the county 4 months, a resident of the election district 30 days. A person otherwise qualified whose birthday is on the day following election is entitled to vote. A minor who has been convicted of felony and has served out his term during his minority is not entitled to vote when of age.

PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

The Panama-Pacific International Exposition was authorized by act of Congress as the nation's celebration of the construction and opening of the Panama Canal. It is officially located at San Francisco, Cal. The Exposition is scheduled to open on Feb. 20 and to close Dec. 4, 1915, a per iod of 288 days. On the day it opens it will represent an aggregate expenditure of about $50,000,000.

By proclamation of the President of the U. S. the nations of the earth have been invited to participate therein. The conduct of the enterprise is by virtue of Congress confided to the citizens of California.

In April, 1910, a mass meeting of the citizens of San Francisco raised $4,000,000 by popular subscription; later this was increased to $7,500,000. Amending their constitution, the people of California voted upon themselves a tax levy of $5,000,000; amending their charter, the citizens of San Francisco voted upon the city a bond issue of $5,000,000. By act of the State Legislature the counties of the State levied a tax from which an additional $3,000,000 was raised. Thus a sum of about $20,000,000 was accumulated by the citizens of California to enable them to properly perform the duties intrusted to them by the nation.

Actual construction work was publicly begun Oct. 14, 1911, President Taft turning the first spadeful of earth; on Feb. 2, 1912, he made official proclamation of the celebration, inviting the nations to join therein. The grounds comprise 635 acres, divided into 3 sections, and front San Francisco Bay, a natural amphitheatre of impressive beauty.

The entire administrative work of the Exposition is vested in the President and Board of 30 directors, all serving without compensation. M. L. Fouquet is special representative from N. Y. City.

SAN DIEGO EXPOSITION.

An exposition commemorating the opening of the Panama Canal is to be held at San Diego, Cal., to be opened in Jan., 1915, and continued throughout the year. Among the structures are the Administration Bldg., Service Bldgs., Field Hospital and Nursery Bldgs., Electricity Bldg., the huge bridge across Cabrillo Canyon and other minor buildings. All architecture and all ensembles of architecture and landscape are in the Spanish-Colonial or "Mission" style. The scope of the exposition covers the world, with special reference to Mexico and Central and South America.

Exposition officers are: Pres., D. C. Collier; Dir. of Works, F. P. Allen, Jr.; Dir. of Publicity, Winfield Hogaboom; Dir. of Exhibits, E. L. Hewett.

RADIUM.

Physicists, chemists and doctors are eagerly bent on reducing the cost and seeking cheaper radio-active minerals.

In 1902, when its healing power was suspected by few, the price of radium was about $2 per milligram. Now it fetches from $75 to $100 for the same amount, and many doctors are urging state control of prices and radium-bearing mines, also the prohibition of an unreasonable quantity being sent from the country of production.

"t takes about 8 tons of uranium ore to produce 1 gram of pure radium chloride, and this has to be transformed into bromides. Even after the removal of impurities, there is a succession of crushing, fusing, washing and dissolving processes, followed by fractional crystallization; the average cost per gram in production being $2,000.

Although accounts greatly vary, it is estimated that some 30 or 40 grams of radium bromide are in use at the hospitals, radium clinics and among private radium-therapeutists throughout the world.

FEDERAL PROTECTION OF MIGRATORY BIRDS.

An act of Congress approved in Oct. 1913, contains the following provisions relative to the protection of migratory birds:

All wild geese, wild swans, brant, wild ducks, snipe, plover, woodcock, rail, wild pigeons, and all other migratory game and insectivorous birds which in their northern and southern migrations pass through or do not remain permanently the entire year within the borders of any State or Territory, shall hereafter be deemed to be within the custody and protection of the Government of the U. S., and shall not be destroyed or taken contrary to regulations provided therefor.

For the purposes of the Federal regulations the following are considered migratory insectivorous birds: Bobolinks, catbirds, chickadees, cuckoos, flickers, flycatchers, grosbeaks, humming birds, kinglets, martins, meadowlarks, nighthawks or bull bats, nuthatches, orioles, robins, shrikes, swallows, swifts, tanagers, titmice, thrushes, vireos, warblers, waxwings, whippoorwills, woodpeckers and wrens, and all other perching birds which feed entirely or chiefly on insects.

A 5-year closed season is declared on the following migratory game birds: Band-tailed pigeons, little brown, sandhill and whooping cranes, swans, curlew, and all shore birds except the black breasted and golden plover, Wilson or jack-snipe, woodcock, and the greater and lesser yellow-legs. A closed season until Sept. 1, 1918, is also declared on wood ducks in various states incl. N. Y. For waterfowl in N. Y. except L. I., the closed season is made bet. Jan. 1 and Sept. 15. On L. I., the closed season is made bet. Jan. 16 and Oct. 1.

(See index for local N. Y. State fish and game laws. Validity of Federal Statute has been questioned by State authorities.)

FEDERAL RESERVE ACT.

The new banking and currency law, known as the Federal Reserve Act, was approved Dec. 23, 1913. Under the system known as the natl. banking system, which was inaugurated at the latter end of the Civil War, the national bank note currency was based upon Government bonds deposited in the Treasury, and the currency thus issued has been classed by economists as bond secured currency. This plan was evolved, not only to nationalize and unify the currency, which had theretofore consisted of notes issued by state banks, but as well to create a market for U. S. bonds, and in this way to sustain their value. It was entirely successful for the latter purpose, but has outworn its usefulness as a banking system because of its entire want of elasticity.

The Federal Reserve Act is the result of a long discussion by statesmen, financiers, economists and bankers, and is a constructive measure based upon and growing out of many bills which have been introduced within the past 20 years. Under it 12 cities, known as Federal Reserve cities, are established, and the (continental) U. S. is divided into 12 geographical districts, each dist. containing one of the reserve cities. The 12 dists. and their respective reserve cities are as follows:

No. 1, Boston, Mass.; 2, N. Y. City, N. Y.; 3, Phila., Pa.; 4, Cleveland, O.; 5, Richmond, Va.; 6, Atlanta, Ga.; 7, Chicago, Ill.; 8, St. Louis, Mo.; 9, Minneapolis, Minn.; 10, Kansas City, Mo.; 11, Dallas, Texas; 12, San Francisco, Cal.

Every natl. bank is required to become a stockholder in the Federal Reserve bank of the dist. in which it is situated, and any state bank or trust co. which complies with certain specified requirements is permitted to become a member bank. There are at the present time approximately 7,500 natl. banks in the U. S. which have thus been required to become member banks.

The largest dist. in respect to number of member banks, the 7th, or Chicago dist., has 952 member banks. The smallest district, the 6th, or Atlanta dist., has 372 member banks. The number of member banks may largely increase in the near future from the addition of state banks and trust companies as member banks. Each member bank is required to subscribe to the stock of the Federal Reserve bank of its dist. in the amount equal to six per centum of its paid-up capital stock and surplus. The Federal Reserve bank does not do business with the public in the sense that banks usually do; it may better be described as a bank of banks. It is made a depositary for a certain proportion of the reserve of all the member banks, and in addition may also be a depositary for Government funds. An important function is as a bank of issue and redemption of currency, for it may secure from the Treasury Government notes known as Federal Reserve notes, which it is authorized to issue against commercial paper with a minimum gold reserve of forty per centum. Besides this, Federal Reserve banks are granted certain powers in the matter of operations in the open market, such as the purchase of commercial paper, foreign exchange, etc., and in a general way are expected to perform important functions as clearing houses between their member banks.

Each Federal Reserve bank has 9 directors, 3 of whom represent the member banks, 3 represent commercial, agricultural or other industrial pursuit (these 6 being chosen by the member banks) and finally 3 Government directors chosen by the Federal Reserve Board. These 9 directors are charged with the duty of appointing all necessary officers, including the act. mgr. of the bank, who is designated as its President or Governor. Under the act the whole system is under the supervision of a central board in Washington, known as the Federal Reserve Board, consisting of the Secretary of the Treasury and the Comptroller of the Currency acting ex-officio, and 5 members named by the President with the approval of the Senate. The 5 members first selected (who took the oath of office Aug. 10, 1914) and their terms of office follow:

Charles S. Hamlin, Governor, 2 yrs.; Frederic A. Delano, Vice-Governor, 6 yrs.; Paul M. Warburg, 4 yrs.; W. P. G. Harding, 8 yrs.; A. C. Miller, 10 yrs.

At the termination of the term of office of these 5 men, all subsequent appointees will be named for 10-year terms, except, of course, those who may be selected to fill unexpired terms. The salary of the members of this Board is $12,000 per annum each, which salaries, together with all other expenses of operating the system, are assessed against the Federal Reserve banks in proportion to their capital stock and surplus.

On April 2, 1914, the date of the announcement of the decision of the Reserve Bank Organization Com., determining the Federal Reserve dists., the following figures represented the capital of the Federal Reserve banks based upon 6 per cent. of the total capital stock and surplus of the assenting natl. banks in each district.

Dist. No. 1 (Boston), $9,924,543; 2 (N. Y.), $20,687,606; 3 (Phila.), $12,500,738; 4 (Cleveland), $12,100,384; 5 (Richmond), $6,542,713; 6 (Atlanta), $4,702,558; 7 (Chicago), $12,967,701; 8 (St. Louis), $6,367,006; 9 (Minneapolis), $4,702,925; 10 (Kansas City), $5,600,977; 11 (Dallas), $5,653,924; 12 (San Francisco), $8,115,494. The 12 dist. banks were opened on Nov. 16, 1914

NEW YORK STATE BANKING LAW.

The revision of the banking law of the State of New York effected by the Van Tuyl Commission and enacted into law on April 16, 1914, with the approval of the Governor, contains important modifications of especial interest to officers, directors, stockholders and employees of financial institutions operating under the supervision of the N. Y. State Banking Dept. Many of these modifications were prompted by a desire to prevent a repetition of abuses similar to those that were discovered by an examination into the affairs of some of the institutions that failed in the panic of 1907, notably the Union Bank of Brooklyn. A strict adherence to the rules of conduct laid down will obviate all possibility of financial institutions being looted. (See Eagle Library No. 124, N. Y. State Banking Law.)

UNITED STATES TERRITORIES AND DEPENDENCIES.

DISTRICT OF COLUMBIA.

The Dist. of Columbia is the seat of the Federal Government and is situated on the east bank of the Potomac River, bet. Maryland and Virginia. Originally the area was a tract 10 miles square jointly ceded by these 2 States in 1790 to settle a dispute over the location of the capital of the country. In 1846 the Virginia portion was ceded back to that State. The present area is 70 sq. miles, of which 60 are land, and the City of Washington embraces the entire area. The district or municipal government is in the hands of 3 commissioners named by the President, 2 appointed from civil life and the third detailed from the Engineer Corps of the U. S. A. The city expenses are defrayed partially by the Federal Government and partially by taxation of property. The citizens of the district are without the right of suffrage in local or national affairs, but many of the inhabitants maintain a voting residence elsewhere. The population in 1910 was 331,069. The great number of notable buildings in Washington include the Capitol, Library of Congress, White House, the Treasury and other department structures, new Municipal Bldg., National Museum, Corcoran Art Gallery and Naval Observatory. The Washington Monument is 555 ft. high, the tallest piece of masonry in the world. The chief pleasure ground is Rock Creek Park, of 2,000 acres, with the Zoological Park of 166 acres adjoining.

ALASKA.

Alaska, one of the non-contiguous possessions of the U. S., is in the extreme northwest of North America, bordering on the Pacific and Arctic oceans and Bering Sea. The Aleutian Islands, 150 in number, which form a portion of it, stretch nearly to Asia. It was formerly known as Russian America and was purchased by the U. S. under the treaty of 1867 for $7,200,000. The area is 590,884 sq. miles and the population in 1910 was 64,356. It is an unorganized territory and the government is administered by a Governor, appointed by the President, who is assisted by a secretary, a surveyor-general and other officers. The present incumbent is J. F. A. Strong, whose term expires in 1917 and whose salary is $7,000. The capital is Juneau with 1,864 population. The other principal towns are Nome, with 3,500; Sitka, 1,396, and Skagway, 1,100. The chief river is the Yukon. The center of the gold region, mining being the chief occupation, is Fairbanks on the Tanana River. Copper, lead and coal mines are also worked. There are valuable seal and salmon fisheries and extensive timber resources. The highest peak in North America is Mt. McKinley, in Southern Alaska, 20,464 ft.

HAWAII.

The Hawaiian Islands, annexed to the United States by the signature of the President, July 7, 1898, lie in the North Pacific, little more than 2,000 miles west of the U. S., 3,400 miles from Yokohama and 4,800 miles from Hong Kong. The inhabited and only important islands of the group are 8 in number, comprising an area of about 6,700 sq. miles; the largest island, Hawaii, includes nearly two-thirds. They stretch out in a chain 400 miles long, running from southeast to northwest. The 1910 U. S. census gives the population as 191,909. Honolulu has 39,306 people.

The islands are governed under a law enacted April 30, 1900. It provides that the islands shall be known as the "Territory of Hawaii," and that the capital shall be at Honolulu, on the Island of Oahu. The Legislature of the Territory of Hawaii consists of 2 houses, Senate and House of Representatives, styled "The Legislature of the Territory of Hawaii." The Senate is composed of 15 members, who hold office 4 yrs. Senators must be citizens of the U. S., over 30 yrs. of age, and have resided in the Hawaiian Islands not less than 3 yrs. The House of Representatives is composed of 30 members, elected every second year. Representatives must be 25 yrs. of age, be citizens of the U. S., and must have resided in the Hawaiian Islands not less than 3 yrs. Hawaii is represented in the Congress of the U. S. by a delegate. The present delegate is J. Kuhio Kalanianaole, elected by the Republican party.

PORTO RICO.

Porto Rico is 108 miles east to west, and 37 to 43 miles across; total area, 3,606 square miles. It is 1,050 miles from Key West, Fla. The rainy season lasts from Aug. to Dec. Porto Rico and adjacent islands lying east of the 74th meridian are governed under an act which became a law April 12, 1900, giving the island a civil government. The capital is San Juan. Persons who were Spanish subjects April 11, 1899, and who have not elected to preserve their allegiance to Spain are held to be citizens of Porto Rico, and entitled to the protection of the United States. The designation of the body politic is under the name of "The People of Porto Rico." The governor is appointed by the President and holds office for four years, having the powers conferred on governors of territories of the United States. He makes his reports to the Secretary of War through the Bureau of Insular Affairs. There is an executive council appointed by the President and confirmed by the Senate, consisting of a secretary, attorney general, treasurer, auditor, commissioners of interior and education, and 5 other persons, to hold office for 4 years. The Council is upper branch of Legislature, six of whom are natives of Porto Rico. The other branch is House of Delegates, consisting of 35 members elected biennially by qualified electors.

GUAM.

The Island of Guam was ceded to the United States by Spain by the treaty of Paris, signed December 10, 1898. It is 5,200 miles from San Francisco and 900 miles from Manila. It is in a direct line between San Francisco and the southern part of the Philippine Islands. It is 32 miles long and 100 miles in circumference; has a population of about 8,700, of which 5,249 are in Agana, the capital. It is inhabited mostly by descendants of immigrants from the Philippines. Spanish is the prevailing language. It is thickly wooded, well watered, fertile. Commercial returns of Guam are grouped with those of Tutuila. Commander Edward D. Taussig, U. S. Navy, commanding the gunboat Benning[illegible] took possession of the island and raised the United States flag over Fort Santa Cruz on February 1, 1899. There is a United States naval station at Agana, in the harbor of Apra.

CUBA.

The relations between the U. S. and Cuba are defined in what is known as the Platt Amendment to the Army Appropriation bill of 1901, the Cuban Constitutional Convention having accepted the conditions there imposed. For these conditions see 1909 Eagle Almanac.

A treaty between Cuba and the U. S. was concluded July 2, 1903, under which Cuba leased to the U. S. territory at Bahia Honda and Guantanamo, to be used as naval stations.

After the election in March of 1906, insurrection against the government started, due to alleged wholesale frauds in voting. W. H. Taft was sent there and became provisional gov. Sept. 29, 1906; C. E. Magoon assumed the position as gov. Oct. 13, 1906, Palma having resigned. The elections on Nov. 14, 1908, passed off quietly with a majority of 70,943 for Gomez. Pres. Roosevelt then turned Cuba over to its new government Jan. 28, 1909.

WORLD'S FAIRS APPROPRIATIONS.

Congress has appropriated $1,230,000 for the Panama-Pacific Exposition, to be held in 1915. (See page 370 for details of Panama Exposition.)

Total appropriations to date for expositions and world's fairs, held both at home and abroad, beginning with a modest item of $26,000 voted for London in 1855, have reached the sum of $31,225,795.04. The U. S. Govt. has voted money to 38 international expositions within the last 52 years; 16 of these have been held within the borders of the U. S. and 22 in foreign countries. The home expositions have received nearly all of the money, their total being $28,263,631.21. The foreign expositions have been voted $2,962,163.83.

The international exposition at St. Louis in 1903 broke all records for appropriations by the Fed. Govt., receiving more than one-third of the entire total spent by the U. S. on such enterprises. The largest single appropriation for St. Louis was a lump sum of $5,000,000 as an aid to the exposition. There was also a reimbursable loan of $4,600,000. The Govt. spent several millions on its own exhibits and bldgs., bringing the total voted to St. Louis up to $11,217,857.50.

Next to St. Louis comes the big world's fair at Chicago in 1893, which received from the Fed. Govt. $5,840,329.64. Of this amount, $2,500,000 was voted for the coinage of Columbian half dollars.

Next to Chicago in point of Fed. assistance ranks the exposition at Jamestown, Va., in 1906. Jamestown was granted a total of $2,657,000.

After Jamestown comes the centennial exposition in Philadelphia in 1876, the first great world's fair ever held in this country. The Govt. voted to Phila. $2,533,184.59. New Orleans received Govt. appropriations to the extent of $1,650,000 in 1885, while the exposition at Buffalo was granted $1,015,000.

Other expositions h ld within the borders of the U. S. which received money from the Govt. were those at Atlanta, Charleston, Cincinnati, Louisville, Nashville, Omaha, Portland, Ore., and Seattle.

Of the foreign expositions 3 that were held in Paris hold the record for appropriations by this Govt. These world's fairs took place in 1867, 1878 and 1900. The latter exposition received nearly all of the total voted to Paris, which is $2,132,782.87.

The first exposition of which there is a record of an appropriation by this Govt. was held in London in 1862, and the first act carrying money for such a purpose became a law on March 3, 1855. Outside of the various sums granted to Paris for the several expositions held there, the largest single appropriation for participation in a foreign world's fair was made for Vienna in 1873, when Congress voted $200,000. Other foreign expositions which have received aid from this Govt. were held at Barcelona, Bergen, Berlin, Bordeaux, Brussels, Buenos Ayres, Santiago, Liege, Madrid, Melbourne, Quito, Rome, Turin, Sydney and Tokio.

UNITED STATES ARMY.

On Aug. 15, 1903, the system of military control in the Army was reorganized under the provisions of the General Staff Act, approved Feb. 14, 1903. This act abolished the separate office of General Commanding the Army, provided for a military Chief of Staff to the President, who, acting under the directions of the President, or of the Sec. of War representing him, should have supervision not only of all troops of the line, but of the special staff and supply departments which had theretofore reported directly to the Sec. of War; and it created for the assistance of the Chief of Staff a corps of 44 officers, who were relieved from all other duties. The function of this new corps is described by the statute in the following words:

Sec. 2. That the duties of the General Staff Corps shall be to prepare plans for the national defense and for the mobilization of the military forces in time of war; to investigate and report upon all questions affecting the efficiency of the Army and its state of preparation for military operations; to render professional aid and assistance to the Sec. of War and to general officers and other superior commanders, and to act as their agents in informing and coordinating the action of all the different officers who are subject, under the terms of this act, to the supervision of the Chief of Staff, and to perform such other military duties not otherwise assigned by law as may be from time to time prescribed by the President. (See also Dept. of War in U. S. Govt. Chap.)

APPOINTMENTS, HOW MADE—Each Congressional district and Territory—and also Porto Rico—is entitled to have one cadet at the Academy. Each State is also entitled to have two

UNITED STATES ARMY—MILITARY ACADEMY, N. Y.—*Continued.*

cadets from the State at large—two are allowed from the Dist. of Columbia—and 40 are allowed from the U. S. at large. The law, however, provides that for six years from July 1, 1910, whenever any cadet shall have finished three years of his course at the Academy his successor may be admitted. The appointment from a Congressional district is made upon the recommendation of the Representative in Congress from that district, and those from a State at large upon the recommendations of the Senators of the State. Similarly the appointment from a Territory is made upon the recommendation of the Delegate in Congress. The appointment from the Dist. of Columbia is made on the recommendation of the Commissioners of the District. Each person appointed must be an actual resident of the State, district or Territory from which the appointment is made.

The appointments from the U. S. at large are made by the President of the United States upon his own selection. The cadet from Porto Rico, who must be a native of that island, is appointed by the President on the recommendation of the resident commissioner.

The Sec. of War is authorized to permit not exceeding four Filipinos to be designated, one for each class, by the Philippine Commission to receive instruction at West Point: Provided, that the Filipinos undergoing instruction shall receive the same pay, allowances and emoluments as are authorized by law for cadets at the Military Academy appointed from the U. S., to be paid out of the same appropriations: And provided further that said Filipinos on graduation shall be eligible only to commissions in the Philippine Scouts. And the provisions of Sec. 1321 Revised Statues, are modified in the case of Filipinos undergoing instruction so as to require them to engage to serve for 8 years, unless sooner discharged, in the Philippine Scouts.

DATE OF APPOINTMENTS—Appointments are required by law to be made one year in advance of date of admission, except in cases where, by reason of death or other cause, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next examination.

CANDIDATES—For each vacancy three candidates should be nominated, one to be named as principal and the others as alternates. The alternate making the highest proficient average will be entitled to admission in case of failure of the principal. Each candidate will receive from the War Dept. a letter of appointment containing instructions as to time and place of examination.* Fitness for admission will be determined as prescribed in the Regulations.

EXAMINATION AND ADMISSION OF CANDIDATES—The following are extracts from the Regulations at the Military Academy relating to the examination of candidates for admission, and will be strictly adhered to: On the last Tuesday in April of each year candidates selected for appointment (except the Filipino candidates) shall appear for mental and physical examination before boards of army officers to be convened at such places as the War Dept. may designate. The Filipino candidates selected for appointment, unless otherwise notified by the War Dept. shall appear for mental and physical examination on the second Tuesday in Jan. of each year before a board of army officers to be convened at such place in the Philippine Islands as the commanding general of the Philippines Division may designate. Candidates who pass will be admitted to the Academy without further examination upon reporting in person to the superintendent before 12 o'clock noon, on the 14th day of June following the examination, or 15th if the 14th falls on Sunday. Each candidate before admission to the Academy must show by examination as prescribed in the preceding paragraph that he is well versed in algebra, to include quadratic equations and progressions, plane geometry, English grammar, composition and literature, descriptive and physical geography, and general and United States history, as explained in the circulars of notification. No rejected candidate shall be re-examined, except upon recommendation of the academic board. A candidate for admission to the U. S. Military Academy may be excused by the Academic Board from the mental examination for admission upon one of the following conditions:

1. That he present a properly attested certificate that he is a regularly enrolled student in good standing without condition in any university, college, or technological school accredited by the U. S. Military Academy, provided that the entrance requirements for the course he is pursuing in such institution require proficiency in subjects amounting to 14 units of the College Entrance Examination Board, which must include mathematics, A1 (algebra to quadratics), A2 (algebra, quadratics and beyond), and C (plane goemetry); English A (reading and practice) and B (study and practice), as outlined by the College Entrance Examination Board. A certificate indicating enrollment at an irregular time or for the specific purpose of obtaining such certificate will not be accepted.

2. That he present a properly attested certificate of graduation from a preparatory school or public high school which is on the accredited list of one of the institutions referred to in paragraph 1 of this order, provided that he is thus certified to have established proficiency in subjects amounting to 14 units of the College Entrance Examination Board, which must include mathematics A1, A2, and C, and English A and B, as outlined by the College Entrance Examination Board. A certificate indicating graduation at an irregular time for the specific purpose of obtaining such certificate will not be accepted.

3. That he present a properly attested certificate from the College Entrance Examination Board that he has passed 14 units of its examinations, including mathematics A1, A2, and C, English A and B, and history A (ancient history) and D (American history and civil government).

QUALIFICATIONS—No candidate shall be admitted who is under 17 or over 22 yrs. of age, or less than 5 ft. 4 in. in height at the age of 17, or 5 ft. 5 in. in height at the age of 18 and upward, or who is deformed or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at time of presenting himself, any disorder of an infectious or immoral character. Candidates must be unmarried.

BIG GUN AT PANAMA.

The great 16-inch gun installed on the Panama Canal fortifications is 50 ft. long, weighs 152 tons, and fires a projectile about 6 ft. long. The projectile itself weighs a ton and is discharged by 665 lbs. of powder. It requires 8 men to carry the powder charge. This gun has a maximum range of from 22 to 23 miles. It has sufficient power, theoretically, to pierce 2 ft. of the best armor at the muzzle. At 11 miles the gun is calculated to pierce a 12-inch armor plate, or any side armor afloat.

When a shell leaves the gun, it is revolving around its axis at about 4,000 revolutions per minute and develops a pressure of 38,000 lbs. to the sq. inch.

Brooklyn Navy Yard.

The Brooklyn Navy Yard was established Feb. 23, 1801, when the first land, 23 acres, was bought from John Jackson for $40,000. It now comprises 197 acres (land 126, water 71), situated on Wallabout Channel of the East River, and has a water front of nearly 3 miles, protected by a sea wall of granite and concrete.

The frigate "Fulton," 1st steam war vessel, was constructed at this yard in 1815.

The Navy Yard is open daily from 9 A.M. to 5 P.M., when any one may enter and visit the place. Permission to visit the ships must be obtained from their commanding officers.

Naval Academy, Annapolis, Md.

The students of the Naval Academy are styled midshipmen. Two are allowed for each Senator, Representative and Delegate in Congress, two for District of Columbia and ten each year from United States at large. The appointments from District of Columbia and ten each at large are made by the President. One is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President on recommendation of the Gov. of Porto Rico. The Congressional appointments are equitably distributed, so that in regular course each Senator, Representative and Delegate in Congress may appoint one during each Congress. After June 30, 1913, each Senator, Representative and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

The course for midshipmen is 4 years, at the expiration of which time examination for final graduation takes place.

Certificates from colleges and high schools will not be accepted in lieu of the entrance examinations at the Naval Academy; all candidates must take the prescribed mental and physical examination before being admitted.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the line of the Navy and of the Marine Corps in order of merit.

Candidates allowed for Congressional Districts, for Territories and for the District of Columbia must be actual residents of the Districts or Territories, respectively, from which they are nominated. All candidates must, at the time of their examination for admission be between the ages of 16 and 20 years. A candidate is eligible for examination on the day he becomes 16 and is ineligible on the day he becomes 20 yrs. of age. The pay of a midshipman is $600 a year while at the Academy, pay commencing at admission. Supt., Capt. W. F. Fullam, Naval Academy, Annapolis, Md.

There are two private preparatory schools in Annapolis for candidates for entrance into the U. S. Naval Academy—one conducted by Prof. J. R. Wilmer, the other by Prof. R. L. Wertz, both of Annapolis.

ENLISTMENT IN THE UNITED STATES NAVY.

The terms of enlistment of all enlisted men of the Navy is four years and enlistment may be extended for a period of either one, two or three years. Minors over the age of 18 may be enlisted without consent of parents or guardians. Only such persons shall be enlisted as can reasonably be expected to remain in the service. Every person, before being enlisted must pass the physical examination prescribed in the medical instructions. Applicants for enlistment must be American citizens, able to read and write English, and when enlisted must take the oath of allegiance. No person under the age of 17 can be enlisted.

Relative Rank in Army and Navy.

Section 1466 of the Revised Statutes of the U. S.

Generals rank with Admirals, Lieutenant-Generals rank with Vice-Admirals, Major-Generals rank with Rear-Admirals, Brigadier-Generals rank with Commodores, Colonels rank with Captains, Lieutenant-Colonels rank with Commanders, Majors rank with Lieutenant-Commanders, Captains rank with Lieutenants, First Lieutenants rank with Lieutenants Junior Grade, Second Lieutenants rank with Ensigns, Cadets rank with Midshipmen.

Retirement and Pay.

Officers of the retired list receive three-fourths of the pay (salary and increase) of their rank, except in a few special cases. Any officer on retired list not above the rank of Lieutenant may be ordered to such duty as he may be able to perform, and shall receive pay of an officer of his grade.

Allowances—The monthly commutation allowance for quarters of the Admiral of the Navy is $125. All other commissioned officers of the line and Medical and Pay Corps of the Navy, and officers of Marine Corps receive same allowances, except forage to naval officers, as are or may be provided by law for the officers of corresponding rank in the Army. When quarters in kind are not supplied, commutation is allowed at the rate of $12 per room.

Boatswains, gunners, carpenters, sailmakers, warrant machinists, pharmacists and mates receive the same commutation for quarters as second lieutenants of the Marine Corps.

The pay of officers serving at sea and on shore beyond the continental limits of the United States is increased 10 per cent., and pay of enlisted men of the Marine Corps serving on shore is increased 20 per cent. above regular rates of pay exclusive of longevity additions, to be computed from and including May 26, 1900.

BATTLESHIPS SOLD.

Title to the battleships Idaho and Mississippi passed from the U. S. to the Greek Govt. on July 8, 1914, when a check for $12,535,275.96 was handed to Mr. Daniels, Sec. of the Navy, by Frederick J. Gantlett, vice pres. of the Newport News Ship Building Co., which acted as the agent of the Greek Govt. in the transaction. The check was certified by the Riggs Natl. Bank of Washington. Mr. Daniels indorsed it and immediately turned it over to the Sec. of the Treasury for deposit.

TONNAGE DISPLACEMENT.

There are 3 ways of expressing a vessel's tonnage: As gross tonnage, net tonnage and tonnage displacement. The tonnage displacement is measured in tons of 2,240 lbs., and refers to the actual weight of the water displaced by the hull of a vessel.

For assessing Panama Canal tolls, warships passing through the Canal are to be taxed on their tonnage displacement, which is to be determined from the vessel's official displacement scale and curves, in connection with the draft, measured at the time of the application for passing through the Canal. For the determination of the mean draft, a warship must be placed at such location as the Gov. of the Panama Canal shall order.

All other vessels than war vessels passing through the Canal are to pay tolls based on their net tonnage. (See Index for rates of tolls.)

U. S. REVENUE CUTTER SERVICE.

The Revenue Cutter Service was founded by Alexander Hamilton in 1790, several years prior to the establishment of the regular Navy. It is under the Treasury Dept. It enforces the customs, quarantine, neutrality, navigation, and other maritime laws of the United States. Its vessels patrol the coasts and lend aid to vessels in distress. In peace or war the service becomes, by direction of the President, a part of the naval establishment. Its officers are on an equal footing, in rank and pay, with officers of the Army and Navy. Appointments to cadetships are made after competitive examinations conducted by boards of commissioned officers of the Revenue Cutter Service. Cadets are educated at the Revenue Cutter Academy at New London, Conn. The course covers three years and embraces professional and academic subjects. Candidates for cadetships must be not less than 18, nor more than 24 yrs. old, citizens of U. S. and unmarried. A class of cadets is appointed each year.

Appointments as cadet eng. are made after competitive examinations conducted by boards of eng. officers of service. Candidates for cadet eng. must not be less than 20½ yrs. of age and must serve a probationary term of not less than six months before being commissioned 3d lieut. of engs. No person can be commissioned 3d lieut. of engs. who is less than 21 or more than 26 yrs. of age. This branch of the government is under the charge of a captain-commandant, who is Chief of Div. of Rev. Cutter Service. Captain-Commandant E. P. Berthoif is the present incumbent. Captain C. E. Johnson in charge personnel and operations. Charles A. McAllister, Engineer-in-Chief. Hdqtrs. at Treas. Dept., Washington, D. C.

PANAMA CANAL TOLL RATES.

Vessels using the Panama Canal are subject to the following rates of toll:

On merchant vessels carrying passengers or cargo, $1.20 per net vessel ton, each 100 cubic feet of actual earning capacity.

On vessels in ballast without passengers or cargo 40% less than the rate of tolls for vessels with passengers or cargo.

Upon naval vessels; other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

Upon army and navy transports, colliers, hospital ships and supply ships, $1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

All vessels, American and foreign, except warships, including vessels of commerce and army and navy transports, colliers, supply ships and hospital ships, applying for passage through the Panama Canal shall present a duly authenticated certificate stating the vessel's gross and net tonnage. Vessels of commerce, army and navy transports, colliers, supply ships and hospital ships without such certificate shall, before passing through the canal, or before being allowed to clear therefrom, be measured, and shall have their gross and net tonnage determined in accordance with government rules.

All warships, American and foreign, other than transports, colliers, supply and hospital ships, shall present duly authenticated displacement scale and curves stating accurately the tonnage of displacement at each possible mean draft.

It is to be understood that "supply ships" shall include army and navy ammunition ships, refrigerator ships, distilling ships, repair ships, submarine tenders and destroyer tenders, as well as army and navy vessels used to transport general army and navy supplies; and that "colliers" shall include army and navy vessels used to transport coal or fuel oil. (See index for opening of Panama Canal.)

COMMERCIAL POWER OF U. S.

A statistical abstract of the U. S. for 1913 issued in July, 1914, shows that the U. S., with 258,000 miles of railway, possessed one-third of the world's total. It leads in the mileage of its telegraph lines, performs more than one-third of the world's mail service on it own routes, while its public debt of $1,000,000,000 was less than that of Italy, Austria-Hungary, Spain, Germany, Australia, Japan, Great Britain, and is less than one-sixth that of France and one-fourth that of Russia.

*Only the annual excess of deposits over redemptions included in this column. †National bank redemption fund herein includes only the annual excess of deposits on account of national bank redemption fund since 1890. ‡Includes deposits of $17,641,634 for principal of bonds, only $2,035,700 of which were actually issued in 1911; the balance was issued in the fiscal year 1912.

Note—The disbursements are stated by warrants paid to June 30, 1866, and by warrants issued since that date. The disbursements for postal deficiencies are grants by law from the Treasury, and differ from the fiscal year expenditures thereof shown by reports of the auditor for the Post Office Department. Issues and redemptions of certificates and notes not affecting the cash in general fund are excluded from the public debt figures in this statement.

CHINA'S CONSTITUTION.

The new amended Constitution for the Republic of China is notable for the widespread powers it gives the President. The document was the work of a Constitutional Convention.

The President is empowered to convoke, open, suspend, close and dissolve the Legislature; submit to it the budget as well as other bills, and refer back to the Legislature for reconsideration bills already passed by it. If such measures are repassed by a three-fourths majority the President may, with the consent of the administrative council, still withhold their promulgation. The President is given sole power to appoint and dismiss civil and military officials, to declare war and conclude peace, and is in complete control of the army and navy as well as of all expenditures for these branches.

HOUSE OF REPRESENTATIVES, SIXTY-FOURTH CONGRESS.

The 64th Congress will convene in regular session Dec. 6, 1915.

Congressmen are elected for a term of two years by the direct vote of the people. Salary $7,500 per year and mileage. Salary of Speaker, $12,000. Those marked * served in 63d Congress. †Served in a previous House. Where names have no district number, they were elected at large.

[a]The Constitution of 1777 did not specify the time when the Governor should enter on the duties of his office. Governor Clinton was declared elected July 9, and qualified the same day. On the 13th of February, 1787, an act was passed for regulating elections, which provided that the Governor and Lieutenant-Governor should enter on the duties of their respective offices on the 1st of July after their election. The Constitution of 1821 provided that the Governor and Lieutenant Governor shall, on and after the year 1823, enter on the duties of their respective offices on the 1st of January. [b]Lieutenant-Governor, Acting Governor. [c]Lieutenant-Governor, became Governor upon resignation of Martin Van Buren, March 12, 1829. Elected November, 1830, for a full term. [d]Elected President of the United States in 1884, and resigned the office of Governor January 6, 1885. [e]Lieutenant-Governor, became Governor upon resignation of Grover Cleveland, January 6, 1885. Elected November 6, 1885, for a full term, and re-elected November 6, 1888. [f]Re-elected November 4, 1902. [h]Re-elected November 3, 1908. [g]Lieut. Gov.; upon resignation of Gov. Hughes, Oct. 6, 1910. (P.) President of United States. [p]Removed by impeachment Oct. 17, 1913. [p]Lieut.-Gov.; succeeded upon removal of Gov. Sulzer.

THERMOMETERS COMPARED.

There are three kinds of thermometers, with varying scales, in general use throughout the world—The Fahrenheit, Reaumur and centigrade. The freezing and boiling points on their scales compare as follows:

Thermometer.	Freezing pt.	Boiling pt.
Fahrenheit	32 degrees	212 degrees
Reaumur	zero	80 degrees
Centigrade	zero	100 degrees

The degrees on one scale are reduced to their equivalents on another by these formulas:

Fahrenheit to Reaumur—Subtract 32, multiply by four-ninths. Fahrenheit to Centigrade—Subtract 32, multiply by five-ninths. Reaumur to Fahrenheit—Multiply by nine-fourths, add 32. Reaumur to Centigrade—Multiply by five-fourths. Centigrade to Fahrenheit—Multiply by nine-fifths, add 32. Centigrade to Reaumur—Multiply by four-fifths.

STATE HIGHWAY IMPROVEMENT.

The N. Y. State Dept. of Highways was established in 1909 and there was placed under its control and supervision the improvement, maintenance and repair of all the public highways and highway bridges of the State.

There are about 80,000 miles of public highways, of which by statute about 3,686 miles are designated as State routes to be improved at the sole expense of the State; about 8,300 miles of county highways, which are to be improved at the joint expense of the State, counties and towns, leaving about 68,000 miles of town highways which are to be improved and maintained by the local town authorities, assisted by county superintendents and under the supervision and direction of the department, at the joint expense of the towns and State.

The policy or method of improvement of public highways has been and is being materially changed in order to meet the requirements of modern traffic, caused by the enormous increase in the use of motor vehicles. As a result, experiments are being carried on in many instances and the use of brick, creosoted blocks, asphalt block, Medina block, waterbound macadam, bituminous materials, etc., is being thoroughly tested to the end that it may be determined how best to improve and maintain the public highways in the most economical manner, with the lowest possible upkeep cost, suitable to local traffic conditions.

On Jan. 1, 1914, there were 78,466 miles of improved highways in the State, of which 4,304 miles have been improved either as State or county highways, 3,982 miles of town macadam roads, 9,206 miles of town gravel roads, 57,714 miles of roads shaped, crowned and standardized as to width, 3,266 miles of road have received ordinary attention. The cost of the improvement of State roads and the State's share of the cost of improvements of county highways built have been paid from the $50,000,000 bond issue authorized by the Legislature and voted upon by the people in 1905. The future funds for construction work will be derived from a second $50,000,000 bond issue passed by the Legislature and approved by the people in the November election of 1912. Of this amount $20,000,000 is available for State highways and $30,000,000 for county highways. In 1913 the Legislature released $5,000,000 of this amount and $10,000,000 additional is being expended. The cost of the improvement and maintenance of town roads is paid from money raised by tax in each town together with money appropriated by the State as provided by statute for the aid of the towns. (See also Highway Department.)

ROOSEVELT'S "RIVER OF DOUBT."

In his lecture before the Natl. Geographic Soc., on May 26, 1914, at Washington, D. C., Theodore Roosevelt referred to, and later made public, a telegram sent by him to the Brazilian Minister of Foreign Affairs, which constituted in effect Col. Roosevelt's official report of his So. Amer. expedition, including his discovery of "the River of Doubt."

Col. Roosevelt returned to New York from his trip on May 19, 1914. The telegram referred to stated:

"We have had a hard and somewhat dangerous, but very successful trip. No less than 6 weeks were spent in slowly and with peril and exhausting labor forcing our way down through what seemed a literally endless succession of rapids and cataracts. For 48 days we saw no human being. In passing these rapids we lost 5 of the 7 canoes with which we started and had to build others. One of our best men lost his life in the rapids. Under the strain one of the men went completely bad, shirked all his work, stole his comrades' food, and, when punished by the sergeant, he with cold-blooded deliberation murdered the sergeant and fled into the wilderness. Col. Rondon's dog, running ahead of him while hunting, was shot by two Indians; by his death he in all probability saved the life of his master.

"We have put on the map a river about 1,500 kilometers in length, running from just south of the 13th deg. to north of the 5th deg., and the biggest affluent of the Maderia. Until now its upper course has been utterly unknown to every one, and its lower course, although known for years to the rubber men, utterly unknown to all cartographers. Its source is between the 12th and 13th parallels of latitude south, and between longitude 59 deg. and longitude 60 deg. west from Greenwich.

"We embarked on it about at latitude 12° 1″ south and longitude 60° 19″ west. After that its entire course was between 60° and 61° of longitude, approaching the latter most closely about in latitude 8° 15″. The first rapids were at Navarite, in 11° 44″, and after that they were continuous and very difficult and dangerous until the rapids named after the murdered Sergeant Peishan, in 11° 12″. At 11° 23″ it received the Rio Kermit from the left. At 11° 22″ the Marcian Avila entered it from the right. At 11° 18″ the Taunay entered from the left. At 10° 58″ the Cardoza entered from the right. At 10° 24″ we encountered the first rubber men. The Rio Branco entered from the left at 9° 38″. We camped at 8° 49″, or approximately the boundary line between the Matte Grosse and Amazonas. The confluence with the Aripuana, which entered from the left, was in 7° 34″. The mouth where it entered the Maderia was in 5° 30″. The stream we have followed down is that which rises farthest away from the mouth, and its general course is almost due north."

FISHING REGULATIONS.

Netting Seasons—Net fishermen should consult the law or write the Commission for information as to netting seasons.

Tip-up Fishing—Tip-ups may be used for fishing through ice except in waters inhabited by trout, to take bullheads, catfish, eels, perch, sunfish and except during the months of Mar. and April, pike-perch, pike and pickerel. No person shall operate or control at the same time more than 15 tip-ups. All tip-ups must be marked with the name and address of the owner thereof.

Set and Trap Lines—Set lines may be used except in waters inhabited by trout to take whitefish, bullheads, catfish, eels, perch, sunfish, carp, mullet and dogfish, provided an order specifying the waters, and fixing the season shall first be made by the Commission. Set and trap lines may be used to take sturgeon, provided a license for so doing shall first be obtained. Under rules adopted by the Commission, set lines shall be not more than 500 ft. in length nor contain more than 100 hooks; one end shall be attached to the shore and the other end thereof shall be anchored to the bottom. A person must not own or operate more than one such line; nothing but dead bait shall be used, and no minnows, either dead or alive, shall be used for bait; no fish other than the kind mentioned shall be taken.

Spearing—Spears, grappling hooks, naked hooks, or snatch hooks may be used except in waters inhabited by trout, for taking whitefish, mullet, carp, catfish, dogfish, bullheads, suckers and eels at any time provided an order specifying the waters and fixing the season shall first be made by the Commission.

Eel Weirs and Eel Pots—The use of such devices is prohibited except under license issued by the Commission and subject to its rules and regulations.

GENERAL PROVISIONS.

All open seasons are subject to be shortened by order of the Commission. Such orders will be found on file in the office of the clerk of the town affected. Particular waters may be closed against all fishing and bird and game refuges may be established where all hunting is prohibited, and the orders in such cases may be found on file in the office of the clerk of the town affected.

"Angling" means taking fish by hook and line in hand or rod in hand; or if from a boat not exceeding 2 lines with or without rod to 1 person.

Fish must not be taken by means of explosives, or by drawing off water for that purpose, or by fishing through the ice in waters inhabited by trout.

No license is required for angling, or for netting minnows for bait for the owner's personal use, but the net used for such purpose must be not more than 25 ft. long. A license is required for netting minnows for bait for sale and a fee of 10c. per lineal ft. for a net must be paid. Netting minnows in waters inhabited by trout is prohibited.

Game protected by law shall only be taken after sunrise and before sunset with a gun fired at arm's length, without rest. Game shall not be taken on the lands purchased or condemned by any municipality for the purpose of supplying it with water and protecting the same from pollution or on any public highway, except public highways within the forest preserve counties.

Birds shall not be trapped, netted or snared, nor shall nets, traps or snares be set or used where birds can be taken.

Wild birds protected in this State—Wild birds other than the English sparrow, starling, crow, hawk, crow-blackbird, snowowl, great hornedowl and kingfisher, shall not be taken or possessed at any time, dead or alive, except under the authority of a certificate issued under Section 159 of the Conservation Law. No part of the plumage, skin or body of any bird protected by Section 219 of the Conservation Law or of any birds coming from without the State, whether belonging to the same or a different species from that native to the State of New York, provided such birds belong to the same family as those protected by law shall be sold or had in possession for sale. This provision does not apply to game birds for which an open season is provided. The nests of wild birds protected by the above provision shall not be robbed or wilfully destroyed except when necessary to protect buildings or prevent their defacement, or when taken under the authority of the Commission.

Sale of game prohibited—The dead bodies, or parts thereof, of squirrels of all species and wild deer, elk, moose and caribou of all species shall not be sold, offered for sale or possessed for sale for food purposes within this State, whether killed within or without the State. The dead bodies of birds belonging to all species or sub-species, native to this State, protected by law or belonging to any family, any species or sub-species of which is native to this State and protected by law, shall not be sold, offered for sale, or possessed for sale for food purposes within this State, whether taken within or without this State, except as provided by sections 372 and 373 of the Conservation Law.

Transportation of Protected Fish and Game—The taker without accompanying the shipment may, except for purposes of sale, transport non-salable fish or game by common carrier (except parcel post) but not to exceed a legal day's catch or, in case of deer, 1 deer, on procuring and attaching to the shipment a shipping permit issued by the Commission. Non-salable fish and game includes: Deer, squirrels, waterfowl, rails, upland game birds, shore birds, trout, black bass. Protected fish and game lawfully salable may be transported in the open season by common carrier or otherwise without the use of the above-mentioned shipping permits. Applicants may obtain such permits by personal application at the office of the Conservation Commission

FOREST, FISH AND GAME LAWS OF NEW YORK STATE—*Continued.*

Albany or by writing the Commission. Applicants who hold hunting and trapping licenses, must state in making the application the serial number of their license and in all cases the applicant must state his place of residence and, if in a city, the street and street number. Live game and fish for propagation purposes, the head, hide, feet or fur of quadrupeds and the plumage and skin of game birds, legally taken and possessed may be transported at any time and in any manner without use of the shipping permits above referred to.

Breeding and sale of Elk, Deer, Pheasants, Mallard Ducks and Black Ducks—Domesticated Amer. elk, white tailed deer, European red and fallow deer, roebuck, pheasants, mallard ducks and black ducks or any of them, may be propagated in a wholly enclosed preserve, or entire island, under a license issued by the Conservation Commission and may be killed and sold under certain regulations. No person shall sell or offer for sale any such game or any part thereof, killed in such a preserve, without first obtaining a license so to do and complying with the law and the rules and regulations of the Commission.

Certain mammals and birds may be imported from without the United States and sold—The unplucked carcasses of pheasants of all species, Scotch grouse, European blackgame, European black plover, European red-legged partridge, Egyptian quail, and the carcass of European red deer, fallow deer and roebuck may be imported into this State from without the United States and sold at any time of the year. Such birds and mammals must be tagged immediately upon their importation and before they shall have been sold by the importer. The tags are to remain attached to the quarter loin or larger portion of such deer and to the birds until consumption of the same. Keepers of hotels, restaurants or boarding houses or retail dealers in meat, or clubs, however, may sell without a license portions of a quarter or loin of any such deer so tagged, or portions of any birds so tagged to a guest, customer or member for consumption. All dealers, other than the keeper of a hotel, a restaurant, a boardinghouse or a retail dealer in meat, or a club, shall obtain from the Commission a license before offering for sale any such game.

Propagation and sale of Trout raised in private hatcheries—Trout not less than 6 in. long, raised in a private hatchery, may be sold at any time of year under the authority of a license issued by the Commission. Such trout must be tagged with tags furnished by the Commission.

Regulations for hunting and trapping licenses—A hunting and trapping license is required for any kind of hunting or trapping fur bearing animals. Licenses may be procured from any county, city or town clerk and are good in any part of the State from the date of issue to Dec. 31 following. The license must be carried on the person and presented for inspection when required. The license is not transferable. The fee required of citizens of N. Y. State is $1.10; for a nonresident, an unnaturalized person or an alien, $20.50; for a nonresident who is a taxpayer of the State, $10.50; such fees to be paid to the clerk issuing the license. A nonresident has the privilege of taking 1 deer out of the State under conditions to be prescribed by the Commission.

Open season defined—The words "open season" is the time during which fish, fowl, birds and quadrupeds may be taken. If in accordance with the provisions of this article the open season commences or ends on Sunday, it shall be deemed to commence or end, as the case may be, on the Sat. immediately preceding such Sun. It should be remembered that this is a syllabus of the law and that the full text of the law should be consulted on special points.

Information for Campers—Any citizen may camp temporarily on the State land in the Adirondacks, the Catskills, Lake George and the St. Lawrence River. No written permit is required, nor can one be granted by anybody. The Constitution of the State of N. Y. provides that the land in the Forest Preserve shall not be leased, sold nor exchanged, but must be kept as wild forest lands. Tents are the only structures permitted in the woods, but board floors may be used. No person is entitled to call any particular site his own from year to year. Portable houses are prohibited. So is the erection of any permanent shelter, such as a bark house, lean-to or log camp. Except that open camps may be erected in accordance with the regulations of the Conservation Comm., provided permission is obtained in advance from the Commission. Peeling bark is absolutely prohibited. Fires may be lighted for cooking, warmth and insect smudges, but before a fire is lighted ample space must be cleared around the spot so that the fire shall not spread, and before leaving the place the fire must be thoroughly extinguished. All other fires are absolutely forbidden. Hunters and smokers must be careful not to set fires in the woods by the use of firearms, pipes or cigars. Special care must be taken that lighted matches are extinguished before throwing them down in the woods. Campers will be held strictly responsible for any damage or injury to the forest which may result from their carelessness or neglect.

CONSERVATION LAW, NEW YORK STATE.

HOME RULE FOR IRELAND.

On Sept. 18, 1914, King George signed the bill establishing Home Rule government in Ireland. The law becomes operative within a year from the date of signature. The final passage of the legislation by Parliament and the appending of the King's signature thus brought to a close a campaign that had been waged by the Irish members of the House of Commons for more than 40 yrs. The Irish Parliament, created by the Home Rule bill, will comprise a Senate of 40 members and a House of Commons of 164. The Parliament will have broad jurisdiction in all matters of local government, but may not interfere with naval or military affairs, with foreign relations, with trade outside of Ireland, with the constabulary or with religion. If the validity of any act passed by the Parliament be called into question the issue must finally be determined by the judicial committee of the Privy Council. The executive authority remains vested in the sovereign or in his personal representative, the Viceroy.

During the pendency of the Home Rule bill, Ireland was greatly stirred by the threat of civil war. The Protestants of Ulster, under the leadership of Sir Edward Carson, threatened to revolt if the bill were passed, and many thousands of volunteers were drilled and supplied with arms in this northern province. The Ulster malcontents declared that Home Rule meant the practical subjugation of Ulster by the Catholic provinces of Munster, Leinster and Connaught and asserted that they were ready to defy the authority of Parliament rather than allow themselves to be taxed by a majority with whom they were in religious and political disagreement. So acute did the crisis become that in Mar., 1914, troops and warships were moved to the north coast of Ireland, apparently in anticipation of open rebellion, and a number of army officers, including Field Marshal Sir John French, resigned rather than indorse by remaining in the service what they considered the unduly coercive attitude of the Government. That this threat of rebellion would have been repeated at the time the Home Rule bill finally passed Parliament is probable, but the outbreak of the European War caused a subsidence of Irish factionalism. Sir Edward Carson and the leaders of the Irish Nationalists joined hands in an effort to raise volunteers for foreign service, agreeing to hold their own quarrel in abeyance until the conclusion of the war. Many of the Ulster volunteers and some of the Nationalist volunteers who had been organized to oppose them went to the front.

EARTHQUAKE CATASTROPHE IN ITALY.

(See page 163 for list of other great earthquake and volcanic disturbances.)

On the morning of Jan. 13, 1915, at 7:55, a great earthquake swept over Central Italy, causing an appalling loss of life and destruction of buildings. The dead numbered tens of thousands and thousands were injured. Official advices sent out from Rome on Jan. 16 reported 60 towns in ruins, the death total being greatest in Avezzano, Cappelle, Magliano, Marse, Massadalbe, Collarmele, Sora, Cerchio, Celano, Lelli, Paterno, San Felino, Giosamarsi, Sourcola, Capistrello, Antrosano and Castromove. Towns seriously damaged were: Pescina, Ortonamarsi, San Benedetto, Ortucchio, Cocullo, Bisegna, Balsorano, Canistro, Civitelladantino, Castellafumi, Pagliotra and Sorbo. Those with severe casualties: Tagliacozzo, Ovuadoli, Cappadoccia, Santi Maria, Poggio, Filippo, San Donato, San Stefano, Rocacerro, Carsoli, Peraoluco and Trasacco. Loss of life, est., 30,000; injured, 40,000.

The work of rescue began immediately after the catastrophe, continued feverishly, and was constantly rewarded by the release of entombed victims, nearly all of whom were more or less seriously injured. Often the rescuers were guided in their work by the cries of the victims. King Victor Emanuel immediately started on a tour of the stricken towns and villages and superintended the rescue work at various places.

Nearly all of the stricken districts reported that the first and main shock was followed by two shocks less severe. The disturbance lasted fully half a minute, and, like the appalling catastrophe at Messina in 1908, it occurred without the slightest warning even on the seismic instruments. Following the fatal shock there were frequent reports of faint rumblings felt and one or two reasonably sharp. In the 24 hours after the disaster, it was estimated, there were fully 160 of these tremors. The seismic upheaval was general throughout the territorial divisions of Latium and Campania and in the Abruzzi Mountain regions.

In Rome, which long had been regarded as immune from catastrophic shocks, no fewer than 50 palaces and churches were damaged. Earth shocks were felt the same time in the Mont Blanc Mountain range and also in the Swiss and Italian Alps along the frontier, and they caused huge avalanches which isolated the Alpine villages and hamlets and destroyed the forests. From 5 to 7 feet of snow fell on the Bernina Splugen and St. Gothard Passes, while the snow was 3 feet deep in the Engadine. Shocks also were experienced in the Piedmont towns and villages. Slighter shocks were felt even in the Tyrolese Alps. On Jan. 16, the region of the Abruzzi was again shaken by light earth shocks.

N. Y. STATE DEPT. OF PUBLIC WORKS.

State Supt. of Public Works, W. W. Wotherspoon, on Jan. 14, 1915, announced the appointments of H. D. Alexander for Dep. Supt.; D. H. Lewis, Asst. Supt, Eastern Div.; H. A. Kunze, Asst. Supt, Western Div.; M. A. Heeran, Claims Agt.; H. M. Hulsapple, Financial Clerk. (Page 419.)

AVIATION FATALITIES.

Owing to the European War it is not possible to compare the number of deaths of aviators and aeronauts in 1914 with those of previous years owing to the uncertainty as to the number killed while doing air scout duty. In 1908 1 was killed; in 1909, 4; in 1910, 32; in 1911, 73; in 1912, 113 and in 1913, 137. In 1914 in U. S., 7.

MEXICO.

Gen. Roque Gonzales Garza, on Jan. 16, 1915, was named Provisional President of Mexico by convention over which he presided in Mexico City. Former Pres. Gen. Eulalio Gutierrez was deposed and with Gens. Blanco and Robels and Jose Vasconcelos, left Mexico City. (Page 591.)

FEDERAL ANTI-TRUST LAW.

Some of the most important features of the Federal Anti-Trust Law, as enacted by Congress in the fall of 1914 provide that discrimination in price between different purchasers of commodities is unlawful, where its effect may be to "substantially lessen" competition or create a monopoly.

Price discrimination is not forbidden when it is due to difference in grade, quality or quantity sold, or makes allowances for difference in cost of selling or transportation, or where it is made in good faith to meet competition. Persons or corporations are not forbidden from selecting their own customers in bona fide transactions, not in restraint of trade.

It is unlawful to fix a selling price, or discount or rebate on such a price, on condition that a purchaser shall not handle the goods of a competitor, where the effect may be to substantially lessen competition or create monopoly.

Labor, agricultural and horticultural organizations are exempted from the operation of the anti-trust laws, and may not be held to be illegal combinations or conspiracies in restraint of trade.

Ownership of stock by one corporation in another is forbidden, when its effect is to substantially lessen competition between them, or to restrain commerce in any section or community.

Interlocking directorates are prohibited, 2 years after the approval of the act, as between banks doing business under U. S. laws, where their capital, surplus and undivided profits aggregate more than $5,000,000.

Interlocking directorates are also prohibited in case of corporations engaged in commerce where their capital, surplus and undivided profits exceed $1,000,000, if such corporations are competitors, by virtue of their business or location.

After 2 years no common carrier shall deal in securities, supplies or make contracts for construction or other work to the amount of more than $50,000 in 1 year with any other corporation where identical persons serve on both boards of directors, or where such persons have any substantial interest in either corporation. An exception is made where business is transacted under a system of competitive bidding, the Interstate Commerce Commission to prescribe the regulation for such bidding.

In enforcing the latter provision, authority is variously vested in the Interstate Commerce Commission, the Federal Reserve Board and the Federal Trade Commission, according to the nature of the corporation involved.

Directors are made personally responsible for the acts of corporations, and for violations of law may be fined up to $5,000 and sent to prison for a year.

No injunction may be issued by a court to prevent a strike or against peaceably persuading persons to strike, or against peacefully persuading persons to cease patronage of any concern. (See Eagle Library, No. 186, for complete text of law.)

FEDERAL TRADE COMMISSION.

The Federal Trade Comm. is composed of 5 Commrs. appointed by the Pres. Not more than 3 of the commrs. can be members of the same political party. The first commrs. appointed continue in office for terms of 3, 4, 5, 6 and 7 years respectively, the term of each to be designated by the Pres., but their successors will be appointed for terms of 7 years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the commr. whom he shall succeed, and no commr. shall engage in any other business, vocation or employment. A vacancy in the comm. does not impair the right of the remaining commrs. to exercise all the powers of the comm. The commrs. receive a salary of $10,000 a year, and the Sec., $5,000.

The principal office of the comm. is in Washington, but it may meet and exercise all its powers at any other place. The comm. may, by one or more of its members, or by such examiners as it may designate, prosecute any inquiry necessary to its duties in any part of the U. S.

Whenever the comm. shall have reason to believe that any person, partnership or corporation has been or is using any unfair method of competition in commerce, and if it shall appear to the comm. that a proceeding by it in respect thereof would be to the interest of the public, it shall issue and serve upon such person, partnership or corporation a complaint stating its charges in that respect, and containing a notice of a hearing upon a day and at a place therein fixed at least 30 days after the service of said complaint. The person, partnership or corporation so complained of shall have the right to appear at the place and time so fixed and show cause why an order should not be entered by the comm. requiring such person, partnership or corporation to cease and desist from the violation of the law so charged in said complaint. Any person, partnership or corporation may make application, and upon good cause shown may be allowed by the comm. to intervene and appear in said proceeding by counsel or in person.

RELIGIOUS EVENTS OF 1914.

The year 1914 was notable for the development of church unity and the spread of social service work in all denominations.

Pope Pius X. died Aug. 20 and on Sept. 3 Cardinal Giacomo della Chiesa, Archbishop of Bologna, Italy, was elected Pope, taking the name of Benedict XV.

An organization of temperance workers, undenominational and not affiliated with any of the organized temperance societies, formed what they styled the "Flying Squadron of America," to visit 265 cities of the U. S. in the interest of nation-wide prohibition. The campaign is to end in July, 1915.

Gifts to the mission boards of the various denominations decreased on account of war.

The Congregational Church formulated a new creed, asserting its belief in divinity of Christ and its duty to promote brotherhood of man. Individual churches largely adopted it.

Following the dividing of the country into provinces by the Episcopal General 13th Triennial Convention, the N. Y. Provincial Synod was organized in Oct., 1914.

The Federal Council of Churches established a lobby at Washington and sent Dr. Shailer Matthews of Chicago Univ. and Dr. S. L. Gulick to Japan on a mission of Christian sympathy.

LONG ISLAND UNIVERSITY CAMPAIGN.

On Thursday, April 30, 1914, a com. composed of C. N. Chadwick. Ch. Citizens' Com.; the late Prof. F. W. Hooper and Dr. W. L. Felter, representing the Citizen's Com. of 100, appeared before the Bd. of Regents of the State of N. Y., at Albany, N. Y., in support of a provisional charter for the purpose of establishing a university to be located in the Borough of Bkln., the name of the university to be The University of Long Island.

The number of its trustees is to be 21, and the names of the first board of trustees are as follows: C. N. Chadwick, C. H. Fuller, J. F. Coar, W. L. Felter, F. H. Paine, Wm. Fairley, N. H. Levi, W. J. Morrison, J. A. McCorkle, D. A. Boody, J. H. Post, F. B. Dalzell, G. W. Brush, N. D. Hillis, S. P. Cadman, C. H. Larson, S. Cooley, H. R. Bayne, C. C. Albertson.

The purpose of The Univ. of Long Island is: To the development of the individual in balanced growth, in his relation to his own personality and in his relation to society, making him responsive to the highest principles of private and public welfare. To this end The Univ. of Long Island will be for men and women; an institution of research in all fields of human experience; an institution of instruction for the development of self-activity; an institution of information and of inspiration for the community; an institution in which these functions will be co-ordinated in a Senate which shall consider the problem of education as one to be worked out rather than as one already solved and requiring administration only.

In its instruction the Univ. of L. I. will seek to develop harmoniously the activities of body, mind and spirit, and in so doing will take into account the progressive adjustment of thought to the facts of existence in the whole educational life of the student.

NEW YORK DISTRICT CUSTOMS RECEIPTS.

The returns of the foreign commerce of the Port and District of N. Y., which takes in not only the Port of N. Y., but the sub-Ports of Albany, Perth Amboy and Newark, each of which serves a large district, show a decrease of $6,186,800 for the fiscal year ending June 30, 1914. The new tariff, with its lower rates, went into operation on Oct. 3, 1913, but the decline in revenue was not as great as was expected.

In the year ended June 30, 1913, the amount of duties collected in this district was $203,265,108, and in the year ending June 30, 1914, it was $197,078,807, a decline of $6,186,800.

An effect of the new tariff was seen in the quantity of goods withdrawn from the bonded warehouses. As the passage of the new tariff became imminent the withdrawal of goods on which the duty was to be increased became heavier from the warehouses. As soon as the new rates went into effect on Oct. 3, 1913, with their general lowering, there was a rush to release goods which had been stored in the warehouses. Then on Dec. 1, 1913, the free list with regard to wool caused another rise in the release of goods, and this became still more marked in Jan., 1914, when the entire Schedule K of the new law went into effect. Here are the figures concerning the withdrawals from the warehouses:

(1st, Month; 2d, 1912 figure; 3d, 1913 figure.)

July, $6,890,221; $12,805,356. Aug., $8,529,952; $12,426,600. Sept., $8,344,361; $14,453,983. Oct., $8,934,083; $20,752,111. Nov., $7,426,314; $9,483,272. Dec., $7,233,654; $10,792,204.

For 1913 and 1914—Jan., $7,538,777; $12,239,921. Feb., $7,179,970; $7,490,661. March, $7,696,950; $11,536,863. April, $6,909,120; $8,871,513. May, $7,231,894; $8,404,616. June, $7,620,590; $8,500,000 (estimated). Totals, $91,545,976; $137,337,100.

In merchandise imported there was a small increase. In the fiscal year 1914, goods worth $1,048,970,481 were brought in, an increase of $487,823 over the $1,048,482,658 of the year ended June 30, 1913. The exports of domestic commodities, on the other hand, show a considerable decrease. They were in the year a little more than $848,305,868, a decrease of $52,825,125 from the total for the year ended June 30, 1913, which was $900,631,093. On the other hand, the exports of foreign commodities in the fiscal year 1914, $19,658,452, showed an increase of $2,345,334 over the total for the year ended June 30, 1913, which was $17,313,118.

Totals, $203,265,108.26; $197,078,807.36.

To these must be added the miscellaneous receipts, which in the fiscal year 1914 were $5,296,852 as compared with $5,338,880, which would make the total receipts of the Custom House in this port and district for the year ended June 30, 1914, $202,475,659, a decrease of $6,129,329 from the $208,604,989 collected in the year ended June 30, 1913.

WAR REVENUE TAX.

The War Revenue bill, to meet the emergency caused by the war in Europe, was signed by Pres. Wilson Oct. 22, 1914.

The principal feature is the tax on beer, which is at $1.50 a bbl., or 50c. more than was imposed under the law that existed formerly. The tax is a stamp revenue, and is imposed on "all beer, lager beer, ale, porter and other similar fermented liquor, brewed, manufactured, sold or stored in warehouse, or removed for consumption or sale, within the U. S., by whatever name such liquor shall be called."

Bankers on each $1,000 of capital, surplus and undivided profits employed in the business pay $1. This tax applies to any person, firm or company and every incorporated or other bank "having a place of business where credits are opened by the deposit or collection of money or currency, subject to be paid or remitted upon draft, check or order, or where money is advanced or loaned on stocks, bonds, bullion, etc.," but savings banks with no capital stock, including postal savings banks whose business is confined to receiving deposits and loaning or investing the same for the benefit of the depositors, are exempted from the tax.

The conference com. changed the telegraph and telephone tax to require the company to collect it from the "person paying for" the message, in lieu of the word "sender."

The Govt. collects the sleeping car ticket tax from the companies. (See Eagle Library No. 186 for complete text.)

THIRTEEN LABORS OF HERCULES.

The Panama Canal has been named the "Thirteenth Labor of Hercules." The 12 other labors were: The killing of the lion of Nemea, the destruction of the 7-headed Lemeau Lydia, capture of the Arcadian stag, killing of the wild boar of Erymanthus, cleaning the Augean stables, the destruction of the carniverous birds of Stymphalis, capture of the wild bull of Creta, capture of the mares of Diomedes, obtaining the girdle of the Queen of the Amazons, slaying the monster Geryon, securing the golden apples from the garden of the Hesperides and brin to earth Cerberus, the 3-headed dog of Ha

N. Y. STATE SCHOOL OF AGRICULTURE.

The object of the N. Y. State School of Agriculture at Lower Melville, L. I., near Farmingdale, is to teach in a thoroughly practical and scientific way all subjects pertaining to farming and homemaking, and such other subjects which have to do with the advancement of country life.

The work given at the school will be responsive to local conditions, although general instruction in agriculture will be given. Students will be permitted to specialize during the latter part of their course. The work will be such as to qualify city boys and girls, as well as boys and girls already residing in the country, for productive occupations. It will appeal to many boys and girls who wish to get information that can be applied at once on the farm and in the home.

The authorities of the school have no desire to make the school a college. The institution will not be a preparatory school for colleges and universities but will be a finishing school in itself. The subjects to be taught will be determined by the requirements of the student's chosen vocation and not by the entrance requirements set forth by colleges and universities.

Tuition will be free to residents of N. Y. State. The board trustees are: H. A. Reeves of Greenport, pres.; E. H. L. Smith of St. James, V.-Pres.; B. F. Yoakum of Farmindale, J. H. Carll of Baldwin, I. H. Leveen of L. I. City, J. F. Murray of the Bronx, Dr. B. Flesch of Mhtn., J. J. Holle, Sec., of Bkln., Dr. J. J. Kindred of L. I. City, W. W. Mills of Richmond, A. A. Johnson, Dir.

DEATH OF EX-MAYOR WHITNEY.

Daniel D. Whitney, once Mayor of the old City of Brooklyn, died Nov. 10, at his home, 10 Poplar st., aged 95 years. He was born at Oyster Bay, L. I., in 1819, came to Brooklyn in 1839, engaged as a clerk in the grocery business at 20 Fulton st., subsequently becoming proprietor and continuing the business up to the time of his death. He was president and director of the Metropolitan Casualty Insurance Co. of N. Y., director of the Long Island Safe Deposit Co., and of the Mechanics Bank, and member of the Society of Old Brooklynites.

South Carolina is the only state in the Union which does not grant divorces.

MILITIA OF NEW YORK STATE.

The militia of the State is divided into two parts, the active and reserve militia; the active militia consists of the organized and uniformed military forces known as the National Guard and the organized and uniformed naval forces known as the Naval Militia. The reserve militia consists of all those liable to service in the militia, but not serving in National Guard, or in Naval Militia of the State.

NATIONAL GUARD OF THE STATE.

The National Guard comprises a division and is commanded, under the orders of the Governor, by Maj.-Gen. John F. O'Ryan, with headquarters at Albany, and an office in Municipal Bldg., Mhtn.

PROSPECT PARK ZOO.

Through the efforts, inaugurated by the Eagle, of a number of liberal minded citizens of Bkln., there is now housed in Prospect Park a good sized zoo, part of the former Bostock exhibit, which was sold in Europe. The new collection comprises 7 lions, 10 bears, 8 wolves, 1 leopard, 1 lioness, 2 hyenas, 1 Wallaby kangaroo, 1 jackal, 1 white mule, 40 monkeys and other small animals. With those already possessed by the park depart., the new additions add greatly to the attractions of the park.

Thousands of Bkln. youngsters voiced an enthusiastic welcome when on Nov. 10, the animals were conducted through the streets to Prospect Park in a great triumphal parade. Borough officials and spirited citizens addressed a large gathering at the Park Plaza.

The largest Bible in the world is the "Kahgyur," or Buddhist Scriptures which consists of 108 volumes of 1,000 pages each. Each volume weighs 10 pounds and forms a package 26 inches long, 8 inches broad and 8 inches high.

BOY SCOUTS OF AMERICA.

The organization of boys in the United States known as the Boy Scouts of America was incorporated February 10, 1910. It has as its Honorary President, Woodrow Wilson, President of the United States, and ex-Pres. W. H. Taft and Col. Theodore Roosevelt, as its Honorary Vice-Presidents. There is a National Council, comprising eminent citizens from all walks of public life, and also local councils.

The Scouts are organized in patrols and troops. Eight boys constitute a patrol, one of whom is selected as the patrol leader. Three patrols make a troop. The Scout Master is the adult leader of the troop. There are about 300 Local Councils in as many cities of the United States. Over 5,000 Scout Masters and over 2,100 assistant Sc. Masters, devote from 1 to 15 hours each week to the Boy Scouts. Work has been started in every city and territory having a pop. over 4,000 in this country, besides the Hawaiian Islands, the Philippine Islands, Porto Rico and Guam. Any boy over 12 years of age of any race or creed is eligible to become a Scout. The requirements are that he know the Scout salute, sign, and laws, and that he take the Scout oath. Scoutcraft includes instruction in First Aid, Life Saving, Tracking, Signalling, Cycling, Nature Study, Seamanship, Campcraft, Woodcraft, Chivalry, etc.

Early in 1911 this organization formed a Local Council for Brooklyn and Queens. Present local officers are: Geo. D. Pratt, Pres.; F. C. Bates, Sec.; H. A. Bullock, Treas.; Willis B. Holcombe, Ex. Sec. and Commissioner. Office, 201 Montague. There are in Brooklyn and Queens 175 Scout Masters and Assistant Scout Masters. The number of registered Scouts under the jurisdiction of the Brooklyn office is about 2,000.

UNITED STATES BOY SCOUTS.

The United States Boy Scouts was formerly the American Boy Scouts, organized April 8, 1909. It is governed along the lines followed by the U. S. Army & Navy. Owing to confusion caused by the similarity of names of the two organizations carrying on the work of the boy scout movement in this country, the name of this organization was changed. Boys from 8 to 12 constitute the Junior scouts, and from 12 to 18 Senior scouts. They are organized into scout patrols consisting of a patrol of 7 scouts under the command of a patrol leader or corporal. Three patrols make a troop. Two or more troops constitute a battalion. A battalion is commanded by a scoutmaster with the rank of major. A troop is commanded by an asst. scoutmaster with the rank of captain. Boys are given commissions as 1st and 2d lieutenants. The organization is non-sectarian. There are no dues, fees or charges. Over 800 camps were organized in various parts of the country last summer. The organization is a national one, having branches in every State and territory. The movement is intended to build up a moral and national defense. The American Eagle is the emblem, the scout's motto is "Semper Paratus." The Bkln. brigade is the largest in the country, and is under the command of Gen. A. L. Kline, Ex-Mayor of N. Y. It is composed of nine regular battalions and eight separate troops, and is 8,300 strong in the Borough of Bkln. and Queens, with 364 officers.

The Chief Scout and Pres. of the natl. organization is Gen. E. A. McAlpin, Major W. J. Physioc as Adjt.-Gen. Natl. Hdtrs. are at 68 William, Mhtn.

EXCISE FINES IN NEW YORK STATE.

The N. Y. State Dept. of Excise received during the year $42,664 in fines for excise violations. One-half of this amount goes to the localities in which the violations occurred and the balance to the State Treasurer. The above is an increase of $2,803.10 over the previous year. On Sept. 30, 1914, the end of the last fiscal year, there were 27,113 places in the State holding excise certificates. The fines paid for the year by counties are as follows:

Albany, $300; Bronx, $120; Broome, $600; Cattaraugus, $650; Chautauqua, $1,200; Cortland, $250; Delaware, $550; Dutchess, $1,700; Erie, $11,100; Essex, $650; Franklin, $200; Fulton, $300; Genesee, $450; Greene, $300; Herkimer, $100; Jefferson, $775; Kings, $1,170; Livingston, $1,050; Madison, $150; Monroe, $200; Montgomery, $300; Nassau, $175; New York, $2,255; Oneida, $972; Onondaga, $525; Ontario, $1,171; Orange, $950; Orleans, $940; Oswego, $1,900; Queens, $240; Richmond, $80; Rockland, $25; St. Lawrence, $2,900; Saratoga, $1,225; Schenectady, $275; Steuben, $675; Suffolk, $744; Sullivan, $1,050; Ulster, $450; Warren, $300; Washington, $350; Wayne, $196; Westchester, $2,993; Wyoming, $150. Total, $42,664.

INHERITANCE OR TRANSFER TAX RECEIPTS.

During the fiscal year ending Sept. 30, 1912, the net amount received for Inheritance Tax in the State of New York was $12,153,188.84; for the year ending Sept. 30, 1913, $12,724,236.86, and for the year ending Sept. 30, 1914, $11,162,478.40. The increase of about $500,000 over the receipts in former years from this source of revenue is principally due to the fact that by the amendments of 1910 and 1911 a progressive rate of tax was fixed on individual transfers exceeding certain amounts, viz.: By Chap. 706 L. 1910, the first $25,000 over the exemption, passing to persons nearly related to the decedent was taxable at 1%, and to persons remotely related at 5%. These were termed "primary rates." The next $100,000 was taxable at twice the primary rates; the next $500,000 at 3 times the primary rates; the next $1,000,000 at 4 times the primary rates, and all amounts in excess thereof at 5 times the primary rates. By Chap. 732 L. 1911 these rates were changed so as to tax the transfers to persons in the 1% class as follows: The first $50,000 over the exemption of $5,000 at 1%; the next $250,000 at 2%; the next $1,000,000 at 3% and all amounts in excess thereof at 4%. If the transfer is to a person in the 5% class, the rates of tax are 5, 6, 7 and 8% on the respective amounts as stated above over the exemption of $1,000. There has been no change in the rates of tax or the exemptions allowed to individual legatees since the amendments of 1911.

INSANITY CAUSES.

That more men go insane than women was asserted on May 24, 1914, by Dr. Horatio M. Pollack of Albany, Statistician of the N. Y. State Hospital Commission, at the convention of the Amer. Medico-Psychological Asso., held in Baltimore, Md.

In N. Y. the rate of insane is one person in every 280, said Dr. Pollack. Although more men go crazy than women, they do not live as long after they become mental wrecks.

Of the total number of insane persons in N. Y., 15% of the men and 5% of the women have become so through excessive use of alcohol, he reported.

The Constitutional Convention as provided by State constitution must meet on 1st Tues. in April at Albany. The sessions will probably be held in the Assembly Chamber, although that has not been officially determined on. As the Legislature is likely to be in session at the time the convention meets, it no doubt will take a recess until after final legislative adjournment.

NEW YORK'S CATSKILL WATER SYSTEM.

The watersheds to be developed for the new supply are west of the Hudson River, in the Catskill Mountains, and comprise a total area of nearly 900 sq. miles. These watersheds are Esopus, 255 sq. miles; Schoharie, 228 sq. miles; Rondout, 131 sq. miles; Catskill Creek, 163 sq. miles, and smaller contiguous areas. The Esopus watershed, now being developed by the construction of the Ashokan Reservoir, will have a storage capacity of 132,000,000,000 gals. The amount of water this reservoir will hold would cover Mhtn. Island to a depth of 28 ft. This watershed will furnish an estimated daily yield of at least 250,000,000 gals. The Catskill Aqueduct, as built, has a daily capacity exceeding 500,000,000 gals., and, following approval by the State Conservation Comm. on Oct. 21, 1914, of the development of the Schoharie watershed with an available estimated daily yield of 200,000,000 gals., preliminary investigations have been started. From the Ashokan Reservoir the Catskill Aqueduct will convey water south, passing about 5 miles southwest of Newburgh, thence 1,100 ft. under the Hudson River at Storm King down through the Croton watershed and into Kensico storage reservoir (38,000,000,000 gals.' capacity), about 3 miles north of White Plains. From Kensico the water will flow south about 15 miles to Hill View Reservoir, Yonkers. The function of this reservoir is to equalize the water pressure required by variable demand during the day. The 5 boroughs will be served from Hill View Reservoir by a tunnel under the city, reducing in diameter from 15 to 14, 13, 12 and 11 ft. successively. From two terminal shafts in Bkln. pipe lines will extend into Queens and Richmond. The crossing of the Narrows to Silver Lake Reservoir (capacity 400,000,000 gallons) will be by a pipe line laid on the Harbor bottom. The water tunnel in the city is at depths varying from 200 to 750 ft. below the street surface. The total length of the City delivery system is 34 miles. The entire aqueduct length from Ashokan Reservoir, 15 miles west of Kingston to Silver Lake Reservoir, Staten Island, is 121 miles. The total estimated cost of the work in hand is $176,857,000. It is estimated that 98% of the work on the Catskill Water Supply System necessary to commence delivering water to the 5 boroughs of the city has been completed. Construction work was commenced in 1907. The first installment of 250,000,000 gals. daily is expected to be ready for delivery in 1916.

Commrs. of the Bd. of Water Supply are: Charles Strauss, Pres.; C. N. Chadwick, John F. Galvin.

POLITICAL REVIEW OF 1914.

New York State Politics.

Politically the local features of the year 1914 were the first try-out of the State-wide direct primary system in New York and the first election of a U. S. Senator by popular vote. In all parties the candidates to be voted on in Nov. were chosen in Sept. by the enrolled voters of each party in official primaries for the first time in the history of the State.

Under the new law each aspirant for nomination got his place on the official ballot of his party primary day by petition. Each candidate went through practically two campaigns—one before primary day and the other the regular fall campaign. The system developed one outstanding feature—that politics for the candidate was far more costly than ever before.

The Republicans began grooming candidates early in the year. In fact, the boom for Dist. Atty. Chas. S. Whitman of N. Y. County, was well under way by spring Theodore Roosevelt, the Progressive leader of N. Y. State, as well as of the Nation, came to the front early in the spring opposing the Whitman boom and favoring a fusion between the Republicans and Progressives on some other candidate. Harvey D. Hinman of Binghamton announced his candidacy for the Republican Gubernatorial nomination. Roosevelt endorsed it almost immediately and began a series of assaults on the Whitman boom. The war overshadowed the move and Hinman was left to go down to hopeless defeat at the polls of the Republican primaries.

Primary Campaign.

Bkln. played an important role in the Republican primary campaign. Here the first Whitman com. was organized, under the management of State Senator C. C. Lockwood, in the 5th A. D. of which T. B. Lineburgh is leader. W. H. Friday was chosen chairman. Congressman Wm. M. Calder, during the summer, announced his candidacy for the nomination for U. S. Senator on the Republican ticket and prior to that former State Senator Eugene M. Travis came out as an aspirant for the State Controllership nomination on the same ticket.

The county organization was placed in an extremely delicate position. At heart most of the leaders were for Whitman for Gov. and they wanted to support both Calder and Travis, but feared they would antagonize the whole up-State by standing out for 3 men for the most important offices on the ticket all from N. Y. City. By dint of hard effort Calder succeeded in getting the leaders to indorse him in executive committee meeting and to hold off action on either the Whitman or Travis booms.

The Republican, Democratic and Progressive parties all held unofficial conventions in the latter part of the summer, although the official power of such gatherings had been wiped out by the new primary law, which ruled that such bodies could designate tickets but could not actually nominate the candidates. Only 1 of the 3 parties took advantage of this to name a ticket. That was the Progressive organization, which designated a full ticket.

By a referendum election in the spring of 1914 it had been decided by vote of the people to hold a constitutional convention this year and that delegates to such a body, 3 from each Senatorial dist., and 15 at-large, should be chosen at the fall election. All 3 conventions took advantage of the "designation" privilege accorded them under the new law to select a slate for the 15 delegates-at-large.

The Republican convention met at Saratoga on Aug. 18, 1914. Three days before that the leaders began to gather there and the supporters of every aspirant began to solicit indorsement from leaders of other sections. There were 2 big camps, the Hinmanites and the Whitmanites. Besides these a small body of leaders rallied around Job E. Hedges, a N. Y. City Republican, who ran 2 years ago and who announced himself again a Gubernatorial aspirant early in the spring.

Without doing anything but designating a slate of 15 delegates to the constitutional convention, adopting a State platform and exchanging views, the delegates to the convention adjourned on Aug. 19. During the session M. J. Dady, leader of the 1st A. D., Kings, bolted the Calder Senatorial boom and came out for Wadsworth. He was the only Bkln. G. O. P. leader to desert Calder.

The Democrats held their unofficial convention at the same place on Aug. 26. They followed the example of the Republicans in designating no State ticket and confining their labors to suggesting a slate of 15 delegates-at-large to the constitutional convention and the drafting of a State platform.

The Progressives, meeting at Utica on Aug. 28, designated the following State ticket: Gov., F. M. Davenport of Oneida; U. S. Senator, Bainbridge Colby, of N. Y.; Lieut.-Gov., C. J. Hamlin, of Erie; Sec. of State, J. D. Toomey, of Westchester; Atty. Gen., R. H. Elder, of Kings; Compt., J. B. Burnham, of Essex; State Treas., H. D. Call, of Onondaga; State Engr. and Surveyor, Leon Moisieff; Judge of the Court of Appeals, Samuel Seabury, of N. Y. Moisieff declined to run and H. C. Collis was substituted for his name on the ticket.

Meanwhile Wm. Sulzer, impeached and deposed from the Gubernatorial chair, announced that he would run again independently for Gov. He assembled a convention, that designated him for Gov., formed the Amer. party and named candidates for nearly every office to be filled. Many of these candidates declined to run with Sulzer but he stuck to the movement, had himself nominated by independent petition and then ran in the Progressive primaries, failing to carry them by only a small vote.

At the same time J. A. Hennessy, Sulzer's former graft investigator, came out as a candidate for the Democratic Gubernatorial nomination as opposed to M. H. Glynn, the Gov. who was favored by Tammany Hall and its allies as well as a large percentage of the Independent Democrats for re-nomination.

Hennessy withdrew from the field after an overwhelming defeat primary day, but Sulzer fought on and the vote he got, mainly a mixture of Democratic and Progressive supporters, was probably the main cause of Democratic defeat.

The Republican primary campaign proved interesting. The race between J. W. Wadsworth, of Geneseo, the favorite of State Ch. Wm. Barnes, who resigned that post a short time before primary day, for U. S. Senator and Calder, of Bkln., was close but the up-State man won. Whitman outdistanced all his opponents easily and in the Democratic primaries Glynn easily carried the field over Hennessy, while in the Progressive contest, Davenport won but by a very narrow margin.

The Democratic contest over the Senatorial nomination resulted in a victory for J. W. Gerard, Ambassador to Germany, over F. D. Roosevelt, who ran with Hennessy.

As a result of the primaries held on Sept. 28, the following tickets were put in the field: Democratic—U. S. Senator, J. W. Gerard; Gov., M. H. Glynn, of Albany; Lieut.-Gov., T. B. Lockwood, of Erie; Sec. of State, Mitchell May, of Bkln.; State Compt., Wm. Sohmer, of N. Y.; State Treas., A. C. Carp, of Onondaga; State Engr. and Surveyor, J. A. Bensel, N. Y.; Atty. Gen., J. A. Parsons, of Steuben; Asso. Judge of Ct. of Appeals, S. Seabury, N. Y. Republican—U. S. Senator, J. W. Wadsworth, of Genesee; Gov., C. S. Whitman, N. Y.; Lieut.-Gov., E. Schoeneck, Syracuse; Sec. of State, F. M. Hugo, Watertown; Compt., E. M. Travis, Kings Co.; State Treas., J. L. Wells, of The Bronx; State Engr. and Surveyor, F. M. Williams, Orange; Atty. Gen., E. E. Woodbury, of Chautauqua; Asso. Judge of Ct. of Appeals, E. A. Chase, of Greene. Progressive—Same as those named at Utica convention, see above.

The Independence League indorsed Gerard, Glynn, May and Sohmer, Dem.; Schoeneck, Rep., and Call, Prog., running only 2 Leaguers, J. Martin, for State Engr. and Surveyor, and S. Seabury for Ct. of Appeals Judge, indorsed by the Democrats.

The Republicans elected their complete State ticket with the exception of Chase for Ct. of Appeals Judge, Seabury winning that on the Democratic and League tickets with the aid of Progressive indorsement.

National Politics.

In natl. politics the year was marked by a close contest for control of the next Congress between the present Administration and the Republican opposition. The election on Nov. 3 cut down the Democratic majority in the House. Democratic control of the Senate was retained. A Republican landslide in several of the Easterr and Northwestern States, with the return o

FOURTEENTH WHITE HOUSE BRIDE.

Miss Eleanor Randolph Wilson, youngest daughter of President and Mrs. Woodrow Wilson, was married in the Blue Room of the White House on May 7, 1914, to William Gibbs McAdoo, Secretary of the Treasury. This is the only time in the history of the White House the daughter of a President became the wife of a member of his Cabinet. Rev. Sylvester W. Beach officiated.

The previous White House marriages have been: Lucy Payne Washington, Mrs. Madison's sister, to Justice Todd of the Supreme Court, 1811; Anna Todd to Representative John G. Jackson, 1812; Maria Monroe, daughter of the President, to Samuel Lawrence Gouverneur, 1820; Helen Jackson to John Adams, a son of the President, 1826; Delia Lewis to Alphonse Yver Pageot, 1829; Mary Easton to Lucien B. Polk, 1835; Emily Martin to Lewis Randolph, 1837; Elizabeth Tyler, daughter of the President, to William Waller, 1842; Nellie Grant, daughter of the President, to Algernon Sartoris, 1874; Emily Platt, niece of President Hayes, to Gen. Russell Hastings, 1878; Frances Folsom to President Grover Cleveland, 1886; Alice Roosevelt to Representative Nicholas Longworth, 1906; Jessie Woodrow Wilson to Francis B. Sayre, 1913.

PALISADES INTERSTATE PARK.

A great and beautiful wilderness within a short distance of N. Y. City is the Palisades Interstate Park, established in 1900 by the Legislatures of N. Y. and N. J. for the protection of the Hudson River waterfront. This public action was supplemented by the gift of 10,000 acres of land and $1,000,000 by Mrs. Mary W. Harriman and more than $2,000,000 more in land and money by other persons. The commission now owns all the Palisades except two small parcels and most of the river front bet. Ft. Lee, N. J., and Nyack, N. Y.

For the last dozen years campers by the hundreds have pitched their tents in the lower part of the park, opp. Ft. Washington Point, on the N. Y. side. Camping permits for Bear Mountain were granted for the first time in 1914. Permits are good for 4 weeks' continuous camping.

The commission has had constructed or rebuilt 9 piers at various points, where boats of all sizes can land and discharge passengers. The commission has had constructed a large basin at Alpine, opp. Yonkers, which affords a safe harbor for small craft in case of storm. At Bear Mountain there are new picnic grounds, with ball fields and tennis courts.

A short distance south of Nyack the commission has a large tract commanding a splendid view of the surrounding country. This ground formerly was used as the N. Y. State rifle range. The commission made the necessary changes to make it available for a summer camp for working girls, which opened July 1 in charge of women connected with the Y. W. C. A. Miss Cora L. Tatham of 600 Lexington av., Mhtn., is in charge.

FACTS ABOUT BROOKLYN NAVY YARD.

Has an annual payroll of more than $6,000,000, $30,000,000 worth of stores are purchased and distributed annually through it. Is the largest in the U. S. In equipment, size and efficiency, has no superior in the world. Only one in which the modern dreadnaught can be built. Is now constructing the largest superdreadnaught in the world, the Arizona. Has a basin 33 ft. deep at low tide. Is nearly 200 acres in extent. The 16,000-ton battleship Connecticut, the 21,825-ton battleship Florida, and the 27,000-ton battleship New York, the largest battleship in service in the world, were built there. The New York was constructed there at $450,000 less than the cost of her sister ship, the Texas, built by a private firm. Has hospital, chapel, library, athletic field, beautiful lawn. Has commandant's home, built more than 100 years ago. Has buildings with overhead traveling cranes. All power, steam, electric, compressed air and hydraulic, furnished from centrally located powerhouse. Largest boring mill ever built, which is intended for turbine casing work, turrets and turret tracks, being installed. Only plant in U. S. for manufacturing oil engines of large size. Is the greatest repair yard in the country. Its hoisting apparatus is believed to be greater than any plant, commercial or governmental, in the country. Has floating crane capable of lifting 125 gross tons; also a 20-ton crane. Has 3 locomotive cranes, 2 to 40 tons and 1 being completed, the largest of its kind ever built, with capacity of 50-ton lift at reach of 75 ft. Has 8 locomotive cranes of from 10 to 20 tons capacity. Dry Dock No. 4 is the largest in the U. S. Has 4 dry docks.

CITY OF NEW YORK MUNICIPAL GOVERNMENT.

The Govt. of the City of New York has 3 officials elected by the whole city, the Mayor, the Comptroller and the Pres. of the Bd. of Aldermen. The last is Vice-Mayor. There is a Borough Pres. for each of the 5 boroughs, elected simultaneously with the Mayor, and certain deps. of borough depts. with the presidents as executives. The general city depts. are filled by appointees of the Mayor, who also names members of the Bd. of City Magistrates. The legislative branch is the Bd. of Aldermen, elected by districts. Certain constitutional officers of counties are still elected, though they are paid out of the city budget, and the counties are otherwise not considered. The charter of 1901, which went into effect Jan. 1, 1902, defines the functions of all depts.

CHARTER OF THE CITY OF NEW YORK.
(Complete text with 1914 Amendments, Eagle Library, No. 119.)

The charter of the City of New York is a development of the charters of the former cities of New York, Brooklyn and Long Island City, differing from all of them, however, by the introduction of the principle of local control over local affairs. In this feature the charter provides a system of govt. more nearly like that of London and continental cities. For a history of charter making see Introduction to Eagle Library, No. 119, and 1902 Eagle Almanac, page 404.

EXECUTIVE DEPARTMENT.

THE MAYOR'S OFFICE.

Room 5, City Hall, 9 A.M. to 5 P.M.; Sat. to 12 M.

The executive power of the city is invested in the Mayor, the Presidents of the Boroughs and the officers of the depts. The Mayor is the chief executive officer. His term begins on the 1st day of Jan. after his election and continues for 4 yrs. He is eligible for re-election. The Mayor appoints the heads of depts. and commissioners, except those over which the Presidents of the Boroughs have jurisdiction, and except, also, the head of the Dept. of Finance. He can remove at any time any official appointed by him, except the members of the Bd. of Education, trustees of the Coll. of the City of N. Y., and trustees of some hospitals, and certain judicial officers. He himself can be removed from office by the Governor, after a hearing, upon charges.

The Mayor has the power of veto over all ordinances and resolutions of the Bd. of Aldermen, but if he does not disapprove they become laws after a lapse of 10 days, or the next meeting after 10 days.

An ordinance or resolution can be passed over the Mayor's veto by a vote of two-thirds of all the members elected to the Bd. of Aldermen, except that when it involves the expenditure of money, the creation of a debt or the laying of an assessment, a three-fourths vote is required. The Mayor countersigns all warrants drawn by the Comptroller upon the Chamberlain for payments on behalf of the corporation. He has also to sign all bonds, together with the Comptroller. In the absence or sickness of the Mayor the Pres. of the Bd. of Aldermen is the Acting Mayor. He shall not appoint to, or remove from office any official, unless the absence or sickness of the Mayor continues 30 days, nor shall he approve or disapprove any resolution or ordinance unless such absence or sickness continues 9 days. (For duties of Mayor see N. Y. City Charter.)

LEGISLATIVE DEPARTMENT.

The legislative power of the city is vested in the Bd. of Aldermen, consisting of 73 members elected for 2 yrs., in the President of the Bd. and the Presidents of the Borough. The salary of the Aldermen is $2,000 per yr. The Pres. of the Bd. receives $5,000 a yr. He is elected by the city for 4 yrs. Each head of an administrative dept. of the city is entitled to a seat in the Bd. of Aldermen, and shall attend its meetings when required by the board, but has no vote. No member elected to the Bd. of Aldermen is eligible to any other office under the city during the term for which he is elected. The board is required to meet at least once a month, except during the months of Aug. and Sept. Resolutions and ordinances of the board must be passed by a vote of a majority of the members of the board. It cannot authorize the ex-

penditure of any money for any celebration, procession, funeral, reception or entertainment, except by a vote of four-fifths of its membership. (See City Charter.)

THE LOCAL IMPROVEMENT BOARDS.

The Aldermanic districts are divided into 25 local improvement districts. (See index.) The Pres. of the Borough as chairman and the Aldermen residing in each local improvement district constitute the local board. The local boards are empowered to initiate such improvements as grading and paving streets and constructing sewers, subject to the approval of the Bd. of Estimate, if they involve an assessment. If the improvement involves a cost of more than $500,000, it must be approved by the Bd. of Aldermen. When the cost of flagging sidewalks, grading lots or fencing lots is less than $2,000, the approval of the Bd. of Estimate and Apportionment is not necessary, and it then becomes the duty of the Borough Pres. to execute the work. The local boards are also authorized to hear complaints and pass resolutions on nuisances in streets or against disorderly houses, drinking saloons conducted without the observance of licenses, gambling houses or other matters concerning the peace or good government, and concerning the condition of the poor within their respective districts. All petitions for local improvements should be addressed to the Pres. of the Borough for presentation to the local board having jurisdiction. (See City Charter.)

BOROUGH GOVERNMENTS.

PRESIDENTS AND COMMISSIONERS OF PUBLIC WORKS.

The Presidents of the five boroughs are elected at the same time as the Mayor; terms expiring Dec. 31, 1917. The President of the Borough presides over each local board. The sec. to the Boro. Pres. is secretary of the local boards. Each Borough Pres. is a member of Board of Aldermen and has same right to vote as any member elected to board of Aldermen. The Boro. Pres. may appoint and at his pleasure remove a Com. of Public Works for his borough, whose duty it is to discharge all the administrative powers of the Pres. relating to streets, sewers, public buildings, supplies. The Pres. of Boro. has cognizance and control of all matters relating to improvement and repair of public buildings, within his borough, except schools, hospitals, fire and police stations, penitentiaries, etc. He is empowered to exercise the supervision vested in the city over construction of buildings in his borough, except such powers as are directly vested in the Tenement House Commission, and to that end he is authorized to appoint a Supt. of Bldgs. The Boro. Prests. are also members of Bd. of Estimate and Apportionment, which controls the city's finances, in which Board their votes have the following value: Boro. Pres. of Mhtn., 2, of Bkln. 2, and Bronx, Queens and Richmond each 1—total, 7. The total vote in that Board is 16; the remaining 9 votes are divided equally among the Mayor, Comptroller and Pres. of the Bd. of Aldermen. In Boros. of Richmond and Queens the Pres. of the boroughs in addition to their other powers, have jurisdiction over cleaning of streets and removal of ashes and garbage. (See City Charter.)

FIRE DEPARTMENT, CITY OF NEW YORK.

Headquarters, Municipal Bldg., Manhattan. Brooklyn Office, 367 Jay st.

The Fire Commr. is the head of the Fire Dept. He is required to appoint two deputies, one of whom shall sit in the office of the dept. in the Borough of Bkln. The Commr. is treasurer of the dept. and has to give a bond of $20,000. He is also trustee of the Fire Dept. Relief Fund, for which he has to give a bond of $100,000. He possesses all powers and performs all duties for the government, management, maintenance and direction of the dept., which has sole and exclusive power and authority to extinguish fires in the city. The Commr. has power to select the heads of bureaus and assistants and as many officers and firemen as may be necessary. The Commr. prescribes rules and regulations for the government of the dept. He is to appoint a Fire Marshal for Mhtn., The Bronx and Richmond and a Fire Marshal for Bkln. and Queens each with a salary of $3,000, both of whom become members of uniformed force by virtue of their appointment as fire marshal. A pension bureau is connected with the dept. A tax of 2% is laid on the business of foreign insurance companies, which shall go to this pension fund.

The provisions of Chap. 899 of the Laws of 1911 and of the amendments thereto have added largely to the powers and duties of the Commr. in the matter of fire prevention. This law provides for a Bureau of Fire Extinguishment which under the direction of the Fire Commr. shall have charge of the extinguishment of fires and the necessary and incidental protection of property in connection therewith. The head of this bureau is the Chief of Dept. It also provides for a Bureau of Fire Prevention, the official in charge of which shall be known as the Chief of the Bureau of Fire Prevention and appointed by the Fire Commr. The former bureaus of Fire Marshal, Combustibles and Violations and Auxiliary Fire Appliances are now divisions of the Bureau of Fire Prevention.

The Bureau of Fire Prevention has charge of all matters relating to the prevention of fires, including those relating to the storage, sale, transportation or use of combustibles or explosives; to the installation and maintenance of automatic or other fire alarm systems and fire extinguishing equipment; to the means and adequacy of exits from all buildings, structures, vessels, places and premises in which numbers of persons work, live or congregate from time to time for any purpose, except tenement houses and except factories as defined by the Labor Law; and finally to the investigation of the cause, circumstances and origin of fires and the suppression of arson.

The Fire Commr. is empowered to make inspections and order, in writing, the remedying of any conditions found to exist in violation of any law or ordinance in respect to fires or the prevention of fires, except the tenement house law; but the Fire Commr. shall make no such order respecting the means and adequacy of exit from a factory as defined by the Labor Law; require, in writing, the installation, as prescribed by any law or ordinance, of automatic or other fire alarm systems and the maintenance and repair thereof, or the construction of adequate and safe means of exit, except in tenement houses and except in the case of factories as defined by the Labor Law; to require any building, structure, inclosure, vessel, place or premises which in his opinion is not adequately protected against fire perils to be vacated or condemned and removed; to cause any vessel moored to or anchored near any dock or pier in the city to be removed and secured at such place in the harbor as he may designate, provided such vessel shall be on fire or in danger of catching fire, or, by reason of its condition, a menace to shipping or to property on the waterfront of the city. He is also authorized to cause any order of his or of the dept. which is not complied with within the time fixed in the order, to be enforced and to take proceedings for the enforcement thereof. Any of the premises specified which shall be found to be perilous to life or property in case of fire therein or adjacent thereto, by reason of the nature or condition of its contents, or its use, or the overcrowding at any time of persons therein, or defects in its construction, or deficiencies in such fire alarm or fire extinguishing equipment as may be required by law or ordinance, is a nuisance within the meaning of the act, the Penal Code and the code of ordinances. The new law empowers and directs the Fire Commr. to abate the same. In the event of a refusal to comply, the dept. may execute the order with its own employes and equipment or by the employment of other agencies. The law further provides that if any order of the Commr. or dept. is not complied with, or the Commr. certifies in writing that an emergency exists requiring such action, he may order any building, structure or vessel to be vacated. If such order is not complied with within the time designated therein, the Commr. in addition to or in lieu of the remedy hereinbefore provided, may apply, without notice, to a Special Term of the Supreme Court for an order directing the Commr. to vacate the premises or so much thereof as he may deem necessary, and prohibiting and enjoining all persons from using or occupying the same for any purpose until the measures required by the order are taken.

By Chap. 458 of the Laws of 1912 amending the Greater N. Y. Charter (Sec. 775a) in relation to the prevention of fires the Fire Commr. is empowered to make and enforce such general regulations or special orders as he may deem necessary respecting the regular and periodical performance of a fire drill in any factory, store or other business establishment, or in any school, hospital, infirmary, asylum or other charitable or eleemosynary institution within the City of N. Y. The term "fire drill" shall be construed to mean any instruction or practice in the use of means of egress and of alarm or fire-extinguishing equipment which the Fire Commr. may prescribe by general regulation or special order.

On Oct. 21, 1911, the Fire Commr., pursuant to the provisions of Chap. 899, Laws of 1911, issued a general order establishing a Bureau of Fire Extinguishment, and also a Bureau of Fire Prevention. The Bureau of Fire Prevention consists of the following divisions: Fire Marshal, Combustibles, Violations and Auxiliary Fire Appliances, Places of Public Assembly and Legal Division.

Note—Questions are apt to arise concerning the jurisdiction of the Fire Commr. over factories, factory buildings and mercantile establishments, in view of numerous amendments to the Fire Prevention Law (as incorporated in the amended Greater N. Y. Charter), and the Labor Law. These amendments became operative on Oct. 1, 1913. Among them is one creating an Industrial Board in the Dept. of Labor (see Eagle Labor Laws Library), with power to make, alter, amend or repeal rules and regulations for guarding against and minimizing fire hazards, with respect to the construction, alteration, equipment and maintenance of buildings of the classes above referred to. Another amendment provides that the Fire Commr. shall enforce all the rules and regulations of the Industrial Board with respect to the prevention of fires, the storage, sale, transportation or use of combustibles, chemicals and explosives; the installation and maintenance of automatic or other fire alarm systems and fire extinguishing equipment; and the investigation of the cause, circumstances and origin of fires and the suppression of arson. These various amendments having been submitted for the consideration of the Corp. Counsel, the latter advised the Fire Commr., that after Sept. 30, 1913, when the amendments referred to became effective, it would be the duty of the Fire Commr. to enforce the fire prevention provisions of the Labor Law and particularly those which contain definite requirements or prohibitions, by criminal prosecutions for violations thereof, under Section 1275 of the Penal Law, or by evictions as authorized by subdivision 4 of Section 775 of the amended Greater N. Y. Charter. The Corp. Counsel further advised that, while some of the provisions of the amendments to the Labor Laws raised a question as to the extent, if any, to which the powers of the Fire Commr. have been curtailed by their enactment, nevertheless it is the duty of the Fire Commr. not to relax his efforts to enforce statutes and ordinances at present in force, until the effect of the new laws upon such powers has been judicially determined.

FIRE DEPARTMENT, CITY OF NEW YORK—*Continued*.

HIGH PRESSURE FIRE SYSTEM.

Manhattan.

The High Pressure Fire Service in Mhtn. now in actual use protects approximately 3,120 acres. Additions which are at present contemplated will be made over 480 acres, making a total acreage protected of 3,600 acres. There are two pumping stations in Mhtn., and the high pressure system without the additions referred to has 108 miles of mains, with 2,372 hydrants.

There are two pumping stations, one at Oliver and South sts., serving the district from Houston to the Battery; the other at Gansevoort and West sts., serving the district from Houston to 23d st. Either station can serve either district or both combined at any point. Each station has six electrically driven centrifugal pumps, each pump having a rated capacity which has been exceeded under actual test of 3,000 gals. per minute, against a pressure of 300 lbs., giving a combined capacity of the two stations of 36,000 gals. per minute, or 51,840,000 gals. per day available within two minutes after the alarm sounds at any point within the High Pressure Service District.

OPERATION—On receipt of fire alarm at pumping station, simultaneously with that of Fire Hdqts., a pressure of 125 lbs. is immediately put on the mains, which pressure reaches the entire system before the Fire Dept. can arrive at the fire. High pressure telephone boxes are placed adjacent to or near each fire alarm box, and instant communication with the high pressure pumping stations can thus be had and orders for the increase or decrease of pressure or shut down of the system can be immediately communicated.

BOUNDARY—Hudson River, 23d to Irving pl., to 14th, to 3d av., to Bowery, to Houston, to East River, to Battery, to Hudson River, to 23d.

AREA COVERED—3,120 acres, including the drygoods district.

COST, COMPLETE—$6,100,000.

INSTALLED—Original system July 6, 1908; additions, Feb., 1911; Nov., 1911, and July, 1913.

THE SYSTEM CONSISTS OF 108 miles of mains 12 to 24 inches in diameter; 2,372 4-noxzle hydrants; 416 telephone boxes directly connected to pumping stations.

Brooklyn.

The High Pressure Fire Service in Bkln. protects a total acreage in this borough of approximately 3,100 acres, exclusive of Coney Island, which protects approximately 470 acres.

There are two pumping stations. The main station is at Joralemon and Furman and the reserve station at Willoughby and St. Edwards. These stations have the same type of equipment as the Mhtn. stations, the main station having 5 units and the reserve station 3 units, with rated capacity of 3,300 gals. p. m. each against 300 lbs. Coney Island has 1 station, located at Neptune av. and W. 12th. This station's equipment consists of 3 gas engine driven triplex double acting pumps of rated capacity of 1,500 gals. p. m. each against 150 lbs.

OPERATION—At the main and reserve stations on receipt of alarm at station, simultaneously with that at Fire Hdqtrs., a pressure of 75 lbs. is immediately put in the main. This pressure reaches extreme ends of system and is ready when firemen reach location of fire. This pressure is increased by increments of 50 lbs. when desired by calling up station from any telephone of system used in connection with this system which connects directly with pumping stations. The pressure is shut off from system in same manner when fire is out. At the Coney Island station the maximum pressure of 150 lbs. is put on when alarm is received.

BOUNDARY—The upper bay, Hudson av., Tillary, St. Edwards, St. Felix, Ft. Greene pl., 5th av., 24th, 4th av., 39th, to the water front.

COST OF SYSTEM—$1,475,000; cost of additions, $650,000. Total, $2,125,000.

THE SYSTEM CONSISTS OF 45 miles of main from 20-inch to 12-inch diameter; 1,384 high pressure hydrants; 226 telephone boxes connected directly to station.

FIRE SALVAGE CORPS.

The Salvage Corps of Gr. N. Y. are owned and maintained by the insurance cos. of the city for the purpose of protecting life and property at and after fires. There are 2 separate organizations, 1 in Mhtn., called the N. Y. Bd. of Fire Underwriters, and 1 in Bkln. called the Fire Insurance Salvage Corps of Bkln. Each organization has established stations equipped with fire alarms, which are connected with those of the City Fire Dept. patrol wagons and other apparatus necessary for the prevention of destruction of property by fire and water. Each station is supplied with a force of men to answer all fire alarms. By charter the Salvage Corps have the same right of way in the sts. and same privileges in entering houses as the Fire Dept.

Brooklyn.

Fire Ins. Salvage Corps of Bkln.—128 William, Mhtn.; E. E. Pearce, Pres.; J. G. Hilliard, V.-Pres.; J. H. Kelly, Sec.; A. M. Thorburn, Treas.; J. O. Schwank, Supt. Stations: No. 8, 12 Dean; No. 9, 33 Stagg; No. 10, 516 Herkimer. Force, 60 men.

Manhattan and The Bronx.

N. Y. Bd. of Fire Underwriters—123 William. Officers: H. Herrick, Pres.; C. F. Shallcross, V.-Pres.; A. M. Thorburn, Sec.-Treas. Com. on Fire Patrol—E. E. Pearce, Ch.; E. G. Snow, V.-Ch.; M. J. Ennis, Wallace Reid, Chas. H. Post, Geo. B. Edwards, J. G. Hilliard, J. O. Schwank, Supt. Stations: No. 1, 41 Murray; No. 2, 84 W. 3d; No. 3, 240 W. 30th; No. 4, 113 E. 90th; No. 5, 307 W. 121st; No. 6, 276 E. 156th; No. 7, 133 Norfolk. Force, 180 men.

NUMBER OF FIRES.

Fire Com'r Adamson has collected statistics of the number of fires in one year in New York, London, Paris and Berlin, together with the loss of life caused by fires in this city and the average loss in buildings, as follows:

New York City—Area in sq. miles, 326; population, 5,271,629; No. of fires, 15,633; total loss, buildings and contents, $9,069,580; average loss per fire, $580; No. of deaths resulting from fires, 61.

London—Area in sq. miles, 117; population (city proper), 4,522,961; No. of fires, 3,387; total loss, buildings and contents, $2,137,220; average loss per fire, $631.

Paris—Area in sq. miles, 30; population, 2,846,986; No. of fires, 3,633; total loss, buildings and contents, $1,412,628; average loss per fire, $389.

Berlin—Area in sq. miles, 24; population, 2,094,806; No. of fires, 2,880.

NUMBER OF FIRE HORSES.

In June, 1914, there were 1,300 horses in the N. Y. Fire Dept. service. Commissioner Adamson hopes to see them all replaced by motor apparatus within the next 4 years. It will require $250,000 each year to effect the change, or a total of $1,000,000, it is estimated.

BOARD OF INEBRIETY.

The Bd. of Inebriety of N. Y. City consists of J. A. Kingsbury, Pres.; Wm. Browning of Bkln.; John Dorning, of Mhtn.; B. B. Barrett, Mhtn.; Rev. J. J. Hughes, Mhtn.; T. S. Colton, Mhtn.; Comr. of Correction, Katherine B. Davis. Office, 300 Mulberry, Mhtn. A farm consisting of land and lake, costing $75,000, was purchased in spring of 1913 at Warwick, N. Y. The Bd. of Estimate appropriated $6,500 on July 1, 1913, for architect's fees in connection with plans for hospital bldgs. to be erected. In July, 1914, $7,000 was appropriated for a temporary bldg. A limited number of voluntary patients have been received since that time. When a further appropriation is available the colony bldgs. will be constructed. Under the law Magistrates will have power to send cases of inebriety to the Warwick Farm, and a Court Record also has power to act on the application of the relatives of inebriates.

POLICE DEPARTMENT, CITY OF NEW YORK.

Headquarters, Centre and Broome Sts., Mhtn.

The Police Dept. head is the Police Comr., appointed by the Mayor. The Comr. has the power to make and enforce the rules of the Dept. and to appoint, remove after trial and promote members of the force, subject to the civil service laws and the appropriation made by the Bd. of Estimate and Apportionment and the Bd. of Aldermen. He is Treas. of the Police Pension Fund.

The Police Comr. is assisted in the execution of his office by the Deputy Police Comrs.

The Central Office is under the immediate command of the Police Comr.

The territory within police jurisdiction of the city is divided, for police purposes, into Inspec. Dis.; territory within an Inspec. Dis. is divided into Precincts; territory within a precinct is divided into posts. As may be directed by the Police Comr., adjacent posts within a precinct are grouped to form a Section.

A post is designated, according to its nature, as patrol, fixed, traffic or special. Foot, mounted and bicycle posts are included in the classification "patrol posts," as are also day and night posts where they are in operation.

A patrol post includes public thoroughfares within the boundaries of the post as described by the Police Comr.; it does not include interior of bldgs., except as otherwise specified by the Police Comr., and except that station house post includes office of station heuse.

A fixed post includes territory common to intersecting vehicular roadways which are designated by the Police Comr. A fixed post is covered at night bet. specified hours.

A traffic post includes that portion of the public thoroughfare which is required in the proper regulation of vehicular traffic at a location designated by the Police Comr.

A special post is temporary. The purpose of it, the location or boundaries, and the time during which it is to be covered must be authorized by Police Comr.

FINANCES OF THE CITY OF NEW YORK.

[The Eagle Almanac is indebted to the Div. of Chief Accountant's Office, Dept. of Finance, The City of New York, for courtesies in furnishing the data for this chapter in the Almanac. The same is hereby acknowledged.]

BUDGET OF THE CITY OF NEW YORK FOR 1915.

According to Section 226 of the Charter of the City of New York, the Bd. of Estimate and Apportionment (composed of the Mayor, Comptroller, Pres. of Bd. of Ald., and Presidents of Boros. of Mhtn., Bronx, Bkln., Queens and Richmond, from figures furnished by the heads of all departments not later than Sept. 10, annually between Oct. 1 and Nov. 1, prepares a budget of amounts estimated as requisite for the conduct of the city's business during the ensuing year. Public hearings thereon are mandatory, and within 5 days after budget is made and amounts therein authorized, it must be submitted to the Bd. of Ald. and adopted by said Board within 20 days after being convened by the Mayor in special session. Should the latter Board fail to act within such time, the budget as originally submitted stands. Board of Ald. may reduce, but cannot increase the budget, said reductions, if any, being final. Budget must then be signed by Mayor and Comptroller within 10 days, the former also having power to reduce, but not increase same. Thereafter budget is filed with the City Clerk as a public document.

NEW YORK CITY DOCK DEPT. BONDS.

The revenues realized by the City from the operation of the Dock Department are sufficient to meet all administration, operation and maintenance expenses, together with interest and amortization charges on nearly $70,000,000 ($69,943,053) of Dock Bonds, which in consequence have been exempted from the constitutional debt of the City by the Appellate Division of the Supreme Court in accordance with certain provisions of the State constitution.

NEW YORK CITY'S ASSESSMENT BONDS.

If the total interest on the assessment bonds issued by the City payable from assessments levied against property presumably benefited by the improvements made and to finance which these assessment bonds were issued, was payable and the entire principal was redeemable from the proceeds of special assessments laid for that purpose, it would mean that all of these bonds were also fully self-carrying; but as the City in many cases has to assume a certain percentage of the assessments levied for certain improvements made, it follows that only a proportion of these assessment bonds is payable principal and interest from the proceeds of assessments laid for that purpose. A careful estimate of the proportion of assessment bonds on which interest and principal may ultimately require to be provided for by the City would place such as not exceeding 15 per cent. of the total amount thereof.

NEW YORK STOCK EXCHANGE SEATS.

Before 1868, seats on the Exchange were not transferred by purchase and sale. An initiation fee of $3,000 was, however, required from members duly elected by the Board. In 1868, the transfer of seats began to have a market valuation, for in that year the present system of transfer was instituted.

NEW YORK CITY'S WATER BONDS.

Of the total amount of water bonds outstanding there are probably from $95,000,000 to $100,000,000 which are self-carrying. The water revenues actually realized each year are probably sufficient to meet all administration, operation and maintenance charges of the Water Department per se, and to provide annual interest payments on and set aside a sum sufficient to amortize and ultimately redeem the principal of from $95,000,000 to $100,000,000 of these bonds. The remainder of the water bonds outstanding represent to a great extent the amount which has been expended in the Catskill aqueduct still in course of construction. It may be here stated that $160,208,915.93 of water bonds are exempted from the debt limit under the provisions of the State Constitution.

NATIONAL AND STATE INDEBTEDNESS, 1870-1913.

The following report on National and State indebtedness and funds and investments from 1870 to 1913 was issued by the Bureau of the Census in July, 1914:

The total debt of the 48 State Governments on June 30, 1913, amounted to $422,796,525. Of this total, $403,366,569 represented funded debt, and $19,429,956 represented floating debt. Of the funded debt, $364,836,427 are represented in bonds and $38,530,142 are special debt obligations to public trust funds. As an offsetting item against this total debt, the 48 States reported $76,960,571 in sinking fund assets, leaving their debt (less sinking fund assets) $345,942,305. The per capita debt for the 48 States amounted to $3.56 on June 30, 1913.

In contrast with the debt of the 48 State Governments, the Natl. Government had a total debt on June 30, 1913, of $2,916,204,914. Of this total the funded debt amounted to $2,540,523,329, while the floating debt amounted to $375,681,585. Of the funded debt, the bonded indebtedness amounted to $967,366,160, while the special debt obligations amounted to $1,573,157,169. The sinking fund assets, or cash in the U. S. Treasury available for the payment of debt, consisting of accumulated trust funds, gold and silver and general Treasury cash, not only were sufficient to eliminate entirely the special debt obligations but also to reduce the bonded debt. The Natl. debt, less cash in the Treasury available for the payment of debt, amounted to only $1,028,564,055, or a per capita debt of $10.59.

The net debt of the Natl. Government represents three times the total net debt of the State Governments. Of the total per capita debt of $14.15 (Natl. and State), the debt of the Natl. Government is $10.59, or 75 per cent., while the debt of the State Governments amounts to $3.56, or 25 per cent. of the total.

LAND VALUE MAPS.

Land value maps are so prepared as to show on every side of every block the value per front foot of lots of standard size and lying normally with reference to the grade of the street. In the suburban sections of N. Y. City where the separate parcels are sometimes of several acres in extent and are unplotted, the unit placed upon the maps represents the value per acre. The standard size of lots in Mhtn., Bronx and Richmond is 25x100, and in Bkln. and Queens 20x100. Throughout the City the standard depth is 100 ft. and the units always have reference to the depth of 100 ft. If a lot is below grade and worth less than the unit would indicate, the unit nevertheless represents the value that the lot would have if it were on grade. The same statement is true if there should be so much rock on a lot that its actual value is greatly depreciated below the unit. On some streets the lots may all be shorter than 100 ft. or deeper; nevertheless, the unit represents the value that the lots would have if exactly 100 ft. deep. Some blocks are so short that the value of every ft. of land is influenced by proximity to a corner, nevertheless the unit represents the value that a lot would have at that location uninfluenced by proximity to a corner.

WATERFRONT DEVELOPMENT IN NEW YORK CITY.

Brooklyn Waterfront Plans.

Several important changes were made by the Bd. of Estimate and Apportionment during the year 1914 in the plans for the development of the So. Bkln. waterfront affecting the proposed classification yd., car float ferry and marginal freight railroad.

It has now been decided to take the proposed 8th Ward Market site for the car float slips and bridges, railroad tracks and switches connecting therewith. The proposed site for a car float terminal on the Grace property, at the ft. of Conover, has been eliminated.

The city now owns the extensive tract lying bet. 36th and 38th sts. and west of 1st av., an area of 640,000 sq. ft. comprising the market site. Under the new plan the city has set aside an area of 696,000 sq. ft. from the tract previously taken by the city for the Erie Basin classification yd. for the purposes of the public market in exchange for the former market site. This will leave an area of approximately 1,133,000 ft. for the big classification yd. for which the Dock Dept. has prepared plans for the tracks and switches.

The proposed new yd. comprises about 13 blocks and is bounded on the east by Court, from Halleck to Creamer, the line then extends northwest to Clinton, then northeast to the middle of the block bet. Mill and W. 9th, then to the middle of the block bet. Clinton and Henry, then south to the south side of Bush, then west to the east side of Henry, then south to the south side of Creamer, then west to the east side of Hicks, then south to the south side of Bay, then west to the east side of Columbia, then south to the south side of Sigourney, then west to the east side of Otsego, then south to the north side of Halleck, then easterly along the north side of Halleck to Henry, then along the east side of Henry extending to Bay, then east along Bay to the middle of the block bet. Henry and Clinton, then south to Halleck, then east along the south side of Halleck to Court.

Plans have also been made for the bridge over Gowanus Creek that is to connect the classification yd. with the line of tracks to be continued down 2d av., through the Bush yd. and to the Penn. R. R.'s Bay Ridge Terminal.

Marginal Railroad to go to Newtown Creek.

It is now planned to ultimately extend the marginal railroad further north at least to the Navy Yard and it will probably go a great deal further north than that, ultimately to Newtown Creek.

This ultimate increase in the length of the line has led the city officials in order to prevent a repetition of conditions existing on 11th av., Mhtn., to provide for a through 2-track elevated main line beginning at 40th and 1st av., at which point it connects by ramp with the present surface line of the Bush Terminal Company, and extending thence northwardly to a temporary terminus at Poplar and Furman. A few changes of alignment over the original surface plan are provided for this through elevated main line. It is proposed to carry it upon the present alignment to 28th.

From that point the railroad will be deflected eastwardly to a line 200 ft. west of 3d av. and will be continued northwardly along that line parallel with 3d av. to Gowanus Canal; 2d av. will be extended northwardly over this route and thus avoid cutting in two several valuable piers on Gowanus Basin.

The main line elevated is then continued across Gowanus Canal and through the terminal yd. back of the State Barge Canal Terminal. Leaving the terminal yd. at Otsego st. the proposed elevated line is continued to a point bet. Richards and Van Brunt, at which point it curves across private property to Van Brunt and continues through this street across Hamilton av. to a connection with the elevated line as laid out on the map of July 10, 1913, bet. President and Union. In order to provide railroad facilities along the waterfront bet. Vandyke and Hamilton av., it is proposed to construct a ramp from the elevated structure west of Van Brunt, reaching the surface in Vandyke bet. Conover and Ferris. At this point connection can be made with the present surface lay-out on Ferris; this will give adequate facilities to shippers along the line of Ferris and will provide for an easy connection across a small plot of private property bet. King and Pioneer, with the present tracks of the N. Y. Dock Co., on Pioneer. This arrangement will permit the elimination of the ramp and elevated structure bet. Bowne and Van Brunt crossing Hamilton av. North of President the proposed line follows the line as indicated on the map of July 10, 1913, the outshore line of Atlantic av. and Furman. At this point the proposed line is deflected into Furman and carried to a point parallel with the terminus shown upon the map of July 10, 1913, at Poplar and Furman. The construction of an elevated railroad on Furman will present certain physical difficulties owing to the presence of the Montague st. hill. It is entirely possible, however, to work out a satisfactory solution at this point.

Baltic Yard for Car Floats.

It is proposed to acquire the so-called Baltic yd. of the N. Y. Dock Co., lying bet. Harrison and Warren and west of Columbia. This area will provide float bridge connections for the northern end of the line. In the opinion of the engineers it will be sufficient for a considerable time to come to install 3 float bridge structures at the 8th Ward Market site and for the present float bridges at the Columbia st. yd. At both places there is sufficient room to allow for reasonable expansion with the increase of business.

The cost of these improvements is estimated at $3,831,000. This estimate does not include substantial facilities in yd., signal system, freight houses and possible reconstruction of Montague st.

As a necessary prelude to the building of the marginal railroad and the other parts of the system, it is sought by the city to have an operating company comprising the trunk line railroads entering the Port of N. Y. to operate the line. This can only be done through an amendment of the general transportation law. A city administration bill for this purpose, passed last winter, was vetoed by Gov. Glynn. A new bill will be introduced in the Legislature of 1915 somewhat modifying the provisions of the vetoed measure but for accomplishing the result aimed at. The railroads have already agreed to operate the line jointly at a rate of compensation that would pay the interest on the cost of the improvement and contribute each year to a sinking fund to liquidate the bonds issued for the cost of construction. The ultimate carrying out of the South Bkln. waterfront improvement plan calls for the progressive acquirement of the entire waterfront looking to the ownership of the docks as well as the railroads from Bkln. Bridge to 65th, Bay Ridge.

Barge Canal for New York City in 1916.

It is now planned by the State to give the City of N. Y. the use of the new Barge Canal by the beginning of the season of 1916, by utilizing the Lake Ontario route from Oswego to the Niagara River. Canal boats are now being built capable of navigating Lake Ontario at all seasons.

The work of the canal is more than 80 per cent. completed but owing to delay caused by litigation over the apportionment of expense of building new railroad bridges and some difficult work through the Montezuma marshes, west of Clyde, the entire waterway will not be ready for traffic inside of 3 or 4 yrs.

By changing the main route of the canal and swinging it to the north from a point 4 or 5 miles east of Oneida Lake, through the Oswego Division to Lake Ontario, the Port of N. Y. can get the benefit of the great new transportation route in a little over a year from this date.

The Barge Canal improvement is the greatest work of its kind ever undertaken by a single State and one of the greatest engineering projects ever undertaken by any government. It covers a length of 540 miles of canal construction and with the adjacent natural streams this makes a total of 790 miles of internal navigation in the State, suitable for boats of barge canal dimensions.

This improvement consists in the enlargement of 4 of the existing branches of the State canal system—the Erie, stretching across the State from east to west and joining the Hudson River and Lake Erie; the Champlain, extending northerly to Lake Champlain from the eastern terminus of the Erie; the Oswego, leaving the Erie where the waters of the

WATERFRONT DEVELOPMENT IN NEW YORK CITY—*Continued.*

Oneida and Seneca rivers unite and following the Oswego River to Lake Ontario, and the Cayuga and Seneca starting south from the Erie to a little to the west of the Oswego junction and running first to Cayuga and then to Seneca Lake.

Approximately 325 miles of the N. Y. State canals had been completed to barge canal dimensions in Oct. 1914, 100 of which were used during the season of navigation as a part of the canal system. In connection with the barge canal improvement, it has been necessary to construct 28 new dams, some being of movable type, others with fixed crest, and two large storage reservoirs, one at Delta and one at Hinckley. The reservoirs at Delta and Hinckley will each have a flooded area of approximately 4½ miles. These dams will perform a twofold service, providing storage for waters to be used during the navigation season on the barge canal and affording a certain degree of regulation to the floods which have been experienced for years past throughout the Mohawk Valley.

To Oct. 1, 1914, contracts on account of barge canal improvement amounting to approximately $90,000,000 had been entered into and work on account of such contracts in an amount of $76,000,000 had been performed

New Canal 100 Times Capacity of Old Waterway.

The new canal will have a capacity 25 times that of the present waterway, which itself has a capacity 4 times the old structure, enlarged several years ago at an expense of $9,000,000. It will have a capacity for boats of 3,800 tons burden. Some of the natural waterways that will be utilized in connection with the new waterway bet. N. Y. and Oswego, are Oneida Lake, 10 miles in length, and Oneida River, Oswego Lake and Oswego River.

The completion and operation of the new canal, it is expected, will give an immense impetus to the manufacturing and shipping interests of Bkln. There will be a direct transfer from the city's railroad classification yd. to the barge canal terminal and from the big ocean steamships to the canal barges and railroad warehouses, the tracks to be run down on the two big piers, as is done in Germany. Shippers say the completion of the above named undertakings will put new life into that section of Bkln. and create a great hive of industry.

Work Progressing on Terminals.

It is planned to have the Barge Canal terminals completed simultaneously with the finishing up of work on the waterway itself. The terminals at Albany and at Plattsburgh are completed. Work is progressing on the two big terminals at Buffalo and those at Rochester, Crescent, Amsterdam, Fort Plain, Frankfort, Utica, Rome, Lockport and Oswego on the Erie Canal are underway. On the Champlain Canal the terminal at Plattsburgh on Lake Champlain, is nearing completion and work is being pushed on those at Mechanicsville, Thomson, Fort Edward and Fort Henry.

There are to be 13 terminals in N. Y. City. The contract for dredging out the basin of the Gowanus Barge Canal Terminal was given out July 7, 1914, to the George W. Rogers Company, for $313,130. It called for the dredging of 1,200,000 cu. yds. from the bottom of the basin of which 500,000 yds. is to be used for filling in the land back of the bulkhead, making 21½ acres of upland. The contract includes the building of 907 ft. of concrete bulkhead wall. Work was begun on the excavation Aug. 1.

The dredging is now being pushed at the rate of 25,000 to 30,000 cu. yds. per wk., two big machines being employed. It is expected to have the entire contract completed by the middle of next fall. As soon as the dredging has sufficiently progressed the contract will be given out for two piers, one 1,200 ft. in length, and the other, 1,000 ft.; width of each, 150 ft.; width of slips, 300 ft. each. The depth of water in the slips will be 45 ft. at mean low water—sufficient for the big ships to berth in them opposite the canal boats on the other side of the pier. There will be a direct transfer from the city's marginal railroad classification yd. adjacent to the Barge Canal Terminal to the warehouses and the ships and the barges at the sides of the piers. The tracks from the marginal railroad will run down on the piers following a plan similar to that carried out on the Hamburg piers in Germany. It is expected to shed the piers and eventually to build warehouses on the upland property where goods brought in by ships, canal barges or railroads may be stored temporarily.

New Shipping Possibilities.

Many new shipping possibilities will thus be created. Lumber from the Pacific Coast, by way of the Panama Canal will be shipped to Bkln. and thence by the Erie Canal to Chicago, a number of ships now being built for the trade. Iron ore will come from Cuba and other ports, and big imports of raw material for manufacturing will be shipped from this port by way of the Erie Canal.

Barge Canal Terminal at Greenpoint.

The final plans for the proposed Barge Canal Terminal at Greenpoint, at the mouth of Newtown Creek, hereafter to be called Nassau River, have been approved by the State Canal Board. The project includes the building of a bulkhead wall 550 ft. in length and a pier 350 ft. in length and 70 ft. in width. This will berth four canal boats, 155 ft. in length at one time at the pier, two at the bulkhead and four more at the Dupont st. pier, which is to be repaired. Subsequently two more piers will be built.

The promptness with which the work will be undertaken depends largely upon the settlement of the awards for land taken from the Palmer estate which will be needed for the improvement, also from the Beard estate for the Gowanus improvement. The case is now before the State Court of Claims for adjustment. The evidence was finished in July. The representatives of the Palmer estate claim $2,000,000 for their property and of the Beard estate, $3,000,000. Should the above named claims be allowed in full there would not be nearly enough left out of the total appropriation of $9,400,000 made for all of the N. Y. City terminals by the Barge Canal Terminal Commission to complete all of the terminals agreed upon for the city.

The only other canal site fully approved by the Canal Board and land appropriated is that for the Port of Call above Dyckman street, in the Hudson River. The following have been approved tentatively by the board: Piers 5 and 6, Coenties Slip, East River; ft. of Grand, Sherman's Creek on Harlem River, W. 136th, W. 80th and W. 30th, all in Mhtn., and E. 136th in the Bronx.

The sites mentioned in the Barge Canal Terminal Law, but not yet approved by the Canal Board, are as follows:

Gansevoort and Vestry, North River, Mhtn., and Astor estate in the Bronx, about opposite 150th, Mhtn, Harlem River.

Waterway Improvements.

The improvement of Bay Ridge Channel has been carried forward nearly to the completion of the contracts under the federal appropriation of 1912 and there is now a channel 1,200 ft. in width and 40 ft. in depth all of the distance from Gowanus Basin south along the Bkln. waterfront to 60th, just north of the Pennsylvania R. R. freight terminal. The sum of $150,000 for the completion of this channel to 92d, where it will connect with Ambrose Channel, the main ship channel entrance to the port, was included in the last Rivers and Harbors bill passed in Oct., 1914.

The completion of this work will give an uninterrupted deep water channel for the largest ship afloat from the ocean up to Gowanus. The entire undertaking will be finished in a year.

An examination was made and a survey and estimate has been reported by the government engineers for the removal of a large shoal opposite 39th St. Ferry slips, in its widest portion, and extending from Bay Ridge north to opposite Gowanus. This would give half a mile width of deep water opposite the big city docks from 31st to 35th, ample for the maneuvering of the biggest steamships now in existence or that will be built.

The proposed widening and deepening of Buttermilk Channel from a point nearly opposite the channel down past Robbins Reef, to the main ship channel, south of Governor's Island, is now before Congress. A survey of the present channel has been completed by the U. S. Army Engineers, under the direction of Col. S. W. Roessler, in accordance with an Act of Congress, and was submitted to that body by the Sec. of War, on Dec. 1, 1914.

Statistics of the Structure.

The Manhattan Bridge is the greatest suspension bridge in the world. It extends from Bowery and Canal, Mhtn., to Nassau and Bridge, Bkln. The ordinance authorizing construction was approved by the Mayor Jan. 8, 1900, and Jan. 29, 1900, the Sec. of War approved the plans. The Bkln. tower foundation contract was let to J. C. Rodgers, May 1, 1901, for $471,757, and the foundation was completed in Dec., 1902. The Mhtn. tower foundation contract was let to J. C. Rodgers Dec. 22, 1902, for $482,726.56, and the foundation was completed in March, 1904. On July 9, 1903, the contract for masonry pedestals on top of the tower foundations was let to J. C. Rodgers for $150,000. The Bkln. anchorage contract was let to Kosmos Engineering Co., Jan. 24, 1905, for $1,212,554, and the Mhtn. anchorage contract was let to Williams Engineering and Contracting Co., Feb. 9, 1905, for $1,197,000. Each anchorage is 237 ft. long by 182 ft. wide. The contract for furnishing the metal work for the anchorages and constructing the towers, cables, suspenders and suspended superstructure was awarded to the Ryan-Parker Construction Co. on June 15, 1906, at a price of $6,493,223. The steel towers over which the cables are swung are 336 ft. high. They are constructed on masonry piers which extend 92 ft. below and 32 ft. above mean high water level. The largest steel plates in these towers are 362 in. long, 88½ in. wide, and 2⅛ in. thick, weighing each 16,460 pounds. The first wire rope for the temporary cables supporting footwalks was strung on June 15, 1908. The first cable wire was strung August 10, 1908; the last one on Dec. 10, 1908. These four cables weigh 6,300 tons and contain 37,888 galvanized acid steel wires. Diameter of cables, 21¼ in. Length of each wire about 3,224 ft.

The contract for the construction of the masonry piers, surface and sub-surface changes and steel superstructure of the Mhtn. and Bkln. approaches was awarded to J. C. Rodgers on Dec. 13, 1907, for $2,168,304.

On June 13, 1909, a contract was entered into with the Lord Electric Co. for the construction of railings, roadway and footwalk pavements and track and electrical equipments, the total cost of which is $424,000. Contract for improvement of Mhtn. plaza with Wm. P. Seaver for $817,380, dated Jan. 18, 1913. Contract for improvement of Bkln. plaza with North-Eastern Construction Co. for $596,400, dated June 23, 1913. The total length of the bridge is 6,855 ft. and the extreme width 122 ft. 6 in. The elevation above mean high water at center is 135 ft. Provision is made for 4 trolley and 4 subway tracks, one 35-ft. roadway and two 11-ft. promenades.

On Dec. 31, 1909, the roadway was opened to the public. On July 18, 1910, the east footwalk was opened to pedestrians. On May 11, 1911, the west footwalk was opened to pedestrians. Local surface car traffic commenced Sept. 4, 1912.

MOVING RATES.

In June, 1914, a new public cart ordinance went into effect in N. Y. City. The legal rates for transporting merchandise, household or office furniture, or other bulk articles (other than pianos), incl. loading and unloading thereof, is as follows, said charges to commence from the time of arrival of vehicle or vehicles at the place from which articles are to be transported, and to end when articles are delivered: Where a vehicle drawn by 1 horse, and having an inside floor surface of at least 40 sq. ft. is used, $1.25 per hour, said vehicle to be propelled at not less than 3 miles an hour. Where a vehicle drawn by 2 or more horses, and having an inside floor surface of at least 70 sq. ft. is used, $1.50 per hour, said vehicle to be propelled at not less than 3 miles an hour. Where a moter-driven vehicle, having an inside floor surface of at least 70 sq. ft. is used, $1.75 per hour, said vehicle to be propelled at not less than 8 miles an hour. Where a motor-driven vehicle, having an inside floor surface of at least 90 sq. ft. is used, $2.50 per hour, said vehicle to be propelled at not less than 8 miles an hour. For the services of each man in addition to the operator or driver, 50 cents per hour. The number of men to be engaged on any one job or operation is not to exceed 4, incl. driver, except when especially agreed upon by the person hiring the public cart. In case any vehicle, while engaged in the transportation of merchandise, household or office furniture, or other bulky articles, should break down or become disabled through any cause, no charge shall be made for the period of such disability. Where a piano is transported in the same public cart as other household or office furniture, and is part of the same operation or job, an additional charge of not exceeding $1.50 may be made for transporting it. When a piano is transported as a separate operation or job and the distance traveled is 3 miles or less, the charge therefor shall not exceed $3, incl. labor and use of vehicle therefor; for each additional mile or part thereof, 50c. For transporting pianos either up or down one or more flights of stairs, 50c. for each flight. For transporting pianos up or down, by means of elevator, $1 additional. When the handling of a piano involves the use of a hoist, tackle and rigging at either or both ends of the operation or job, a charge of not more than $5 additional will be permitted. Sec. 312. All disputes as to the rate or amount of compensation shall be adjusted by the police officer in charge of the police station nearest to the place where such dispute is had.

TAX RATES IN SUFFOLK COUNTY.

The total amount of taxes levied by the Board of Supervisors in Suffolk for state, county and town purposes is $1,121,317.95. The amounts and rates, except in incorporated villages, against each town, are:

Babylon, $76,653.19. Rate, $1.51 on each $100 assessed valuation, while in the incor. villages of Babylon and Amityville the rate is $0.59.

Brookhaven, $205,703.65. Rate, $1. In incor. villages of Patchogue and Bellport, $0.56.

Easthampton, $67,745.21. Rate, $1.25. Incor. village of Sag Harbor, located in towns of Easthampton and Southampton, $0.64.

Huntington, $151,560.71. Rate $1.18. Incor. village of Northport, $0.64. Islip, $275,283.27. Rate, $0.97. Riverhead, $61,797.74. Rate, $1.21. Shelter Island, $14,779.54. Rate, $0.70. Smithtown, $23,857.91. Rate, $1.10. Southold, $81,970.07. Rate, $1.22. Incor. village of Greenport, $0.60.

Southampton, $162,966.66. Rate, $1.54. Incor. villages of Southampton, $1.54. Southampton and Sag Harbor, $0.70. The town tax rates in the incorporated villages are less because they pay their proportion of the town taxes in their annual village taxes. In portions of the several towns where there are no water or lighting districts the town taxes are not so heavy.

TAX RATES IN NASSAU COUNTY.

North Hempstead, $1.16; Oyster Bay, $0.90; Hempstead, $0.77.

Greek army losses in the two Balkan wars totaled 50,541.

CHRISTMAS TREE ILLUMINATIONS.

In public parks in various parts of Gr. N. Y., huge Christmas trees, ablaze with electric lights from Christmas Eve to New Year's Eve, added to the festivity of the Yuletide season of 1914.

The largest of these pine trees, erected in Madison Sq. by the City of New York, dazzled with myriads of lights.

Other trees in Mhtn. were erected by neighborhood assns., and civic socs. The Chelsea Neighborhood Assn., of which K. Durham is pres., put up a tree in Chelsea Park, 28th and 9th av. City Hall Park also had a large tree.

In Bkln. the City Club, 127 Remsen, H. P. Nash pres., erected a large evergreen tree in the triangle in front of Borough Hall which was kept brilliantly lighted every night.

The most elaborate public celebration in Bkln. was at McCarren Park, where the Greenpoint Neighborhood Assn., H. L. Pratt, pres., had a 60-ft. pine tree. Thousands of colored bulbs were lighted at the touch of a button by Pres. Woodrow Wilson in the White House at Washington. Christmas carols, tableaux and a band concert were features of the celebration.

NEW YORK CITY TRANSIT DEVELOPMENT.

With nearly 20,000 men at work on the construction of new subways throughout the greater city at the close of 1914, the indications were that the completion of the Dual Subway System would be accomplished almost as planned.

When the announcement was made on March 19, 1913, and the city and operating companies finally signed the contracts and one of the greatest municipal undertakings ever attempted was launched, people were amazed at the immensity of the figures involved. It was to take $366,000,000 to build these new lines. But during the year 1914, as the actual work got under way throughout the city, until finally over $140,000,000 worth of contracts were under construction, the citizens of the metropolis realized the immensity of the project and the need of the millions involved.

For Brooklyn particularly, the year 1914 will always be remembered as one of the most notable in its history, as regards transportation. It was on May 23 when the Borough held its big "Wake-up Brooklyn Day" celebration to mark the actual beginning of work on the new lines here. On that occasion Chairman Edward E. McCall of the Public Service Com. broke ground for the Flatbush av. subway at the Prospect Park Plaza. The occasion also commemorated the opening of bids for the two new East River tunnels. There was a luncheon at the Montauk Club and a great galaxy of public officials swarmed in the neighborhood of the Plaza, making it altogether about as successful a civic affair as could be staged.

Flatbush av. is now a scene of great activity and in addition the work on the new tunnels, which are to link this Borough as closely with Manhattan as though no East River yawned between, is well under way. Three shafts have been erected by the Cranford Co., which has the contracts for the 2 secs. of the Flatbush av. line, one at 6th av., another at 8th and another at the Plaza. At the latter place workmen are gradually working their way down to the 89-ft. depth that the tube has to dip to there on account of the steep parkway hill. Another line upon which work is progressing is the New Utrecht av. "L."

In Nov. there was a near panic among subway contractors throughout the city by the issuance of an edict by the representatives of the labor unions that the law must be strictly enforced which forbids the employing of any but citizens on a public work. Many aliens lost their positions and there was a fear that there might be a long tie-up of the work. Early in Dec. the contractors carried the case into the courts for a test. Just what would be the ultimate outcome of the difficulty was at that time still in doubt. Another less serious but, for the time, none the less formidable obstacle, was met in the work on the two new tunnels in the shape of an injunction secured by the Pierrepont estate to compel the city to stop work at the ft. of Montague st. until the authorities had formally instituted proceedings to "open" the street for transit purposes. The dispute was a long-standing one, growing originally out of the failure of the city to recognize the Pierreponts' ownership of the ft. of the street and latterly to pay the price demanded by that estate. This difficulty, too, was finally smoothed out so that the work was allowed to continue without interruption.

The contract for these two tunnels is held by the Flinn-O'Rourke Co. of Mhtn., and is noteworthy in that it is probably the largest single contract ever advertised for in a single lump by any municipality. It amounts to $12,442,725.75. This firm held a big celebration at So. Ferry, Mhtn., Oct. 23, to mark the beginning of work on their gigantic undertaking, entertaining at luncheon a crowd of officials and prominent citizens, headed by Mayor Mitchel, who turned the first sod of earth.

According to the Public Service Com. the plans for the Eastern Parkway line, the Nostrand av. line and the Flatbush av. connection with the Brighton "L" at Malbone st. are all progressing rapidly and will soon be offered for bidding. After a long fight, led by the civic assns. and public spirited citizens of Bkln., the Board was prevailed upon to so change the plans for the Parkway tube that the rows of beautiful elms along the drive would be saved from the destruction threatened by the original plan.

A long-promised transit improvement, which still remains nothing but an unfulfilled dream, is the operation of the Fourth av. subway. The continued idleness of this tube has long been a source of much complaint to Brooklynites, but the fact that at last the work of finishing the stations and installing the track and electrical equipment is under way, has aroused Brooklyn's hopes for some additional service in the near future. It is announced that the connections with the Mhtn. Bridge are also about completed and that the bridge is nearly ready to receive the trains. The impression given in official circles is that actual operation will be commenced some time in March or April of 1915. When the original contract for the construction of this line was let, it was stipulated that it would be finished by Nov. 16, 1911.

The only portion of the dual system planned for Bkln., about which practically nothing has yet been done, is the Bkln. Rapid Transit tunnel from E. 14th st., Mhtn., to the Eastern Dist., and thence to East New York. The Commission has not yet decided at what point this line will strike into Bkln. The alternate plans call for landing places at No. 7th st. or at Greenpoint av., both of which have strong support from citizens in those sections. The upper portion of the route beyond the Bushwick Depot has, however, been laid out. It has been arranged that it will run along the right-of-way of the Bushwick Division of the L. I. R. R. for a considerable distance.

One of the important subway events of the year 1914 was the formal adoption by the Public Service Com. of the route for the Crosstown subway, which has long been demanded by the civic bodies of Bkln. It was on July 1, 1914, that the Commission laid out this route to connect the Queensboro Bridge Plaza with the Brighton Beach "L" at the Eastern Parkway. The line will be part subway and part elevated, being beneath the surface for most of the way through the built-up sections of the lower Bedford and Eastern Dist. sections through which it will pass. It lies under Franklin av., Taylor and Roebling sts. and bridges Newtown Creek. The Board of Estimate is to decide whether the city's finances will warrant the expenditure of the $9,000,000 which the enterprise would involve. Before anything can be done about the building of the line, the appropriation must be voted.

Beside the work being done under city contracts, there is considerable construction going on under the direction of the B. R. T. Co., or the N. Y. Municipal Railway Co., as it is known in the subway contracts. Work on the Sea Beach line to Coney Island is rushing along at a fast rate and is already about three-quarters completed. The physical connection between the Broadway and Myrtle av. elevated roads has been made and trains on the latter line now switch down Broadway and over the Williamsburg Bridge to Mhtn. through the Centre st. loop to Park Row.

The work going on in the matter of the third-tracking of the Fulton st. "L" is being advanced rapidly, the structure being radically changed in the process. In the meantime the agitation for the removal of the "L" from lower Fulton st. and swinging it off through Adams st. and thus onto the Brooklyn Bridge has reached a climax, and early in Dec. the proposition was brought up before the Board of Estimate. This improvement will cost the city from $750,000 to $4,000,000 according to which plan of those under consideration is decided upon. An alternate proposition to build a subway under Fulton st., from Stuyvesant av. down, instead of third tracking, has been brought forward. (For further details see City Planning.)

Reports showing progress on the new subway contracts of the dual system for the month of Nov., 1914, made by the division engineers to Alfred Craven, Chief Eng. of the Public Service Com., showed that there were 19,223 men then employed by the several contractors for the city and the two companies—the Interborough Rapid Transit Company and the N. Y. Municipal Railway Corporation. Of this total, 11,777 are employed on lines for operation by the Interborough Rapid Transit Company, and 7,446 on lines for operation by the N. Y. Municipal Railway Corporation. Of the total, about 16,000 are employed by contractors working for the city, and about 3,000 by contractors working on elevated extension, etc., for the two companies.

The construction work to be done by the city is divided into 83 contract sections. The report showed that contracts had been awarded for 64 of these sections, leaving 19 yet to be awarded. Of those already awarded, 34 are on lines to be operated by the Interborough Rapid Transit Company, and 30 on lines to be operated by the N. Y. Municipal Railway Corporation.

The total contract prices of the 64 sections on city-owned lines let is $146,253,346.59, of which $76,172,289.84 are on Interborough lines, and $70,081,056.85 on N. Y. Municipal lines.

WORKMEN'S COMPENSATION LAW.

N. Y. State entered the insurance business on July 1, 1914, when the Workmen's Compensation Act went into effect and the state fund commenced operation. The state insurance fund was created by the act to enable employers to provide compensation for their employees at the lowest cost. The act gives the employer the choice of four forms of insurance, stock company, mutual association, self-insurance, and the state fund.

The old system, involving the liability of employers under the common law for negligence resulting in death or injury to their employees, was discontinued and "compensation," within the meaning of the new law, substituted. The Workmen's Compensation Act is mandatory, and, therefore, binding on both employers and employees in all its provisions to an extent where it would be unlawful even by mutual agreement an employer to shirk any of the obligations the law imposes, or for an employee to waive any of the rights it confers, or to substitute for the plan embodied in the law any other plan of indemnity, no matter how beneficent it might be to the employee.

Under the Workmen's Compensation Act all employers subject to the law must pay or provide "compensation" for the disability or death of their employees, "resulting from an accidental personal injury, sustained by the employee and arising out of and in the course of his employment," without regard to the fault of either employer or employee, with these sole exceptions:

1. Where the injury is due to the willful intention of the injured employee.

2. Where the injury results solely from intoxication of such an employee, while on duty.

NEW YORK CITY PLANNING.

The efforts of the Bkln. Com. on City Plan in the 2 yrs. prior to 1914, as well as the work done by the members of that com. during the ensuing 12 mos., were reflected in the large number of important Bkln. improvements, recommended by that body which were either actually consummated or materially advanced during the course of the yr.

An agreement on a court house site was finally adjusted to the satisfaction of the justices and the Com. of Ten, headed by Frederic B. Pratt, and endorsed by the Bkln. Com. on City Plan and the Bd. of Estimate. Necessary legislation was obtained and the Bd. of Estimate agreed to appropriate money for a court house building on the site of the old court house, Municipal bldg. and the park adjoining. In order to make way for the new structure it was necessary that the old Municipal bldg. on Joraleman st. be torn down and steps toward this end were taken in the early summer of 1914, when the various city depts. occupying that bldg. were removed to leased quarters elsewhere in the borough. The outbreak of the European War and the resultant stringency of funds which the city had to face held up the plans somewhat but, after several months delay, bids for the sale and removal of the bldg. were asked for, to be submitted by Dec. 18, 1914.

The next important accomplishment was the placing of the extension of Eastern P'kway through Cypress Hills Cemetery to Forest Park on the city map. This boulevard roadway will supply a very important link to the p'kway system of the borough and furnish an outlet to Queens and L. I. that is badly needed.

The removal of the Fulton st. elevated railroad tracks from the Borough Hall plaza by relocating them on Adams st., as recommended by the Com. of Ten and the Bkln. City Plan Com., came to a head at the close of the year and would, in all probability, have gone through save for the desire of many residents of Bkln. to have the elevated railroad structures removed altogether from the central as well as the lower portions of the borough and subways substituted in their stead. This movement received its impetus at a meeting held at the University Club in Bkln., on July 8, 1914, at which a Com. of One Hundred, headed by R. A. Shaw, was appointed to consider ways and means of doing this. The com. devoted considerable attention to a study of the problem. Its original plan was to remove large portions of the Fulton st., Myrtle av. and Flatbush av. elevated lines and send the trains through a subway to run from a point approximately at 5th and Flatbush avs. to and across the Bkln. Bridge by way of St. Felix st., DeKalb av., Flatbush av. exten., Willoughby st., Fulton st. and Washington st. This plan was later modified, because of its expense, so as to include only the sinking of the Fulton st. elevated road from Stuyvesant av. to Ashland pl. into a subway to connect with the existing Dual Subway system tracks, at that point.

The application of the B. R. T. Co. for the relocation of the tracks to Adams st., made in pursuance of the recommendations of the Bkln. City Plan Com. and the Com. of Ten and in accordance with the terms of the legislation enacted in 1913, was opposed therefore, when it came before the Public Service Commission and the Bd. of Estimate, towards the close of the year 1914, by the advocates of the later plan. They were supported by many who objected to the third tracking of the elevated line in Fulton st., which the B. R. T., under the terms of the Dual Subway system contracts was given the power to do. Both plans were taken under consideration by the city officials.

Further steps for the construction of a roadway in front of the U. S. Military Reservation at Ft. Hamilton were taken. Through the efforts of members of the Bkln. City Plan Com. permission was obtained from the War Dept. for the construction of such a road, made necessary by the closing of the old road through the reservation at the time of the Spanish-American War. A bill was also introduced in Congress by Representative Griffin giving the city the right to construct the road. During 1914 surveys were made and an estimate of the cost of construction prepared.

The opportunity for extending New Utrecht av. to a logical and serviceable outlet into the Bath Beach section by turning the land acquired for rapid transit purposes into a street instead of a private right-of-way was seized by members of the Plan Com. who appointed a sub-com. to look into the matter. The suggestion was received favorably by the city officials and the plans for the location of the elevated railroad pillars were so drawn as to permit the proper layout of a street there. Many other important projects intimately associated with the city plan work were also considerably advanced during the year, including the So. Bkln. Marginal R. R., the Jamaica Bay Improvement, the Dual Subway, the N. Y. Connecting R. R. and the N. Y. State Barge Canal Terminals in Bkln., all of which are considered elsewhere in this volume.

The Bd. of Estimate appointed a City Plan Com. as one of its sub-coms. shortly after the 1st of the yr., and named an Advisory Com. on City Plan in the latter part of Nov., of which C. D. Norton was made Ch., Frederic B. Pratt, head of the Bkln. Com. on City Plan, V.-Ch., and R. H. Whitten, also a member of the Bkln. Com. and Sec. of the Bd. of Estimate's own City Plan Com., Sec. Others who were named as members were E. M. Bassett, I. T. Bush, Michael Furst, H. F. Gunnison, E. W. Brown, A. W. Brunner, J. M. Demarest, J. M. Hewlett, R. W. Higbie, R. M. Hurd, R. D. Kohn, C. G. LaFarge, E. E. Loomis, M. I. Maltbie, C. I. Miller, J. J. Murphy, E. H. Outerbridge, W. B. Parsons, W. A. Shortt, F. DeH. Simonson, D. L. Turner and F. B. Williams.

E. M. Bassett, V.-Ch. of the Bkln. Com., was selected by the city to head its Advisory Commission on Height of Bldgs. This com. submitted a report recommending the regulation of bldg. heights in accordance with street widths, light and air. It also recommended the zoning of the city for certain classes of business and residential structures.

The report of the Commission so far as it related to the regulation of the heights of "skyscrapers" was made the basis of an ordinance which was printed and is now pending before the Bd. of Aldermen and the Bd. of Estimate. The matter of districting was referred to a new com., the previous one having disbanded upon submitting its report, known as the Districting Com., which was appointed by the Bd. of Estimate.

Throughout the yr. 1914 the Bkln. Plan Com. did its chief work through a group of sub-coms., which were appointed to consider specific public improvements or details of the complete city plan for Bkln. which was prepared by E. H. Bennett, the expert advisor employed by the com. during its preliminary yrs. of study.

POLICE HONOR MEN.

Honor medals of the Police Dept. for the year 1913 were awarded on May 16, 1914, by Mayor Mitchel to the following men: Patrolman J. E. Steele, 151st Precinct, honorable mention, Medal of the Dept. and Rhinelander Medal for Valor, for making an arrest in a gangsters' fight at 7th av. and 38th st., May 31.

Patrolman W. F. Kuntz, 22d Precinct, honorable mention, Medal of the Dept. and Isaac Bell Medal for Bravery, for making an arrest in the same gangsterg' fight in which Patrolman Steele won distinction.

Patrolman J. Ryan, 35th Precinct, honorable mention, Medal of the Dept. and P. F. Meyer Medal, for rescuing a vagrant from the East River at 86th st. on Dec. 5.

Patrolman J. Hallahan, Central Office Squad, honorable mention, Medal of the Dept. and Automobile Club Medal, for rescuing a man from death in front of a subway train before which he had fallen at the Grand Central Station on Dec. 25.

Patrolman W. J. Kenna, 145th Precinct, honorable mention, Medal of the Dept. and Bkln. Citizens' Medal, for making an arrest during a street duel at Carroll and Columbia sts., Bkln., on Oct. 28.

Patrolman P. Carolan, 281st Precinct, and Act. Detective Sergeant W. T. Ennis, of the Detective Division, honorable mention and Medal of the Dept. for arresting a burglar between Chase and Division avs., Rockaway Beach, on April 19, 1913, when they were fired upon by the man and a companion.

Patrolman G. C. Schlesinger, 145th Precinct, honorable mention and Medal of the Dept. for making an arrest in the same street fight in Bkln. in which Patrolman Kenna displayed bravery.

JAMAICA BAY IMPROVEMENT.

The work on the first section of the inside channel of the Jamaica Bay improvement project was completed in July, 1912, by the contractors, the Atlantic Gulf and Pacific Dredging Company. The improved stretch is 8,900 ft., a little over a mile and a half in length; 500 ft. in width and 18 ft. in depth. It extends from Barren Island north to Mill Creek Channel. Over 1,734,000 cubic yards were excavated and pumped upon the flats, the easterly line of which is 1,000 ft. west of the channel and they were filled in back of the easterly line to an average width of 700 ft., creating about 100 acres of upland, a prolongation of Barren Island northward to Mill Creek.

The improved section as completed under the contract is inaccessible from any part of the Brooklyn waterfront for schooners, barges or freight steamboats, but private property owners have nearly completed a channel from 60 ft. to 100 ft. in width and 15 ft. in depth through Mill Creek about a mile to Avenue U. The A. G. and P. Dredging Co., which owns several hundred acres of upland adjacent to the proposed improvement, is doing the work. The city's project calls for the excavation of a channel 400 ft. in width, 18 ft. in depth, through Mill Creek to Avenue U about a mile in length, and the creation of a big inside basin extending up to Flatbush av., on its southwesterly side and to Avenue U on its northwesterly side. This is to be the center of an important coal, lumber, lime, cement, brick, stone, building material and shipping business. It is planned also to dredge a channel through the creek, back of Bergen Island.

The city appropriated $1,000,000 for the Jamaica Bay improvement, of which $750,000 was to be used in the purchase of land for the necessary basins and for a strip about 1,300 ft. in width, back of the basin, to be used for terminal purposes and $250,000 for the surveys of the bay and the actual work of dredging and construction of the bulkhead, $50,000 to be used for surveys.

The United States Government appropriated $600,000 under two separate Congressional acts for the work of excavating the inside channel of the bay, and assurances have been given that more will be appropriated when the present fund is exhausted. The Federal authorities entered into an agreement with the city under which the municipality was to do the dredging and the Government agreed to reimburse the city to the extent of 8 cents per cubic yard. The city made the contract for the first section at 7½ cents per yard, so that the work cost the city nothing. The entire work thus far has used up only $135,000 of the Federal appropriation and $650,000 is still available. The letting of further contracts for the extension of the main inside bay channel is delayed until the question of the validity of certain grants of land under water made by the State to private individuals and covering the route of the proposed channel is decided by the courts. These lands lie beyond the bulkhead between Mill Creek and Canarsie, and the city has refused to allow any compensation to the owners on the ground that the grants were not legal.

The city has surveyed the entire route of the proposed main channel as far east as a point between Idlewild and Hook Creek, in the Town of Jamaica, and the greater portion of the islands in the bay. There is enough left from the Federal appropriation to continue the work of dredging the main channel for two years and to carry it a distance of about four miles furtner. The Government has dredged the inlet channel to a depth of between 16 and 17 ft. and a width of about 400 ft. from south of Barren Island at the southerly end of the main inside channel and by Dead Horse Inlet and Plum Beach to the east end of Coney Island where a channel of equal depth exists. This work will eventually be continued and the channel made wider and deeper.

It is planned for an entrance channel, 1,500 ft. in width and 30 ft. in depth. It will be about 10,000 ft. in length and connect with the Coney Island Channel, continuing westward to Ambrose Channel, the main entrance to New York Harbor.

The waterfront of Jamaica Bay is about 50 per cent longer than the waterfront of the whole harbor of Baltimore. It is nearly twice as long as that afforded on Manhattan by the Hudson River from the Battery to 135th st. and the East River from the Battery to Hell Gate combined.

Thus Jamaica Bay is a physical fact of compelling proportions; it is one of the dominating geographical features of Greater New York. Its size and location make it impossible to ignore; its proper use is obviously of great importance.

NEW YORK CONNECTING R. R. BRIDGE.

The most important link in railway connection with Brooklyn is the projected bridge over Hell Gate from the Astoria section of Queens, crossing Ward's and Randall's Islands to the Port Morris region of the Bronx. It will be constructed for the New York Connecting Railroad, in which the Pennsylvania and New Haven Systems are interested. Starting from the yards of the N. Y., N. H. & H. R. R. Co. at 142d in the Bronx, the line is to cross the Bronx Kills by a lift bridge 300 ft. long and 2 spans of 175 ft. each. It will then be carried along the eastern shore of Randall's Island by a viaduct half a mile in length to Little Hell Gate, which will be crossed by a bridge 1,000 ft. long to Ward's Island. Across this the road will run in a viaduct 2,600 ft. in length to Hell Gate, where will be erected the most massive bridge structure of its kind in this country. It will have huge granite piers 250 ft. high and a span of 1,017 ft. The clear height above mean high water will be 135 ft. The great steel structure, rising in a parabolic arch, will be designed for four tracks, two for passenger trains and two for freight. The train floor level will be below the crown of the arch and suspended from it. The estimated weight of steel in the viaducts and bridges together, about 3 miles long, is 90,000 tons. From the Long Island end of the bridge the pass. tracks will continue partly on a viaduct and partly on embankment to the Sunnyside yards of the Pennsylvania R. R. in L. I. City. The freight tracks will continue through Queens to Fresh Pond and the East New York part of Brooklyn, whence they will follow the route of the Manhattan Beach Railroad to Flatbush and then the Bay Ridge branch of that road to the waterfront at 6th st. From that point a future tunnel may connect with Staten Island and its railroads. But floats are first to be used to convey freight cars from Greenville, on the Jersey City side, to the Bay Ridge docks. The passenger connection between the Pennsylvania System and the New Haven will be via the tunnels of the former from New Jersey to Long Island, and thence by the Connecting Railroad to Port Morris, where the New Haven road practically begins, its Grand Central connection being by traffic agreement with the N. Y. Central. Practically all of the foundation and masonry work is completed and erection of the arch bridge will begin in the Spring of 1915. The structure from Astoria to Port Morris will be 3 miles in length and the balance of the route about 7 miles. The time set for completion is the Fall of 1916, and the cost is estimated at $30,000,000. On the Hell Gate Bridge alone $6,000,000 is to be expended.

MEDALS AWARDED FIREMEN.

Medals were presented to eight firemen who saved lives at the risk of their own in 1913, by Mayor Mitchel, on the steps of City Hall, on May 25, 1914, in the presence of 400 invited guests and a large crowd. The firemen who rescued their comrades or civilians at fires and the medals they received are as follows:

Fireman (1st grade) John F. Mooney, (No. 1) H. and L. Co. 4, James Gordon Bennett Medal and Dept. Medal; Capt. Patrick Walsh, Engine Co. 7, Hugh Bonner Medal and Dept. Medal; Fireman (1st grade) Frank J. Costello, H. and L. Co. 12, Emily Trevor-Mary B. Warren Medal and Dept. Medal; Engineer Wm. McAllister, Engine Co. 86, Wm. L. Strong Medal and Dept. Medal; Capt. Fred'k J. Simpson, H. and L. Co. 6, Henri P. Wertheim Medal and Dept. Medal; Fireman (1st grade) Thomas J. Lucas, H. and L. Co. 115, Bkln. Citizen Medal; Fireman (1st grade), Lulius W. Deja, H. and L. Co. 148, Hurley Medal; Fireman (1st grade) Wm. J. McGrath (No. 2), H. and L. Co. 25, Thomas R. Crimmins Memorial Medal.

Capt. John E. Farley of H. and L. Co. 8, who has been in the service 32 years, received the John T. Stephenson Medal for maintaining the best disciplined and most highly efficient company during 1913, while Capt. Seymour J. Guy and the 15 members of Engine Co. 39, each received a bronze "College Efficiency Medal."

Mooney won the Wertheim Medal and a Dept. Medal in 1912.

WORK OF THE SIXTY-THIRD CONGRESS.

The 63d Congress, which met for its third and last session on Dec. 7, 1914, has enacted, in addition to routine legislation, numerous laws of great importance.

The Congress was called into extra session by President Wilson on April 7, 1913, a month after his inauguration, and from that time until Oct. 24, 1914, was in continuous session, the extra session merging into the regular session that began on the first Monday in Dec., 1914.

The first great measure passed was a revision of the tariff, which involved a radical lowering of customs duties on imports, a wide extension of the free list and the novel feature of an income tax, made possible by an amendment to the Constitution.

The second great measure was the establishment of a new banking and currency system for the country, involving the creation of the Federal Reserve Bd., the division of the U. S. into 12 Federal Reserve dists. and the provision for a currency system based upon credits, with an elasticity designed to meet periodical demands for expansion and contraction of natl. currency.

The third great achievement was the passage of twin bills dealing with the trusts, one establishing the Federal Trade Commission, with supervisory and inquisitorial powers over great industrial corporations engaged in inter-state commerce, the other known as the Clayton bill, amending the Sherman law and seeking to destroy or restrict unfair competition.

Other important measures passed were:

A repeal of that part of the Panama Canal act granting exemption from tolls to Amer. vessels engaged in the coastwise trade.

A law providing for the construction of a railroad by the Govt. in Alaska, at an expense of $35,000,000, in order to open the coal fields.

A law providing for the leasing of coal lands in Alaska to private enterprise, but retaining the title to such lands in the Govt.

A war tax measure, designed to raise $95,000,000 additional revenue each year, to make up for deficiencies in tariff revenues due to the shutting off of imports by the European war.

Emergency shipping laws, due to the war in Europe, providing for the admission of foreign vessels to Amer. registry and making other necessary changes to provide for a sufficient number of officers and men for such vessels.

Measures that are Still Pending.

When the third session began Dec., 1914, to terminate on Mar. 3, 1915, by expiration, the most important measures pending were:

A conservation programme, including the general dam act, which provides for the conservation of water powers upon navigable streams; the Ferris-Kent bill, dealing with water powers on non-navigable streams; a bill providing for a leasing system applicable to coal, mineral, oil and fertilizer bearing lands still in Govt. ownership; and a bill providing for federal regulation of radium bearing lands.

A cotton loan bill, authorizing the Sec. of the Treasury to deposit $250,000,000 of Govt. funds in banks located in States which produce cotton and tobacco.

A bill amending the immigration laws, making more rigid restrictions concerning aliens seeking admission.

A bill seeking to fix a definite time for the independence of the Philippine Islands.

A bill to carry into effect the provisions of the Canadian fisheries treaty. A bill creating 6 vice-admirals in the Navy. A bill to provide for the construction and operation of steamship lines by the Govt., to engage in trade with Central and South America. A bill to create the Coast Guard, by combining the Revenue Cutter and Life Saving Services. Constitutional amendments providing for woman suffrage and for natl. prohibition.

PIER CONSTRUCTION, WEST SIDE, MANHATTAN.

Work on the big coffer dam that is to hold back the waters of the Hudson River and enable the contractors for the foundation of the proposed 1,000 ft. piers to be built between the foot of West 44th and 47th sts., Mhtn., to remove the rock by dry blasting, is being rapidly pushed. It is expected to have the rip-rap wall to protect the inner surface of the coffer dam completed by Jan. 15. This is being built of stone taken from the subways now under construction, and 100,000 cubic yds. are being used.

The first dredging contract was awarded Oct. 1, 1913, to remove 325,000 yds. of material extending to the rock surface. This has been completed. It is expected to have the rock blasting completed by Jan. next to the required depth of 44 ft., and the new piers finished by the end of 1916. The contract for the rock blasting has been awarded to Holbrook, Cabot & Rollins, at $600,000, including the building of the coffer dam.

The piers can be extended 200 ft. to the pier head line. There will be built now a pier and a half; the full pier will accommodate at one time two 1 ft. ships and the half pier one.

A most important increase in the dock capacity of the City of N. Y. was afforded by the concession made by the U. S. Government, March 31, 1913, in straightening the pier head line between Gansevoort, the southern boundary of the Chelsea district on the west side of Mntn., south to Battery Park, which provides the opportunity for lengthening 50 piers and adding over 10,000 ft. or two miles to the dock front of the city.

The piers from Nos. 13 to 44 can be extended from 106 ft. to 275 ft. beyond their present length, and the piers at the upper and lower ends of the borough from 10 to 100 ft. In some instances the new piers will be made over 1,000 ft. in length, and can be made to berth two 500 ft. steamships, end to end, at the same time. Eleven of the piers, Nos. 25, 26, 27, 28, 35, 37, 38, 39, 41 and 45, have been lengthened during the past year, adding 3,072 ft. to the pier capacity of the city. Work is under way at Pier 29, ft. of Vestry st., to be lengthened 275 ft., and the contract is soon to be let for a 224 ft. extension to Pier 42. The other piers in this territory will be improved as soon as the lessees ask for it.

OPENING OF CAPE COD CANAL.

The formal opening of the Cape Cod Canal on July 29, 1914, marked the first step in the projected system of great inland waterway routes along the Atlantic seaboard. The work was accomplished by the Cape Cod Construction Co., of which August Belmont is president. The idea originated with the late Capt. De Witt C. Flanagan and R. D. Woodward, who organized the Boston, Cape Cod and N. Y. Canal Co. under a charter granted in 1899 by the Massachusetts Legislature. After working 7 years and expending large sums of money, the project was about to be abandoned when August Belmont became interested. The canal is a sea-level route, without locks, and passes through a sandy waste 8 miles long. It is 25 ft. deep. The cost of construction was $12,000,000. At the bottom it is 100 feet wide. According to records obtainable, there were 2,131 vessels wrecked passing around Cape Cod between 1843 and 1893.

FINANCE AND COMMERCE, REVIEW OF 1914.

By Charles T. Greene, Financial Editor, Brooklyn Daily Eagle.

While the cataclysmic war in Europe commands the first attention of the reviewers of the financial and commercial progress in the U. S. during the year 1914, and while any forecast for the ensuing years must be made with the awful havoc which that conflict is wreaking upon humanity at large constantly in mind, two other events that occurred during the past year ought to have a more lasting effect upon the financial and commercial future of America than this war. These are the opening of the Panama Canal and the establishment of the new Federal Reserve System of Banking. Moreover, if any permanent benefits are to accrue to us from the war in Europe, it will be due largely to these two events.

The Panama Canal.

The Panama Canal, projected as early as 1876, is now an accomplished fact, after a dozen years of American effort have been spent unremittingly upon the task of digging it and $353,559,049 of American money defrayed to cover its cost. The huge artificial waterway was formally opened on Aug. 15, 1914, but will not be officially opened until the spring of 1915 in connection with the Panama Exposition at San Francisco. Piercing the barrier between the Atlantic and the Pacific, the canal is destined to change the ocean routes of the entire world. With respect to the foreign commerce of the United States, it has opened up a new and more direct continuous waterway between our South Atlantic and Gulf ports and the western coast of Central and South America, the eastern coast of Asia and the islands of the Pacific.

The voyage from N. Y. to Callao, Peru, has been shortened more than 6,000 miles, and from some of the South Atlantic and Gulf ports, approximately 7,000 miles. The voyage from N. Y. to Valparaiso, Chile, has been shortened nearly 4,090 miles. Voyages from our Atlantic and Gulf ports to Eastern Asia and the islands of the Pacific will also be materially shortened, as compared with the route through the Suez Canal, and with respect to some of them are now shorter than the voyages from London and other important European ports.

As showing the possibility of developing export business from the U. S. to the countries lying along the western coast of Central and South America, the following figures showing the annual value of their imports of merchandise and the per cent., which each country imports from the U. S. are of interest:

Country.	Imports. merchandise.	Per cent. from U. S.
Guatemala	$5,251,000	33.2
Salvador	3,745,000	36.0
Honduras	3,019,000	68.2
Nicaragua	3,500,000	42.1
Panama (a)	10,043,000	56.0
Colombia	17,026,000	27.2
Ecuador	7,026,000	30.0
Peru	20,919,000	19.7
Chile	108,582,000	12.3
Bolivia	24,889,000	2.8

(a)—Not including Canal Zone.

It will be noted that the only countries included in the above table which buy one-third or more of their imports from the U. S. are those of Central America, all but one of which (Salvador) may be reached by way of the Caribbean Sea.

The outbreak of the war in Europe and the closing of the European markets to the South Americans make the present an extremely opportune time in which to establish ourselves more generally and securely in the markets of Central and South America. For a number of years back, the U. S. has ranked but third in the volume of its exports to South America. The United Kingdom sells to South America $250,000,000 of goods annually, Germany $160,000,000, and the U. S. somewhat less than $150,000,000.

The New Federal Reserve System of Banking.

The completion of the Panama Canal has placed in our power, as above indicated, a wonderful advantage over other countries with respect to the Pacific Coast countries of South America, while the broadening of the scope of our banking activities through the operation of the new Federal Reserve System should enable us to compete with both the English and the Germans in the matter of extending credits to buyers of American products in all parts of South America.

One of the immediate difficulties arising from the conditions produced by the European war is that of financing foreign trade. This has been especially true of our trade with South America. The war has created an opportunity for selling our manufactures in place of those normally supplied by European countries; but it has also caused the withdrawal, to a large measure, of Europe's financial support, on which South America has placed extensive reliance. Without outside credit, her buying power is seriously curtailed.

The power of accepting bills of exchange given national banks by the Federal Reserve Act, facilitating the establishment of an active discount market here and the permission granted them to open branches in foreign countries have an important bearing upon this problem. According to the act, any member bank may accept drafts or bills of exchange drawn upon it and growing out of transactions involving the importation and exportation of goods, having not more than six months' sight to run; but no bank shall accept such bills to an amount equal at any time in the aggregate to more than one-half its paid up capital and surplus.

Further, any Federal Reserve Bank may discount acceptances which are based on the importation and exportation of goods, and which have a maturity of not more than three months and endorsed at least by one member bank.

These provisions should make it possible eventually for us to bring into serious competition with the bill drawn on London the bill drawn on N. Y. The bill on London has long been the currency of the world which the producers and handlers of all nations have been willing to accept as wholly satisfactory and convenient. In ordinary times the amount of money employed in the London bill market is estimated at $2,250,000,000. Pursuant to the new Federal Reserve Act, a new source of credit will be placed at the disposal of American manufacturers, exporters and importers aggregating, in round numbers, $900,000,000—a tidy sum indeed. Assuming the average time the bills will run to be four months, the annual volume of foreign trade capable of being financed in this way alone can equal one and a half times this sum.

But it is in relation to our vast internal commerce that the new Federal Reserve System of banking will exert its greatest and most important influence. Because of the rigidity of a bond-secured currency, we have periodically suffered money famines, and there has been no way in which the vast gold reserves of the U. S.—the greatest on earth—being on June 30 last no less than $1,871,611,723—could be mobilized to strengthen the weakened credit fabric. It also happened that in the course of every year we were compelled to witness a season of high money rates because of the normal increase in the demand for credit accommodation preparatory to the movement of the crops in the autumn.

Now, however, we are to have a unification of our reserves in order that the whole banking system may be strengthened where it is weak by reliance upon the aid of the stronger portions of the country when need may be, while those parts of the nation which may have excess funds are enabled to employ them profitably by placing them at the disposal of other portions of the country for investment in the paper which may offer itself. We are also to have a unification of domestic exchange, which will obviate the necessity of imposing check collection charges upon the commercial interests of the country.

No longer will it be possible for the man who deserves an extension of credit at his bank to be told that the bank is already loaned up to within its individual margin of safety, for the bank is now in a position to accept the borrower's paper and have it rediscounted at the Federal Reserve Bank to which it has subscribed. In other words, the new system of banking makes credit easier to obtain to those who deserve it, while at the same time tending to stabilize upon a lower average plane interest rates. This latter accomplishment will ultimately exert a most salutatory influence upon prices and wages generally, for the smaller the tribute which enterprise has to pay for the use of capital, the greater the remainder divisible among all the factors that enter into the production of goods.

Our Agricultural Resources.

Despite the wonderful strides which the U. S. has made during the past 2 decades in the development and diversification of its commerce

FINANCE AND COMMERCE, REVIEW OF 1914—*Continued.*

and industry, agriculture still continues to be its principal source of wealth. W. C. Brown, former president of the N. Y. Central Railroad, recently estimated the farm wealth in the U. S. at $40,000,000,000. The Dept. of Agriculture has estimated the value of 1914 yields of all crops and of animals and animal products at $9,750,000,000. This represents an annual return on the amount invested in American farms of nearly 25%.

The value of the principal crops of 1914 has been estimated at $4,945,852,000, which comes pretty near offsetting Gt. Britain's interest in our enterprises, as computed by Lloyd George, chancellor of the British Exchequer. The following table gives in detail, the value of the country's principal crops for 1914 and 1913:

Crop.	Value 1914.	Value 1913.
Corn	$1,702,599,000	$1,692,092,000
Winter wheat	675,000,000	433,995,000
Spring wheat	203,057,000	176,127,000
Oats	499,431,000	439,596,000
Barley	105,903,000	95,731,000
Rye	37,018,000	26,220,000
Buckwheat	12,892,000	10,445,000
Flaxseed	19,540,000	21,399,000
Rice	21,849,000	22,090,000
Potatoes	198,609,000	227,903,000
Sweet potatoes	41,294,000	42,884,000
Hay	779,068,000	797,077,000
Tobacco	101,411,000	122,481,000
Cotton	519,612,000	$26,227,000
Sugar beets	27,950,000	$2,230,000
Total	$4,945,852,000	$4,966,497,000

Had it not been for the depreciation of more than $300,000,000 in the value of the cotton crop due to the war in Europe, the total value of the country's principal crops in 1914 would have been substantially in excess of $5,000,000,000, at a new high record.

The following table gives the acreage and the production of the above crops for 1914 compared with those of 1913:

It will be seen from the foregoing that no less than seven of the above yields in 1914 establish absolute new high records. Among the minor crops not enumerated above, the 1914 apple production, estimated at 259,000,000 bushels, is also the greatest ever recorded in the history of the country. That Nature has been so generous with us during 1914 will long be remembered as one of the greatest windfalls that could come, not only to us but to the entire world, in such a period of "sturm und stress" which we are now experiencing.

Cost of the War in Europe.

The gigantic scale upon which the war in Europe is being fought staggers the imagination, while the loss of life and the destruction of property involved is nothing short of sickening. From 1900 to 1914, inclusive, eight nations—Russia, England, Germany, Japan, the U. S., France, Italy and Austria—have appropriated the stupendous sum of $25,673,437,582 for the construction, development and maintenance of their engines of war. If the expenditures of various other nations were added, the total would be much in excess of $30,000,000,000. Staggering as these figures are, they represent but a portion of the entire drain which preparation for war has imposed upon the world, for the removal from industry of the millions of men serving in armies and navies must be taken into account, if the measure of the whole drain on the public is to be arrived at.

If the present war is maintained on its present scale for eighteen months, the loss of life will be 4,000,000 men, according to an estimate made by E. H. Gary, chairman of the U. S. Steel Corporation, while the property loss will be $35,000,000,000.

Leroy Beaulieu, the eminent French economist, estimates that the present war is costing in the neighborhood of $1,200,000,000 a month, not considering the economic value of the appalling loss of life involved and of the property destroyed. Thus, on this basis alone, the war is costing at the rate of $14,400,000,000 a year, which is equivalent to three and a half times the normal annual surplus of the world in recent years.

Since the outbreak of the war, the nations of the earth—not merely the belligerents—have, up to the present time, been compelled to provide means for raising more than $8,500,000,000 to defray the cost and consequences of this war to date. And from Jan. 1, 1914, up to the outbreak of the war, governments everywhere, and especially in Europe, had continued their inordinate scramble for gold, which characterized the financial history of the two preceding years, by bidding both for new gold and the world's surplus investment capital.

Our Share in the Cost.

In the month and a half immediately preceding the outbreak of the war, the U. S. was compelled to send to Europe nearly $75,000,000 of gold, and since the outbreak of the war we have shipped, principally to the branch of the Bank of England established at Ottawa, no less than $110,000,000. Indeed, since the first of the year 1914, we have shipped no less than $225,000,000 of the metal out of the country. Of this amount more than $40,500,000 was sent abroad to take up maturing revenue warrants of the City of N. Y. which had been placed abroad earlier in the year.

Directly after the outbreak of hostilities, the banks and trust companys of N. Y. City, despite the complete exhaustion of their reserves and the creation of a deficit of nearly $52,000,000 below the legal requirements, had to advance $100,000,000 in gold to save the credit of the city, and, a little later, another $12,000,000, being approximately their contribution to the $100,000,000 gold pool organised for the purpose of supplying foreign exchange facilities to our exporters. They were enabled thus to come to the rescue of a very precarious situation through the issuance of clearing house loan certificates to the extent of $124,695,000, and through an increase in the circulation of the national banks of the city under the amended provisions of the Aldrich-Vreeland Law, to the extent of $146,227,000 above their usual requirements.

The frantic efforts made by Europe, and particularly the belligerent nations of Europe, to increase their hoards of gold are eloquently reflected in the returns of twelve of the semi-governmental banks of that continent during the past three years. Since Jan., 1912, the gold holdings of these institutions have increased no less than $988,175,410. Of this stupendous total, $893,158,750 was gained during the past two years and $632,232,140 during the past year. Here is a startling record of progressive increase. Since the outbreak of the war—a period of five months—the gold holdings of these institutions has increased $390,972,430, of which we have contributed about one-third.

FINANCE AND COMMERCE, REVIEW OF 1914—*Continued.*

The War's Effect Upon Ocean Shipping.

The opening of hostilities swept the seas clear of shipping, owners of vessels refusing to risk capture and marine insurance underwriters unwilling to grant insurance upon cargoes against the hazards of war at any price. The U. S. Government, in this crisis organized a war insurance bureau, Congress having appropriated $5,000,000 for that purpose, to assume the risk on cargoes shipped in American bottoms. But this measure afforded little real help because of the pitifully small number of American vessels engaged in our overseas trade.

As is well known, the bulk of our foreign commerce is carried by foreign vessels, principally by those of Great Britain, and another measure was passed waiving certain sections of our navigation laws which, in normal times, prevents the registry of foreign built and foreign manned vessels under the American flag. This effort to increase our merchant marine in this time of emergency also failed of its purpose, and in the fall of the year, with our grain exports in record volume and with the way paved by Great Britain for a free movement of our cotton to Germany and Austria, through her declaration that she would not consider cotton as contraband of war, cargo space became increasingly scarce and ocean freight rates exorbitantly high.

Never before in the history of the country has the need for an American merchant marine been so forcibly demonstrated. The present administration endeavored to put through Congress a bill appropriating $25,000,000 to be devoted to taking up a majority of the stock of a huge shipping corporation to be organized to purchase, equip and build ships for our foreign trade. This proposition, however, was opposed by private shipping interests, who maintain that the proper way to increase the tonnage of American shipping is to relax our stringent navigation laws, so that American vessels may be operated quite as cheaply as foreign vessels. But any attempt to lower the wage or working condition standards now in force in American shipping circles promptly meets the bitter opposition of the labor interests in this country. Indeed, there is a bill now pending before Congress designed to raise to a still higher plane working conditions on board American vessels.

Why a War Tax Had to Be Resorted to in the United States.

The embroilment of all Europe in a life and death struggle and the employment of millions of men, who in ordinary times are producers, in destructive warfare, naturally interfered with, and in some instances, completely paralyzed productive endeavor in the belligerent countries, except in those lines prerequisite to the maintenance and equipment of armies. Thus, it came about that the volume of goods imported from abroad—the bulk of which comes from Europe, that continent furnishing 50 per cent. of all the goods imported by us—fell off sharply. This resulted in an alarming shrinkage in the revenues of the Federal Government, a goodly proportion of which is derived from import duties. This sudden and unexpected falling off in imports was the more marked in its effect upon the Government's revenues in as much as it came not so very long after the high tariff of the Republicans had been lowered to conform to the Democratic idea of a tariff for revenue only. To prevent a deficit in the Government's exchequer and to obviate the necessity of borrowing, the imposition of a war tax has been resorted to, and now the entire population, in the course of the daily fulfillment of its obligations and desires, is making up the difference between the Government's financial outgo and its income, this being estimated at slightly in excess of $100,000,000.

Just as the outbreak of the war in Europe caused a graduated decline in our import commerce, so it affected a sharp, immediate contraction in our export commerce. The reason why the effect of the war on our import commerce was not so instantaneous is due to the fact that it was possible to deliver here large shipments of goods that left foreign ports prior to the declaration of war, while goods previously imported and held in bond were more freely drawn upon to make up the deficiency in the volume of new importations. The reason for the immediate effect of the war upon the volume of goods usually exported in the fall of the year from our shores is to be found in the complete suspension for a time, of shipments of raw cotton. The largest producer of this staple, the United States is able to fabricate but a third of its output. The remaining two-thirds must be sent abroad, principally to England, France and Germany, to be made up into cloth. The Orient, pricipally Japan, is also a fairly heavy buyer of our raw cotton.

The Cotton Problem.

The complete suspension of cotton exports was later relieved by Great Britain's announcement that she would consider cotton as non-contraband, and in the late fall the export movement from Southern ports began to pick up; but because of the dearth of ocean tonnage, resulting in high freight rates, the high cost of marine insurance and the fact that the number of active spindles in our best foreign markets for the staple has been seriously reduced, owing to the exigencies of the war, only a small portion of our surplus cotton has been absorbed. How to assist the growers to hold this cotton until the demand again catches up with the supply has been one of the most serious problems with which the U. S. has had to deal. A buy-a-bale movement was inaugurated, but this was purely sentimental and soon exhausted itself, when it was discovered that somebody was making a profit out of sales at 10 cents per pound to philanthropic persons, when the spot markets in the South were below 7 cents. The South and its representatives in Congress have been rather insistent that the Government itself should come to the aid of the growers. They have been advocating an issue of Treasury notes to be put out upon the security of cotton stored in warehouses that have been licensed by the several States or the central Government. But this plan did not meet with the approval of the country's ablest financiers nor of the Washington authorities, and the South's representatives in Congress for a time were successful in conducting a filibuster to prevent the passage of other remedial legislation in their efforts to have their measures adopted.

The country's banks and bankers, under the leadership of New York financiers, had met with eminent success in financing N. Y. City's foreign obligations and in providing foreign exchange to mercantile exporters by the creation of million dollar pools, and although the first suggestion of a cotton pool came from St. Louis, to N. Y. City bankers is due the credit for its final form and completion. The headquarters of this pool are in N. Y. City and the funds in it are administered by a committee of bankers under the general supervision of the Federal Reserve Board at Washington. While the greater proportion of the contributions to the pool has been furnished by banks and bankers in States that do not produce cotton, the entire risk of making loans out of the pool is being borne by the banks of the South.

Urgent Need For Development of Cotton Manufacturing in the South.

This is as it should be; but the mere fact that the banking resources of all other sections, which normally lend substantial assistance to the South in the growing and marketing of its principal crop, have been willing to increase their commitments in the cotton States is recognition of the broader phases of the cotton problem. For a substantial part of the inconvenience and downright embarrassment which the war in Europe occasioned in our national finances may be traced directly to the situation in the South.

Many in the South, and in other parts of the country for that matter, have been wont to speak with pride and boasting of the U. S. as the largest exporter in the world of raw cotton. And just as hogs have been lauded as the chief rent payers for our farms, so cotton has been praised as the greatest creator of foreign credits that we have; but that this country should still be compelled to export two-thirds of its raw cotton instead of manufacturing it in its own mills and exporting it as a finished product is an anachronism for which we have to thank the institution of human slavery that held the South for so many years in its grip.

If there is one exceptional opportunity which this war in Europe has thrust upon us, it is this, that we should bend our chief endeavors and lend our every available resource to develop cotton manufacturing in the South. While American cotton goods would have to meet competition from England, France and Germany in the markets of the world, and while cotton goods could not at first create as much foreign exchange in so short a time as exports of raw cotton, the effect of the change would be to render our position in the international markets less subject to violent fluctuations, to reduce speculation in foreign exchange and to reduce greatly the volume of our imports and our debts abroad. This last, perhaps, would be our greatest gain, for money now sent abroad to pay

for foreign made cotton goods would be dispensed in this country, thereby increasing her general buying power, while at the same time reducing her foreign obligations.

The Railroad Problem.

The narrowing credit of American railways since 1910, when the great Eastern railroads first petitioned the Interstate Commerce Commission for permission to increase their freight rates, has been one of the most serious problems with which our financiers have had to deal. As will be recalled, the Commission refused the railroads' petition in 1910, but left the matter open for future consideration, should it at any time be proven that conditions had so changed as to make an increase in freight rates necessary to the conservation of the huge investments that have been made in American railroad properties.

In the opinion of the managers of the Eastern railroads this change became strikingly apparent early in 1913, and in May of that year they petitioned the Commission to reopen the 1910 case. This the Commission refused to do, but notified the carriers that it would institute a new inquiry. The taking of testimony in this second inquiry into the need for higher freight rates began late in 1913 and continued over into the early part of 1914. By May hearings had been concluded and the consideration of the testimony adduced commenced by the Commissioners. Then ensued a nerve-racking period of suspense, during which the financial community was swayed by many and conflicting reports as to the nature of the Commission's findings. Finally, toward the end of July, the long-awaited decision was made public. It conceded the necessity for increasing the net revenue of the country's railroads, but the Commission held an opinion different from that entertained by the railroad managers as to what means should be taken to effect this increase.

The testimony adduced by the witnesses for the railroads in the course of the inquiry irrefutably pointed to the need for an equitable readjustment of freight rates in the Middle West to conform to those that obtained in the East and South and the more distant West, and the most distinct advantage from the Commission's decision accrued to the railroads operating in the Middle West. This included, to be sure, extensive mileage operated by the great Eastern trunk lines; but the decree prevented these systems and the New England railroads from advancing rates in the territory in the East—a territory which includes the greatest manufacturing and some of the greatest mining districts in the country, including the center of the country's so-called basic industry—steel.

It is entirely probable that the railroads' managers would have been fairly successful in the application of those reform measures which the Commission outlined in its decree and would have been able to prevent further inroads into their net incomes, if not actually to increase them, had not the outbreak of the war in Europe still further contracted their buying power. But the effects of the war upon the world's capital markets, as reflected in an overnight advance in money rates and a sharp drop in security prices, prompted the managers of the railroads in August to renew the plea for relief. Hearings, therefore, were resumed in Oct., and on Dec. 18 the Commission handed a decree supplemental to that of July, in which the Eastern roads were given the same privilege as those in the Middle West to advance their rates.

Surcease From Govt. Interference with Business.

The outlook for a surcease from governmental interference with the conduct of business in this country, after 15 yrs. of almost incessant activity on the part of both the executive and legislative branches of the Govt., is bright. President Wilson, in his latest public utterances, has assured the business interests of the country that the Administration's legislative programme as affecting commercial and industrial ethics has been all but completed with the enactment of the Federal Reserve Act, whereby our banking system has been reformed and made more responsive to the needs of the country; with the passage of the Clayton Bill, designed to reduce "the debatable ground around the Sherman Anti-trust law," and of the Trade Commerce Bill, which creates a comm. similar to that of the Interstate Commerce Comm. to have general supervision over the conduct of Amer. industry as the present comm. has over the conduct of Amer. railways. The Rayburn Bill, which formed part of the Administration's original programme, giving the Govt. authority to pass upon and regulate the emission of securities by Amer. railways is being considered in the present session of the Congress. When this bill has been disposed of, it is safe to conclude that American business will be given an opportunity to develop, without further interference, in accordance with the policies of the Govt. as already defined.

Several important anti-trust suits commenced in previous years were finally determined during the past year, among them the actions against the New Haven R. R., the Bell Telephone System, the Wholesale Jewelers' Assn., the American Thread Company and affiliated companies, the Lumber Dealers' Assn., the Chicago Butter and Egg Board and the Elgin Bd. of Trade, the Electrical Workers' Union, the North Pacific Wharves and Trading Company, for attempting to monopolize wharf facilities at Skagway, Alaska, and the Pacific and Arctic Railway and Navigation Co., for monopolizing steamship transportation bet. Puget Sound and Alaska; the Consolidated Rendering Co., the American Naval Stores Co., and the American Wringer Co. The Govt. was successful in all but the action against the American Naval Stores Co.

Anti-Trust cases instituted prior to July 1, 1913, which are still pending are as follows: The Steel Trust suit, the Harvester Trust suit, the suit against the Terminal Railroad Assn. of St. Louis, the Great Lakes Towing Trust suit, the Sugar Trust suit, the Shoe Machinery suit, the Soft Coal Trust suit, the Ocean Steamship Trust suits, the Cash Register suit, the Colorado and Wyoming Lumber Dealers' suits, the Keystone Watchcase, the Milk cases, the Paper Bd. case, the Billposters suit, the Motion Picture actions, the Horseshoers' Protective Assn. case, the criminal action against Charles S. Mellen, the Kellogg Toasted Corn Flake suit, the Chicago Bd. of Trade suit, the Quaker Oats case, the Kodak Trust case, the Corn Products suit and the Cleveland Stone Co. suit.

Among the anti-trust cases that have been instituted since July 1, 1913, the following important ones are still pending: The American Can case, the suit to compel the segregation of the Southern from the Central Pacific R. R., the Lehigh Valley Coal cases, the Colorado Mine Labor cases, the Plumbing Trust suit, the Booth Fisheries case, the Western Cantaloupe Exchange suit, the case against produce commission men in the Dist. of Columbia, and individual suits against William Rockefeller and others for conspiring to monopolize the transportation facilities of New England.

Industrial Unrest and Its Causes.

Industrial unrest continued a factor in the general economic situation during the fore part of the yr., but the outbreak of the war of nations in Europe caused truces to be declared, in many instances, bet. capital and labor within the several nations, not omitting the U. S. Russia was on the eve of a general railway strike when the war broke out, but the labor officials promptly called the strike off when Russia went to war. For a time it looked as though efforts to bring about the mediation of differences bet. 55,000 engineers employed on our own western railroads and the railroad managers would prove futile, when the outbreak of the European war induced both sides to submit to mediation.

Reports from 70 natl. and internatl. labor organizations in this country and from local unions directly affiliated with the Amer. Federation of Labor show that there were 957 strikes during 1914 in which 131,324 workers were involved. This compares with 969 strikes during the preceding 12 months, in which 294,236 workers were involved. The total cost of the strikes last yr. to labor, $4,389,510, compared with $3,464,215. While the number of persons involved in 1914 strikes numbered less than half those involved in the previous yr., the cost was nearly $1,000,000 greater. Of the total number of strikes called in 1914, 543 were won by the strikers; 118 were compromised; 236 are still pending, and 60 were lost. Of the total number of workers involved 74,350 were benefitted.

In Dec. the U. S. Commission on Industrial Relations submitted its first annual report to Congress. The Comm. found the causes to industrial unrest generally agreed upon among the 514 witnesses summoned by it to be as follows:

FINANCE AND COMMERCE, REVIEW OF 1914—*Continued.*

A world-wide movement arising from a desire for better living conditions.

A protest against low wages, long hours and improper working conditions in many industries.

A desire on the part of workers for a voice in the determination of conditions under which they labor and a revolt against arbitrary treatment of individual workers and a suppression of organization.

Unemployment and the insecurity of employment.

Unjust distribution of the products of industry.

Misunderstanding and prejudice.

Agitation and agitators.

The rapid rise in prices as compared with wages.

The rapidly growing feeling that redress for injuries and oppression cannot be secured through existing institutions.

The most serious labor trouble in this country has been in the Colorado mine region. For months the disaffected territory was under martial law, the President, in April, having dispatched Federal troops thither, after several fatal conflicts bet. the militia and the strikers. The Natl. Administration made repeated efforts to induce the mine operators to adopt a policy of conciliation but without avail, after the miners had agreed to accept President Wilson's proposals for arbitration. Finally, the President appointed a commission to take measures to adjust matters, and in a public document severely criticised the mine operators—among them the Colorado Fuel & Iron Co., in which the Rockefellers are heavily interested.

Another serious strike in this country was undertaken in the spring of the year in the Lake Copper region in Upper Michigan. This strike was attended by considerable violence and greatly interfered with the production of copper metal. There was further trouble in the West Virginia coal fields, and conditions complained of here were the subject of Congressional investigation. In June there was serious rioting among miners in the Butte camp. In May the building trades in Chicago were tied up completely for a while and in Jan. the Delaware & Hudson Railroad had to suspend operations for a couple of days owing to a strike.

In England there were further strikes among the dock workers in Liverpool during June. In the same month there was a widespread strike among the building trades in London. In the spring, the Yorkshire coal miners walked out, seriously threatening the coal supply of the milling interests in that busy manufacturing district. The trouble was adjusted after a fortnight of total suspension of mining. What amounted to a state of civil war prevailed in South Africa during Jan., 1914, when the employees of the State railways struck and were assisted by sympathetic walkouts of the miners in the gold fields. In Feb. there was a widespread strike among French coal miners, while the railways of Portugal were paralyzed by a walkout of employees. In June work at the Rio Tinto copper mines of Spain had to be suspended on account of labor trouble, while Paris was unable to get its mail for a day owing to a strike among the letter carriers of the city.

Perhaps the most threatening labor disturbances abroad were the railway strikes in Russia and Italy. The former was called off, as above stated, when the war broke out. In Italy trouble had been brewing among the employees of the State railways for some time and a strike was threatened in the spring, but did not actually occur until June, when the Govt. had to muster its army and navy to put down the violence that accompanied it.

Continuance of Civil War in Mexico.

In April, conditions in the disturbed Republic of Mexico became intolerable for the U. S. and a strong naval force, together with an army of occupation, was sent to seize Vera Cruz, the republic's principal seaport. The expedition was successful and just as it looked as though this country were to become embroiled in a war with Mexico, President Wilson accepted mediation at the suggestion of the Washington representatives of Brazil, Argentina and Chile. Negotiations dragged along well into the summer, when Gen. Huerta, the Mexican dictator whom President Wilson would not recognize as having any constitutional right to the office of chief executive of Mexico, presented his resignation, thus paving the way for a truce bet. the Federalists and the Constitutionalists. For a while, it looked as though peace at last were to come to the distressed country, but in the fall the Constitutionalists fell out among themselves. Gen. Carranza, the first chief, became pitted against Gen. Villa, who had been his chief military adviser in the operations against Gen. Huerta, and the civil strife was renewed. Notwithstanding this, however, our troops were withdrawn from Vera Cruz in Nov., but we had to send additional troops to the internatl. boundary to take summary action for the prevention of renewed firing across the border which would place American lives and property again in danger.

Irish Home Rule Disturbance.

During the months immediately preceding the outbreak of the war in Europe, the threatening aspects of the dispute bet. the U. S. and Mexico and the threat of civil war in Ireland following the passage of the Home Rule Bill had thrown a pall over the internatl. security markets, with prices declining on the assumption that an American-Mexican war and an Irish civil war would put an excessive strain upon the already hard-pressed internatl. market for capital. When the Great War in Europe broke, all the markets became convulsed and the springs of credit frozen.

FINANCE AND INDUSTRY IN BROOKLYN IN 1914.

Compared with year 1913, the resources of Bkln.'s commercial banks and trust companies are now more than $40,000,000 greater. Loans during the yr. have expanded more than $17,500,000 and deposits $34,290,000. Despite the heavy demands for cash and thanks to the prompt emergency measures adopted by the Federal Govt. in co-operation with the country's best financiers, the cash holdings carried in the vaults of the Bkln. institutions are now actually larger than they were a yr. ago.

The position of the 21 savings banks of the borough has also been greatly strengthened during the yr., despite the semi-panic that prevailed among the less informed savings bank depositors. Here, too, the prompt measures adopted to conserve the assets and cash of the institutions, until the general apprehension had been allayed are responsible for the continued progress which these institutions are able to report. All of the institutions are now paying 4% on deposits, whereas a yr. ago, 9 paid only 3½%. Depositors' fears have been allayed and normal payment by the banks resumed.

Growth of Postal Savings in Brooklyn.

Prior to the action of the savings banks in Aug., invoking that section of their by-laws permitting them to demand of depositors 60 days advance notices of withdrawal of funds, many of the local institutions suffered small-sized runs, and their cash resources were drawn upon in a substantial way by frightened depositors, many of whom redeposited their savings in the Postal Savings Bank of this district. From Aug. 1, 1914, up to Dec. 1, 1914, the total amount of money on deposit with the Postal Savings Bank of Bkln. increased no less than $1,135,290 or more than 60%. On Dec. 1, 1914, the total amount deposited in the post office was $2,697,129, compared with $1,561,839 on Aug. 1, 1914 and $1,198,752 on Dec. 1, 1913. The number of depositors in the Postal Savings Bank increased nearly 10,000 bet. Aug. 1, 1914, and Dec. 1, 1914, or from 19,259 to 29,170. On Dec. 1, 1913, the number of depositors was 16,002.

Little Progress Made in Liquidating Assets of Defunct Banks.

Further efforts have been made during the past yr. to clear up the tangled situation in the affairs of the defunct Union Bank, but with little success.

None of the other institutions that failed in the panic of 1907 has been able to pay further dividends to depositors during the past yr.

Increasing Solidarity Between Brooklyn and and Manhattan Banks.

Prior to the outbreak of the war in Europe 3 important developments in Bkln. banking signalized the increasing solidarity of the banking resources of the Greater City, of which Bkln. is the most rapidly growing section. The

first of these was the entrance of powerful financial interests into the active management of the Mechanics Bank, the largest State bank operating wholly within the borough. These interests are closely affiliated with the Natl. City Bank of Manhattan, the largest natl. bank in the country, and their avowed intention is to make the Mechanics Bank as important an influence in local finance as the Natl. City Bank is in Mhtn. Shortly after the new regime had reorganized the administrative forces of the bank, the merger of the Nassau Trust Co. with it was announced. The former offices of the trust company are now operated as branches of the bank. This merger increased the resources of the enlarged institution by about $10,000,000.

About the same time that the Mechanics Bank was taken in hand by aggressive Mhtn. interests, it was announced that a strong syndicate of representative New Yorkers had bought control of the Franklin Trust Co., the 4th largest institution of its kind in the borough, from interests closely affiliated with the Farmers' Loan and Trust Co. of Mhtn. This syndicate is composed of young men of varied financial and commercial interests, and one of the first things they decided to do was to re-open a branch in the Mhtn. financial district.

A little later in the summer and somewhat prior to the declaration of war in Europe, the Citizens Trust Company, located in the upper section of the Eastern District, announced that it had acquired control of the business of the Manufacturers' Natl. Bank. This institution, located on lower B'way, had been the cynosure of many financial eyes, but those in control of the Citizens' Trust Company finally succeeded in taking it over.

Just as Mhtn. merchants, in the early days of the city's development, found in Bkln. a place where great warehouses along the littoral could be maintained more cheaply than in old New York, and just as a little later, Mhtn. manufacturers discovered that factories could be operated here more economically than in old New York, so has the modern Mhtn. banker concluded that, with the banking field in Mhtn. well occupied and with the new federal banking act in effect, prescribing the limit of Mhtn.'s further expansion as the banking center of the country, Bkln.'s rapidly growing commerce and industry constitute sources of increased banking strength, if properly nurtured and encouraged in a large way.

European War Has Stimulated Many Local Manufactories.

The war in Europe has proven a boon to many local manufactories that had begun to feel the pinch of declining domestic sales, and on the threshold of the new year, many Bkln. factories and mills are working overtime to supply the belligerents and neutrals alike with necessities. And while Bkln.'s littoral was at once time completely paralyzed by the tying-up of shipping because of the war, the dawn of 1915 witnesses a substantial recovery though activity in local shipping circles is by no means up to normal. Extraordinary imports of coffee and raw sugar, however, have operated to keep waterfront warehouses filled about to capacity, while the local cold storage warehouses have been kept busy receiving and transshipping to England frozen beef supplies from the Argentine. In other directions, the effect of the war in Europe has been most unfortunate and many local industries, with their supplies from abroad cut off as well as the foreign markets for their goods, have been unable to maintain full working forces, especially when domestic sales have fallen off, hence the percentage of unemployed in 1914 was larger than it has been in a good while.

Commercial and Industrial Failures.

The number of commercial and industrial defaults in Bkln. during the past yr. was slightly in excess of the number reported for 1913. According to records kept by Matthew J. Carroll, Bkln. supt. for Bradstreet's Mercantile Agency, the number of failures up to the middle of Dec., 1914, was 241, compared with a total of 228 for the calendar yr. 1913. The amount of assets involved in 1914 failures was $4,377,000 up to the end of Nov. and the amount of liabilities, $7,629,000, the excess over assets being $3,252,000. The amount of assets involved in 1913 failures was $2,062,000 and the liabilities $4,287,000, the excess over assets being $2,225,000.

Failures were most numerous in June during the past 2 yrs. In 1913 there was the failure of a large Fulton st. dept. store and in 1914 the embarrassment of Sackett & Wilhelm's Co., lithographers, who were compelled to obtain an extension of time from their bankers in which to pay off an indebtedness of $447,000, and of 2 Eastern District dept. stores that were involved in the failure of the H. B. Claflin Co. in Mhtn. It should be said, however, that one of the two was generally considered to have been the best moneymaker in nearly the entire Claflin chain of stores, and that had its credit not been called upon to aid that of less successful stores, it would not have become involved at all.

The failure of L. W. Schwenk, a private banker, during July, 1914, helped to swell the total liabilities involved to more than $1,000,000 in that month.

The heavy liabilities reported for Oct. were due to the putting of a large macaroni concern into bankruptcy because of internal dissensions, but it is now reported that the company is rapidly being rehabilitated. The financial distress of the U. S. Metal Products Co. added about $1,000,000 liabilities to the total for Nov., a petition in bankruptcy having been filed against the company on the last day of the month. The month of Dec. witnessed the receivership of the Internatl. Typesetting Machine Co., a concern that has been making serious efforts to dislodge the Mergenthaler Co. from its supremacy in the manufacture of typesetting machinery. The company had assets and liabilities of $6,355,000.

The most significant failures in the early part of the yr. were that of the Palmer Singer Manufacturing Company of Long Island City, automobile makers, and that of Witteman Brothers, importers of bottles and bottlers' supplies. At one time this concern was one of the heaviest importers of glass containers in the country. The only big failure in 1913 was that of a Fulton st. dept. store, which has since been reorganized and is now reported to be doing a good business.

The following tables gives the number of defaults and the assets and liabilities involved by months for 1914 and 1913:

New Building in Brooklyn Continues Apace.

Despite the contraction of credit everywhere due to the war in Europe, building operations have continued apace in Bkln. According to records kept by the Record and Guide, the cost of new buildings, plans for which were filed up to the middle of Dec., 1914, aggregated $36,595,006, compared with $29,726,874 during the corresponding period of 1913—both exclusive of alterations, which involved an expenditure of $2,749,260 in 1914 and $3,427,661 in 1913. The number of new buildings projected in 1914 was 4,202 compared with 3,504 in 1913.

Mortgages filed during the same period of 1914 aggregated $64,684,337 for 15,638 separate instruments compared with $64,143,675 for 16,144 separate instruments in 1913. Of the total amount loaned on mortgages during 1914 $31,242,371 was placed by banks, trust companies and savings and loan assns., exclusive of a $10,000,000 mortgage recorded here to secure a bond issue put out by Swift & Company of Chicago, for which the company's local realty holdings form part of the security. Assignments of guaranteed mortgages by institutions during 1914 aggregated $28,774,239 compared with $29,491,827 in 1913, while assignments to institutions aggregated $20,073,376 in 1914 compared with $23,425,636 in 1913.

FIVE PER CENT. RATE INCREASE.

In handing down a freight rate decision on Dec. 18, 1914, the Interstate Commerce Com. ended a case that has attracted wide attention. It was in May of 1913 that the railroads operating in the territory east of the Mississippi River and north of the Ohio appeared at Washington and presented their petition for a 5 per cent. increase in rates. In the decision handed down Aug. 1, 1914, the day war was declared in Europe, the Com. granted the 5 per cent. increase only to the roads west of Buffalo and Pittsburg. Early in Sept., 1914, the lines east of the two cities named appealed for a rehearing, with the result announced at Washington on Dec. 18, 1914. Exactly how the decision will affect the railway situation will be determined in the early months of 1915.

THE COLORADO MINE STRIKE.

The strike of Colorado mine operatives, which necessitated the presence of U. S. troops, is estimated to have cost the lives of 100 persons and caused a money loss of $25,000,000. The labor war began on April 20, 1914, and covered a period of over 6 months, during which time adherents of both sides carried the matter into Congress. In May, Secretary of War Garrison issued a proclamation, calling on the people of Colorado to disarm. This was later followed by the presence of U. S. troops. The agitation reached N. Y., where participants in the Free Silence Movement marched back and forth in front of 26 Broadway, Mhtn., and in front of the home of J. D. Rockefeller, Jr., at Tarrytown, N. Y. The points at issue covered the 8-hour day, semi-monthly pay, company stores, wages and unionizing the mining company's camps. Representative M. D. Foster, Ch. of the House Committee on Mines and Mining, had a conference with Mr. Rockefeller, but after a long and full discussion of the question in all its aspects, Mr. Foster was unable to make any suggestion which did not involve the unionizing of the mines or the submission of the question to arbitration.

LAND BANK ESTABLISHED.

A law providing for the creation of a State Land Bank for farmers of N. Y. State went into effect Sept. 1, 1914. This law enables farmers to change their present mortgages into land bank loans. In the ordinary mortgage the borrower pays 6% interest each yr. and his principal at the end of his loan. Under the Land Bank system the borrower pays part of his principal each yr. in addition to his interest. The Land Bank is to be composed entirely of savings and loan associations. Certificate of organization of the Land Bank of the State of N. Y., was ordered executed on Oct. 16, 1914, at Albany, the announced capital being $100,000, pledged by 40 savings and loan assns.

N. Y., N. H. AND H. INVESTIGATION.

As a result of the investigation made by the Interstate Commerce Commission, 21 directors of the N. Y., N. H. and H. R. R. were indicted in the U. S. Dist. Court, charged with entering into a criminal conspiracy to violate the Sherman Anti-Trust Law. The Commission declared that by reason of waste and mismanagement, the loss to the New Haven road will amount to between $60,000,000 and $90,000,000. Judge Mayer, in the U. S. Dist. Court, signed a decree dissolving the New Haven system of railroad, trolley and steamer lines.

AIRSHIP "Z I" WRECKED.

The Z I, a Zeppelin airship of the German Army, was wrecked near Diedenhofen, Germany, on June 13, 1914, during a flight from Cologne to Metz. This made the eighth disaster to a Zeppelin airship by wreck, fire or explosion. Zeppelins I, II, and VI, Deutschlands I and II and L I and L II all had been previously destroyed, some of them with heavy loss of life.

In the case of the L II, the entire crew of 28 officers and men were killed when the airship was burned in midair during its trial flight at Berlin.

Brooklyn Eagle Honor Day.

Held at Ebbets Baseball Field, Brooklyn.

15,000 Bkln. and Queens Borough elementary school children attended the 2d annual Honor Roll Field Day of The Brooklyn Daily Eagle. Two events were contested. One, an 880-yd. relay race, unlimited weight class, for boys attending schools in either Queens or Bkln. Boroughs, and a 7-inning baseball game bet. P. S. 10, Bkln., the city champions for 1914, and P. S. No. 1, Queens, winners of the Queens Borough championship of 1914.

The trial heats of the relay preceded the ball game. The 1st and 2d teams in each qualified for the final heat, which was contested bet. the 5th and 6th innings.

The baseball game was a spirited and exciting contest and was won by the City Champions, who defended their title in a decisive manner. Score: P. S. 10, Bkln., 8; P. S. 1, Queens, 1.

Tennis, Erasmus; Swimming, Poly Prep.; Lacrosse, Manual.

Elementary Schools Baseball.

The 10th Annual Elementary Schools Baseball Tournament started April 18, 1914, with an entry of 69 teams, distributed among the boroughs as follows: Mhtn., 9; Bronx, 12; Bkln., 29; Queens, 9; Richmond, 10.

Dist. championship tournaments were arranged in Mhtn. and Bkln. In Bronx and Queens the dist. league div. was not adhered to. The borough championships were decided by June 1, except in Queens, where an extra week was allowed for finishing the series.

The interborough schedule was drawn up on the elimination basis. The borough games were more closely contested and a keener interest taken in them than in the interborough games. The final game was played at Washington Park, through the courtesy of the Bkln. Federal League B. B. C. 12,000 spectators attended; tickets were distributed to all schools that had teams entered; great enthusiasm prevailed at the game. The summary of the tournament is as follows:

CHESS.

Considering that war broke out in mid-summer, the year 1914 was fairly prolific of chess activity abroad and at home. When hostilities broke out, the international masters were in session at Mannheim, Germany, but on Aug. 1, with the competition not quite two-thirds finished, a halt was called and the prizes distributed in accordance with the standing of the players at that stage of the contest. It was the first time in the annals of chess that this had happened. The annual championship meeting of the British Chess Federation, on the other hand, was brought off in Aug., according to schedule. But there were notable absentees. The outstanding feature of the year was the championship tournament at St. Petersburg, which brought Dr. Lasker and J. R. Capablanca together in the international ring for the first time. Capablanca led most of the time, but the world's champion overhauled him by defeating him in the crucial game. Shortly before, the Cuban expert had taken up his residence in the Russian capital as a member of the staff of the Cuban Consulate. The Gambit Tournament at Baden, near Vienna, was won by Rudolph Spielmann.

In N. Y. and vicinity, the revival of the Metropolitan Chess League did much to keep interest alive, supplemented as these inter-club matches were by the important club championship tournaments. The younger generations were also well looked after in the many scholastic league games that were arranged for them. Correspondence chess continued to hold its own, the most important competition being the King's Gambit Tournament with over 100 players arranged by the Amer. Chess Bulletin of N. Y. Other contests were held by the Natl. Assn., the Chess by Mail Correspondence Bureau, the Greater N. Y. League, and the Illinois, Ohio and Penn. Assns.

CRICKET.

Brooklyn again captured premier cricket honors for 1914 at least so far as the Metropolitan Dist. Cricket League was concerned. Kings Co. was placed 1st in the 2d div., after a tie with Bkln. The N. Y. and N. J. Cricket Assn. had another busy season with the result that Richmond Co. finished at the head of the list.

The internatl. match bet. the U. S. and Canada, scheduled for Sept. in Phila., was abandoned, the war preventing many of the Canadians from participating.

Two inter-city matches bet. N. Y. and Phila. resulted in favor of the Phila. on July 16, at Staten Island, Phila scored 222 and N. Y. 107, while at Manheim, on Sept. 3, Phila. won by totals of 137 against 68.

The Phila. C. C. won the "Halifax Cup" championship in Philadelphia.

J. B. King, of the Phila. C. C., won the "Childs" Battling Cup competition, this being the 6th yr. he has won since 1902.

Surrey won the English County championship.

All-Star Scholastic Football.

On Dec. 5, 1914, for the first time in the history of football in Bkln. a game was played between two all-star teams, when The Eagle's first and second all-scholastic elevens met at Ebbets Field, Bkln., for the benefit of the Belgian Relief Fund. The first team won by 14 to 7. The winners scored in the first and third periods, while the second eleven's score came in the final quarter. Between 6,000 and 6,000 spectators attended and more than $800 was realized for the benefit of war victims.

In addition to the football game, there was a soccer contest between the championship Manual team and an eleven of all-stars from Erasmus, Commercial and Boys High, which was won by the former by 3 to 0, and a drop-kicking event which was captured by Fields Pendleton of Poly prep.

Oxford-Cambridge Races.

Cambridge Univ. crew won from Oxford, for the first time in 6 yrs., with great ease, the annual 8-oared boat race from Putney to Mortlake on the Thames, on Mar. 28. The distance of 4¼ miles was rowed in the quick time of 20:23; Cambridge won by 4½ lgths. Of the 71 races rowed bet. Oxford and Cambridge since 1829, Oxford has won 39, Cambridge 31, and 1, that of 1877, was a dead heat. Oxford won in 1913. Time, 20:53.

Miscellaneous Rowing.

The Long Island Rowing Assn. did not hold a regatta during 1914. Therefore there was no race for the Eagle Cup for Junior Fours. There was some talk of holding the race during the regatta of the N. Y. Rowing Assn., which was rowed on the Harlem on Columbus Day. This, however, was not done. The summary of the N. Y. Rowing Assn.'s regatta follows:

Junior Single Sculls—Won by P. O. Smith, Nonpareil Rowing Club; J. S. Roberts, Nonpareil Rowing Club, second; Dominick Muio, Wahnetah Boat Club, third. Time, 6m. 33s. Won by 3 lengths.

Trap Shooting.

The Indoor Trapshooting Championship decided in Madison Square Garden on Feb. 27 resulted as follows:

Indoor Amateur Trapshooting Championship—Won by R. L. Spotts, 97; 2d, E. Von Lengerke, 96; 3d, E. B. Stephenson, 95.

Women's Indoor Championship—Won by Mrs. L. G. Vogel, 47; Mrs. Houghton and Miss Jessie Thorpe tied for 2d and 3d with 37.

Professional Shoot—Won by Neaf Apgar, 239; 2d, H. H. Stevens, 237; 3d, H. H. Hammond, 227.

Ralph L. Spotts, of N. Y. City won the 9th Annual Trapshooting Championship of the U. S. from a field of 134 gunners, over the traps of the N. Y. A. C. at Travers Isl. Sat., April 25, 1914.

Mr. Spotts not only won the championship, but broke the record for the shoot with 188 out of a possible 200 targets.

W. Henderson of Kentucky won the Grand Amer. Handicap at Dayton, O., on Sept. 10, with a total of 98 out of a possible 100 targets.

SOCCER FOOTBALL.

Brooklyn came near monopolizing all the soccer football honors that were worth anything during the season of 1913-14, which culminated with the great match between 2 Bkln. teams in the final round of the cup tie series of the U. S. of Amer. Football Assn., at Pawtucket, R. I., on May 16, and which resulted in victory by 2 goals to 1 for the Bkln. Football Club over the Bkln. Celtics. In addition to this honor, contested for in the 1st yr. of the natl. organization, the Bkln. Football Club also won the championship of the Natl. Football League. The cup tie of the Amer. Football Assn., the senior soccer organization, but now affiliated with U. S. F. A., was won by the Bethlehem Football Club, which defeated the Tacony F. C. of Phila. by 1 to 0 in Newark on May 3, after a scoreless tie at Paterson. Although Bethlehem was forced out of the U. S. F. A. series by Bkln., the Tacony F. C. in turn defeated the Bklns. in the A. F. A. cup tie. Another distinction which came to Bkln. was the championship of the N. Y. State League, which was won by the Bkln. Celtics without the loss of a game. Their record was 15 won, none lost and 1 drawn. In the 2d section, Clan MacDuff obtained the verdict with a record of 15 to 1 and 2 drawn. In the Field Club Socker League of N. Y. and New Jersey, the Crescent A. C. eleven came into their own again and once more hold the championship. Out of 10 games played the Crescents won 9, lost none and drew 1. There were 2 divs. in the Metropolitan Football League, the 1st being won by the St. George's F. C. with a score of 11 to 1 and 2 drawn, and the 2d div. by the Yonkers Thistles with a record of 10 to 0 and 2 drawn. The Metropolitan Cup narrowed down to a struggle bet. Subway team and I. R. T. Strollers, the final game being won by the Strollers by 1 goal to 0.

Two intercollegiate championships were decided during the year 1914, in consequence of shifting the schedule from the spring to the fall. Harvard won the series in the spring which culminated with the game against Princeton. Harvard made a record of 5 to 1 in 6 games played, which was also Pennsylvania's record. On account of a superior goal average, the decision went to Harvard. In the fall series Pennsylvania had her turn and clinched the championship on Dec. 5. The record made by the new champions was 5 to 0, with 1 drawn.

Another soccer championship came to Bkln. when Manual Training H. S. won over Curtis High of Staten Island, in the H. S. League, after a tie at 17 points. The deciding game was played at Commercial Field, on Dec. 12, when Manual won by 3 to 0.

YACHTING.

The year 1914 was rather a disappointing one for yachting enthusiasts. Being an America's Cup year, there was no attempt to arrange any other important international event. The war in Europe called off the contest for the important classic and also did away with a race for the King's Cup. Several important cups changed hands, however. The Blackton Trophy for Class Q yachts went to the Eastern Yacht Club, having been won during the annual race week of the Larchmont Yacht Club by Little Rhody II.

The Lower Bay Lipton Cup was finally won by M. and F. II. The Childs' Perpetual Challenge Trophy was successfully defended by Alice of the Larchmont Yacht Club, on Aug. 28.

While there was no international sonder class race, the Eastern Yacht Club held an elimination series and picked Sprig, Ellen and Cima, as the American trio to go to Germany in 1915.

International Yacht Races.

There was to have been a race for the America's Cup off Sandy Hook during Sept., 1914. The Royal Ulster Yacht Club was the challenger and nominated Sir Thomas Lipton's Shamrock IV. The craft was a 75-footer designed and built by C. E. Nicholson. Although the boat was sailed across the Atlantic, the race was postponed on account of the war in Europe. Three boats were built for the honor of defending the cup. One was called Resolute, from the board of the Herreshoffs of Bristol, built by a syndicate of flag officers of the N. Y. Yacht Club. Another craft was designed by William Gardner for Alexander Smith Cochran. The third boat was a failure. She was designed by George Owen for a syndicate of N. Y., Boston and Phila. yachtsmen. The craft was named Defiance. No boat had been chosen to defend the cup when the races were called off.

MOTOR BOATING.

Although America challenged for the Harmsworth Trophy and sent Disturber IV to England, the race for the world's championship trophy was not held on account of the European war. In the U. S. the best work of the year was done by Baby Speed Demon II, the property of Mrs. Paula H. Blackton of Bkln. The craft won the Gold Challenge Cup, the championship trophy of the American Power Boat Assn., the International Mile Championship, the Webb Trophy at Peoria, the Commodore Conners' Trophy at Buffalo and the Blackton Trophy at the same regatta. In the West the Wrigley Trophy, emblematic of the American Speed Boat Championship, was won by Disturber IV. The best time made in any race during the year is credited to Baby Reliance V, which averaged 50.50 for thirty nautical miles at Lake George.

AVIATION AND AERONAUTICS.

The year 1914 was marked by continued progress in the science of aviation. Advancement has been along sane and practical lines. Aviators attached to the armies in Europe have distinguished themselves and results have shown that they are an important asset to the military and naval equipment of all countries.

COST OF FIRING A BROADSIDE.

The total weight of projectiles in a broadside from the battleship Texas is 14,000 lbs., and to fire these projectiles the cost to the Government is $777 for each gun, or $7,770 for a broadside. Such a broadside from the 12-inch guns of the Wyoming would weigh 10,440 lbs., and would cost $540 for each gun, or a total for the broadside of $6,480.

The Texas is 565 ft. long, 95 ft. wide, and has a maximum draught of about 29 ft. She is of 28,367 tons, which is about 1,000 tons larger than the Wyoming, 7,000 tons larger than the Florida, and about 8,500 tons larger than the ships of the Delaware class. The Texas is more than 12,000 tons larger than the Connecticut, the famous around-the-world flagship; she is twice the size of the ships of the Virginia size, and nearly three times the tonnage of the battleship Oregon, and almost equal to half the tonnage of all the battleships that fought under Sampson in the battle of Santiago.

THE NOBEL PRIZES.

Announcement of the Nobel Prize winners for 1914, which normally would have been made in Dec., 1914, was deferred until 1915, owing to the European War.

Five prizes are annually awarded from the fund of $9,000,000 bequeathed for the purpose by Alfred Bernard Nobel, a Swedish inventor and philanthropist, who died in 1896. From the invention and manufacture of dynamite and smokeless powder he made his fortune. He left the greater part of it for the promotion of notable discoveries or inventions in physics, chemistry, medicine or physiology, for the writing of idealistic literature and for important services in the interest of peace. Mr. Nobel's will was contested, but the members of the family withdrew their claims on the condition that part of the fund should be used for the founding of institutes for scientific research. With this deduction the prizes average about $40,000 each annually, and with gold medals and diplomas, are awarded on Dec. 10 of each yr., the anniversary of the death of the founder. The sum available for the prizes is divided into five equal parts and distributed as follows: "One to the person who in the domain of physics has made the most important discovery or invention, one to the person who has made the most important chemical discovery or invention, one to the person who has made the most important discovery in the domain of medicine or physiology, one to the person who in literature has provided the most excellent work of an idealistic tendency, and one to the person who has worked most or best for the fraternization of nations and the abolition or reduction of standing armies, and in the calling and propagating of peace congresses."

Up to the present time 4 Americans have received the Nobel prizes. They are Prof. Albert A. Michelson, of the Univ. of Chicago, who was awarded the prize for physics in 1907; Theodore Roosevelt, who received the peace prize in 1906, in recognition of his efforts to end the war bet. Russia and Japan. Dr. Alexis Carrel, who received the prize in medicine in 1912, and Elihu Root, who received the 1912 peace prize for his efforts in the pacification of Cuba and Philippines and settlement of dispute bet. U. S. and Japan.

The awards made until now have been: Physics, 1901, W. C. Rontgen, German; 1902, H. A. Lorentz and P. Zeeman, Hollanders; 1903, H. A. Becquerel, P. Curie, and Marie Curie, all French; 1904, Lord Rayleigh, English; 1905, Prof. Philipp Leonard, of Kiel Univ., German; 1906, Prof. J. J. Thomson, of the Univ. of Cambridge, English; 1907, Prof. A. A. Michelson, of the Univ. of Chicago, Amer.; 1908, Prof. Gabriel Lippman, Univ. of Paris, French; 1909, Wm. Marconi, Italian, and Prof. Ferdinand Braun, of Strassburg, German; 1910, Prof. Johannes Diederik Van der Waals, Dutch; 1911, Prof. Wilhelm Wien, of Wurzburg Univ., German; 1912, Gustaf Dalen, gas engineer at Stockholm, Swiss; 1913, Prof. H. Kamerlingh-Onnes, of the Univ. of Leyden, German.

MONROE DOCTRINE AND ENGLAND.

Reference and interpretative remarks made by Mr. Walter H. Page, American Ambassador to Great Britain, to the Monroe Doctrine in a speech at the Associated Chambers of Commerce dinner on March 11, 1914, in London, caused considerable criticism to be directed at him and necessitated the Secretary of State requesting a copy and explanation of the speech. Cabled reports quoted Ambassador Page as interpreting the Monroe Doctrine to mean "that the United States would prefer that no European government should gain more land in the New World." It was felt in some quarters that Mr. Page by this, was assuming a supine attitude toward the defense of this historical American policy.

Mr. Page declared that he had distinctly said that the United States would object to or prohibit any European power from taking more territory in the New World, and then in conclusion had said amid the laughter of the audience:

"So you see that the United States would prefer that no European powers should gain more territory in the New World."

His reported remarks, he declared, had been too greatly condensed. When referring to the Panama Canal he had said that Great Britain would profit most from the canal because she owned the great bulk of the world's shipping.

THE WORLD WAR.

Racial aspirations and the political ambitions of nations growing out of them created the conditions from which sprang the greatest of wars. The immediate cause of the conflict was the murder of the Archduke Francis Ferdinand, heir to the throne of Austria-Hungary, and his wife, the Duchess Sophie Chotek, who were shot by a young Servian at Serajevo, the capital of Bosnia, on June 28, 1914. The underlying causes include the desire of the Servian people for a broader nationalism, a desire of which the murder plot was a misguided expression; the resolve of Austria-Hungary to check Servian ambitions as a menace both to the security of her own Servian provinces and to her influence in Balkan politics; the determination of Russia to become the supreme champion of the Slavic race and consequently the protector of Servia in the face of Austrian threats; and finally, the racial and political sympathies of Germany, closely allied with Austria-Hungary since 1879 and whose policies of expansion were disturbed by Russia's attitude of protection toward Servia and of hostility toward Austria-Hungary. The entry of England and France into the struggle, while of tremendous importance in itself, was incidental to the international agreements to which both were parties, and was not directly due to the causes that arrayed Russia and the Slav states of the Balkans against the two Teutonic powers.

The German Government has labored to extend Teutonic influence through the Balkans to Constantinople and the Aegean and thence into Asia. It has aimed to broaden the German Colonial empire and to increase the power of Germany on the sea. In these spheres of development it crossed the paths of Russia and England. Russia also has a constructive programme. She has been accused of seeking an ice-free port on the Scandinavian peninsula and there is no denial that she still cherishes the dream of Peter the Great, the setting up of her standard in Constantinople. Her racial aspirations as the first of the Slav nations, are closely related to this latter ambition.

In contrast to these constructive desires of Germany and Russia, England has chiefly a defensive attitude. Her empire encircles the globe and she is in command of the sea. She would like to maintain the balance of power as it is. She feels that she would not be safe if Germany had the ports of Belgium or Holland, and were France overshadowed by Germany on the Continent. England's efforts to keep any strong European power out of Constantinople maintained the Turk in Europe beyond his time. She does not want a Russian or German naval base at Constantinople to threaten her Mediterranean supremacy. Of the two, however, she prefers Russia to Germany. In the Far East England is allied with Japan, which blocks the Russian advance into Southern Manchuria. Since the Russian-Japanese War, Germany, not Russia, has threatened the balance of power which England cherishes.

With one great exception France, like England, is also content with what she has and is busy with its development; and since the French and English soldiers met at Fashoda on the upper Nile in 1898 their ways have not crossed. The one great exception to the content of France has been the German possession of Alsace-Lorraine. France wants revenge for 1870-71, and French Republicanism is not a good neighbor to the more rigid political system of Germany.

Germany's ambitions have isolated her from the rest of Europe, except Austria. In Austria, Germany has found "a brilliant second" for her policies although the second has occasionally tried to play first part.

On June 28 the Archduke Francis Ferdinand and his wife, while on a visit of state to Serajevo in Bosnia, were killed by an assassin who climbed upon their carriage and shot them with an automatic pistol. It was shown that the crime was the result of a carefully arranged plot which, the government of Austria-Hungary charged, had its origin in Belgrade, the capital of Servia, and involved Servian officials. On July 23 Austria-Hungary, insisting that the condition of affairs in Servia was a menace to the security of her empire, made a series of demands upon Servia which were in the nature of an ultimatum. Following were the principal demands:

(1) That Servian government officially denounce the activities of Servian agitators who aim to detach from the Austro-Hungarian empire provinces peopled by Serbs.

(2) That it suppress publications hostile to Austria-Hungary.

(3) That it dissolve certain anti-Austrian societies within its jurisdiction.

(4) That it eliminate from the system of public instruction in Servia both individuals and methods that tend to incite hostility to Austria-Hungary.

(5) That it remove from the army and the civil administration all officers known to be hostile to Austria-Hungary.

(6) That it accept the help of Austrian officials in the work of suppressing anti-Austrian agitation.

(7) That it proceed against the accomplices in the murder plot and accept the assistance of Austrian officials in that work.

(8) That it halt the illicit traffic in arms and explosives across the Austrian frontier.

(9) That it explain the anti-Austrian utterances of certain Servian officials.

Forty-eight hours was the time given for an answer. Servia accepted absolutely all of the demands except three—those relating to the participation of Austrian agents in Servian investigations and prosecutions and that relating to the disciplining of Servian agents charged with anti-Austrian utterances. In those cases Servia coupled her acceptance with reservations. Austria declared the Servian reply unsatisfactory and preceeded to warlike measures. Russia began mobilization. Efforts were made in Berlin and London to preserve the peace and a rapid interchange of diplomatic messages followed. The attitude of Germany was that the quarrel should be localized, that Austria-Hungary be allowed to discipline Servia. England asked that the whole Austro-Servian question be left to a conference of powers. Russia refused to quit mobilizing troops on Germany's demand, pointing out that the preparations of Austria to crush Servia were still going on. On July 28 Austria declared war on Servia. On Aug. 1 Germany declared war on Russia. France, as Russia's ally, moved to defend her own frontiers. German troops invaded the Duchy of Luxemburg and moved upon Belgium in an effort to overrun France. On Aug. 2 England announced that she would protect the French coasts. French mobilization against Austria-Hungary followed in the Mediterranean. On Aug. 4 England demanded that Germany respect the neutrality of Belgium. Germany declined. Aug. 5 England entered the war.

Progress of War.

Events moved rapidly when the war started. German forces entered Luxemburg on Aug. 2. On the 7th the Germans entered Liege and the French moved into southern Alsace.

The U. S., in the meantime, had taken cognizance of these events by issuing a proclamation of neutrality, on Aug. 4, and tendering, the next day, through Pres. Wilson, its good offices as mediator to the belligerents. Italy, the 3d member of the Triple Alliance, which had held off from Austria's and Germany's quarrel, reaffirmed her neutrality on Aug. 8.

Japan Joins in the War.

The Far Eastern aspect of the impending struggle came in for attention on Aug. 15, when Japan sent an ultimatum to Germany, demanding the relinquishment of Tsing-tau, the German stronghold in China, for the purpose, as the Japanese Govt. stated, of its "ultimate restoration to China." The Japanese began their blockade of this port on Aug. 27, and promptly began an attack from the land side. On Nov. 6 Tsing-tau capitulated.

In the meantime, on Aug. 17, the British expeditionary force had landed in France, and moved up to Mons, the French had been thrown back out of Lorraine after a 5 days' battle and a similar fate had overtaken the Austrians at the hands of the Servian army, on the Jadar River. The German armies had been pressing forward, on Aug. 20 Brussels was taken, the Belgian defenders fell back upon Antwerp.

Within the next 3 or 4 days, no effective obstacle was put in the way of the Germans. Namur fell and, with a vigorous German attack on Mons, began the retreat of the British and Allied forces which continued almost up to

the gates of Paris. The Germans captured Longwy on Aug. 26, the day the nonpartisan French Cabinet was organized, and partially destroyed Louvain one day later. On Sept. 2, when the French Govt. took refuge in Bordeaux, the Germans penetrated to Creil, about 30 miles from Paris.

Three days later the battles south of the Marne began, and the German right wing gave way, precipitating a general retreat, which halted on the River Aisne on Sept. 12. There they intrenched themselves and the scene of conflict shifted to Belgium and northeast France, where the Germans attempted to gain the coast.

In the latter part of Aug. fortune had not rested on the Russian arms. Austria announced a victory over the Muscovite army on the 23d and on the 29th the Russians were decisively defeated after a 3 days' battle near Tannenberg, East Prussia. They lost 150,000 in killed and wounded and 100,000 were taken prisoners, making this the most important victory of the first 5 months of the war. On Sept. 3, however, their offensive against Austria scored a marked success in the occupation of Lemberg, Galicia. On Sept. 22 they captured Jaroslav, and invested Przemysl. At the end of that month prolonged fighting found them victors over the Germans at Augustowo, and the invaders were driven from Russian territory.

Early Encounters at Sea.

On the ocean the first few days of the war were uneventful, chiefly because of the withdrawal of the German fleet into the protection afforded by Helgoland and the Kiel Canal. The British made a raid, however, in which 4 German warships were sunk off Helgoland on Aug. 28. On Sept. 22, Germany had her revenge in the sinking of the British cruisers Aboukir, Cressy and Hogue by a submarine in the North Sea.

Another submarine achievement of the German navy in the North Sea was the sinking of the British cruiser Hawke on Oct. 16.

During the month of Oct. interest in the western campaign centered in the extreme northwest of the contested territory. The Germans turned their attention to Antwerp on Sept. 28, and after sustaining the siege for a week the Belgian Govt. moved to Ostend.

Four days later, on Oct. 9, the Germans occupied Antwerp, after a brief bombardment. Continuing to press on, they forced a second removal of the Belgian Govt. to Havre from Ostend, which latter place was occupied on Oct. 15. The Belgian army in retreat succeeded in effecting a junction with the Allies' left, and fighting ensued from the Channel coast to Lille which, with intermissions, was carried on to the end of the year 1914.

About the end of the month there came a slackening in the furious assaults of the Germans between Nieuport and Ypres, in which operations English gunboats off the Belgian coast were of service to the Allies. Fighting was renewed at Nieuport on Nov. 13, and the climax of the fighting in Flanders was reached on Nov. 15 in the charge of the Prussian guard at Ypres. Thereafter came a lull which was broken by offensive tactics of the Allies that have been resisted with success by the Germans.

Fighting in South Africa.

What at first promised to be a serious embarrassment for Great Britain was the mutiny of a Boer commando in the Cape Province, on Oct. 12. The uprising assumed considerable proportions within the following 2 weeks, and the Boer general, De Wet, assumed an active part in the revolt. On Oct. 30 the prompt repressive measures initiated by Gen. Botha, effected the defeat of the rebel leader, Col. Maritz, in Cape Province, and he was driven out of the colony. Gen. De Wet was captured on Dec. 2, and on Dec. 9 Gen. Beyers, a Boer leader, was killed at the Vaal River. Gen. Botha pronounced the Boer rebellion at an end on Dec. 18. Several days later, however, Col. Maritz returned at the head of a Boer commando and inflicted a defeat on a loyal force. Believing that radical measures were required the So. African Union ordered conscription.

Along the Russian Border.

In the east, decisive fighting on the Vistula River began on Oct. 14, and after 10 days the Germans were defeated and retreated from the vicinity of Warsaw and Ivangorod. Pressing their advantage, the Russians reached a point near the Silesian border and entered East Prussia on Nov. 7, succeeding in occupying Johannisburg in East Prussia on the 12th.

In the next few days the fortunes of war turned in favor of Gen. von Hindenburg's arms, and the Russians sustained successive setbacks at Viotslavek and at Llpno and Kutno. Piercing the Russian centre south of Lodz, on Nov. 19, the Germans encountered grave peril. Two German army corps were surrounded, and premature news of their capture was circulated. By Nov. 26 they had fought their way out, taking 12,000 captured Russians with them, and on Dec. 6 the Germans reoccupied Lodz.

On Nov. 29 the Russians failed in an assault on Darkehmen, East Prussia. From that time until late in Dec. Gen. von Hindenburg pushed his invasion of Poland so vigorously that the Russians were content to take the defensive, apparently holding the invaders at the Bzura River, west of Warsaw. Both Cracow and Przemysl managed to withstand the Russian siege operations, which slackened up during the vigorous German offensive, and a similar movement on Austria's part into the Carpathian region.

Turks Take Part.

Affairs in the near East were complicated by the entrance into the arena of Turkey as an ally of Germany. Naval attacks by the Turks on Odessa on Oct. 29 opened the war on Russia. Sebastopol was bombarded on Nov. 1. On the 5th, England and France declared war on Turkey, and the Turkish forts on the Dardanelles were bombarded. An effort was made on Nov. 16 to arouse all of the Mohammedan world against the Allies by the proclamation of the Sheik-ul-Islam at Constantinople of a Holy War. Naval battles in the Black Sea between Turks and Russians were without decisive results, but a notable blow was administered on Dec. 13 by a British submarine, which crept through mines into the Dardanelles and sank the Turkish battleship Messudieh and escaped to safety. On the 18th, Egypt was proclaimed a British protectorate.

The interval between Nov. 1 and Dec. 16 was marked by naval achievements on both sides. On the first date a squadron of 5 German cruisers defeated a British squadron off the coast of Chili, sinking 2 British warships. Just 2 days later, German cruisers emerged from their refuge near Helgoland, reached the British coast near Yarmouth, and made their way back in safety.

On Nov. 10, the German cruiser Emden, which for many weeks had played havoc with British commerce in the Indian Ocean, was overtaken by the Australian cruiser Sydney in the Bay of Bengal and forced ashore. At the same time the bottling up of the German crusier Koenigsberg, in an East African river, was announced. On Nov. 11 a German submarine sank the British gunboat Niger off Deal.

British Naval Victory.

After a long search, under Admiral Sturdee, a powerful British squadron engaged the German cruiser squadron off the Falkland Islands in the South Atlantic on Dec. 8, and avenged the loss of the Good Hope and the Monmouth by demolishing Rear-Admiral von Spee's command. The Scharnhorst, Gneisenau, Leipzig and Nürnburg were sunk and the Dresden escaped. The German navy's retaliation for this stroke was to slip several cruisers past the blockading British fleet in the North Sea and bombard Scarborough, Hartlepool and Whitby, inflicting considerable damage and loss of life among the civilian population; 7 soldiers were killed and 14 wounded at Hartlepool.

Evidences of the determination of the belligerents to prolong the war indefinitely were afforded by the preparations of their respective Govts. On Nov. 16 the British Parliament voted a war loan of £225,000,000, and on the 19th voted for a new army of 1,000,000 men to supplement the 1,100,000 already under arms, exclusive of Territorials.

The German Reichstag responded on Dec. 1 by voting a new credit of 5,000,000,000 marks. France appropriated 3,500,000,000 francs for 6 months' expenses on Dec. 23.

Between the Austrians and the Servians in that quarter where the European struggle had

THE WORLD WAR—*Continued.*

its beginning, fighting continued incessantly with varying fortunes. On Nov. 17 Berlin announced an Austrian victory over the Servians at Valjevo, and on Dec. 2 the Austrian army took Belgrade, the Servian capital by storm. On the 14th the Servian army, which pushed the fighting, captured large numbers of Austrian prisoners, and next day forced the evacuation of Belgrade.

French aeroplanes gave Metz and its German garrison on Dec. 26, a sharp experience of the terrors of aerial bombardment. Two days previous German warships lying off Schilling roads, off Cuxhaven, were attacked by 7 naval seaplanes escorted by a light cruiser and destroyer force with submarines. These were discovered by Germans on Helgoland and immediately 2 Zeppelins and 3 or 4 seaplanes and several submarines attacked them. Reports of the casualties and damage done varied. Four seaplanes were abandoned by the British, but all the aviators escaped.

European Alliances.

There are 2 definite and comparatively old-established alliances:

The Triple Alliance—Germany, Austria-Hungary and Italy.

The Dual Alliance—Russia and France.

Reinforcing the latter is the "entente," more recent and less concrete, with Great Britain, which acts in general diplomatic sympathy with France and Russia in European questions, but is not bound by any written agreement to come to the help of either in case of war.

The Triple Alliance had its origin in the diplomacy of Bismarck, Germany's great Chancellor, under whose policies German unity was achieved. Bismarck hoped for a "Dreikaiserbund," an alliance of the Emperors of Germany, Russia and Austria, which could face the rest of Europe. After some apparent encouragement, however, Russia failed to come into the alliance.

Bismarck at once turned to Austria. The Triple Alliance was originally a Dual Alliance, the contracting parties being Germany and Austria. The treaty between these Powers was signed in 1879, and 5 years later Italy became a 3d partner.

Briefly stated, the treaty provided that if 1 of the 2 empires—Germany and Austria—were attacked by Russia, the contracting parties were bound to assist one another with the whole military power of their empires. Should one of the allies be attacked by another Power, the other ally was not to intervene, but to preserve an attitude of friendly neutrality. If, however, the aggressor should be assisted by Russia in any shape or form, the 2 allies would at once make common cause.

The terms of the treaties between Austria and Italy, and between Italy and Germany have never been made public, but the general drift of them is well known. If France should attack Germany or Italy, the 2 latter Powers are pledged to act against her; if Russia attacks either Germany or Austria, both are to make war upon Russia; and if Russia and France together attack any one of the 3 allies, they have to face the combined armies of all the 3.

Having thus placed effective barriers in the way of Russian aggression, Bismarck, however, made considerable efforts to placate Russia. But the rivalry between Austria and Russia in the Balkans prevented any permanent accord between these 2 Powers, and Germany was forced to decide whether the Austrian or the Russian alliance was the more valuable. She decided in favor of Austria.

The French expedition to Tunis in 1881 and the subsequent occupation of that country by France brought about, for a time, the complete alienation of Italy from France, and this led, in 1882, to the accession of Italy to the Austro-German League. The Triple Alliance was renewed successively in 1887, 1892, 1902 and again in 1912, for a further period of 12 yrs., and without any alteration.

Germany and Austria have almost invariably acted as 1 Power. Germany found in Austria a "splendid 2d" during the Morocco crisis of 1905-6, while Austria found German support against Russia invaluable at the time of the Bosnian coup in 1908.

The Dual Alliance between France and Russia is supposed to have been sketched in 1895, but it was not made public till 1897. The agreement has more than once been modified, but its terms specify that France shall be entitled to the support of Russia in a Franco-German war, provided that France is not the aggressor.

The Triple Entente is an extension of the Entente Cordiale, brought about between Great Britain and France in 1904. At this time France agreed to leave England with a free hand in Egypt, while England made a similar engagement to France regarding Morocco. The position of Great Britain in the event of a European conflagration was clearly stated by Mr. Asquith in the House of Commons on Mar. 24, 1914. Mr. Asquith said: "If war arises between European Powers there are no unpublished agreements which will restrict or hamper the freedom of the Govt. or of Parliament to decide whether or not Great Britain should participate in a war."

THE WORLD WAR—*Continued.*

Air Fleet Strength of Nations.

Divided among countries, the aeroplane strength in 1914 of the nations engaged in the European War is as follows:

Name.	Mar.	Aug.	Dec.
Austria-Hungary	120	400	600
Belgium	24	100	60
Great Britain	...	400	900
France	421	1,400	1,400
Germany	555	1,000	1,400
Japan	14	...	20
Russia	262	800	1,000
Totals	1,396	4,100	5,380

The above figures include both machines owned by the various govts. and by individuals. All private machines, however, that are in any way suitable for military use have been commandeered for war purposes.

Given by countries, the situation, with reference to dirigible airships, is as follows:

Name.	Mar.	Aug.	Dec.
Austria-Hungary	6	8	8
Belgium	8	2	..
Great Britain	..	9	12
France	25	22	30
Germany	33	40	60
Japan	2	..	2
Russia	13	18	20
Totals	82	99	132

While there is much debate among military authorities as to the actual value of aircraft in war, these figures are significant in showing one important fact: That both aeroplanes and dirigibles may be constructed and put into service in a short space of time.

Armed Strength of Greece, Roumania and Turkey.

GREECE—ARMY.

Peace strength, 25,000; reserves, 125,000; total war strength, 150,000; available for duty (unorganized), 200,000.

U. S. THIRD IN WORLD'S NAVIES.

According to figures given in Pulsifer's "Navy Year Book," published at Washington, in Jan., 1914, as a Senate document, the U. S. Navy ranks third among navies of the world.

This rank is assigned on the basis of vessels completed and vessels under construction. Great Britain is placed first with a total tonnage of 2,052,711; Germany, 943,338 tons; U. S., 760,002; France, 645,891; Japan, 497,199; Russia, 233,681; Italy, 259,186, and Austria, 198,351.

THE WORLD WAR—*Continued.*

PRESIDENT'S PROCLAMATION OF NEUTRALITY.

The text of the proclamation of neutrality for the U. S., issued by Pres. Wilson on Aug. 4, 1914, is as follows:

"By the President of the U. S. of America. A proclamation.

"Whereas, A state of war unhappily exists between Austria-Hungary and Servia, and between Germany and Russia, and between Germany and France; and

"Whereas, the United States is on terms of friendship and amity with the contending Powers and with the persons inhabiting their several dominions;

"And whereas, There are citizens of the United States residing within the territories or dominions of each of the said belligerents and carrying on commerce, trade, or other business or pursuits therein;

"And whereas, The subjects of each of the said belligerents residing within the territory or jurisdiction of the United States are carrying on commerce, trade, or other business pursuits therein;

"And whereas, The laws and treaties of the United States without interfering with the free expression of opinion and sympathy, or with the commercial manufacture or sale of arms or munitions of war, nevertheless impose upon all persons who may be within their territory and jurisdiction the duty of an impartial neutrality during the existence of the contest;

"And whereas, It is the duty of a neutral government not to permit or suffer the making of its waters subservient to the purposes of war;

"Now, therefore, I, Woodrow Wilson, Pres. of the United States of America, in order to preserve the neutrality of the United States and its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and, in order that all persons being warned of the general tenor of the laws and treaties of the United States in the behalf and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that by certain provisions of the act approved on the 4th day of Mar. A. D., 1909, commonly known as the Penal Code of the United States, the following acts are forbidden to be done, under severe penalties, within the territory and jurisdiction of the United States, to wit:

"'(1) Accepting and exercising a commission to serve either of the said belligerents by land or sea against the other belligerent.

"'(2) Enlisting or entering into the service of either of the said belligerents as a soldier or as a marine or seaman on board any vessel of war, letter of marque, or privateer.

"'(3) Hiring or retaining another person to enlist or enter himself in the service of either of the said belligerents as a soldier, or as a marine, or seaman on board of any vessel of war, letter of marque, or privateer.

"'(4) Hiring another person to go beyond the limits or jurisdiction of the United States with intent to be enlisted as aforesaid.

"'(5) Hiring another person to go beyond the limits of the United States with intent to be entered into service as aforesaid.

"'(6) Retaining another person to go beyond the limits of the United States with intent to be enlisted as aforesaid.

"'(7) Retaining another person to go beyond the limits of the United States with intent to be entered into service as aforesaid. (but the said act is not to be construed to extend to a citizen or subject of either belligerent who, being transiently within the United States, shall, on board of any vessel of war, which, at the time of its arrival within the United States, was fitted and equipped as such vessel of war, enlist or enter himself or hire or retain another subject or citizen of the same belligerent, who is transiently within the United States, to enlist or enter himself to serve such belligerent on board such vessel of war, if the United States shall then be at peace with such belligerent.)

"'(8) Fitting out and arming, or attempting to fit out and arm, or procuring to be fitted out and armed, or knowingly being concerned in the furnishing, fitting out, or arming of any ship or vessel with intent that such ship or vessel shall be employed in the service of either of the said belligerents.

"'(9) Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

"'(10) Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting the force of any ship of war, cruiser, or other armed vessel, which at the time of her arrival within the United States was a ship of war, cruiser, or armed vessel in the service of either of the said belligerents, or belonging to the subjects of either, by adding to the number of guns of such vessels, or by changing those on board of her, for guns of a larger calibre, or by the addition thereto of any equipment solely applicabl to war.

"'(11) Beginning or setting on foot or providing or preparing the means for any military expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territories or dominions of either of the said belligerents.'

"And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive and in violation of that neutrality which it is the determination of this Govt. to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the 5th day of Aug. instant, and during the continuance of the present hostilities between Austria-Hungary and Servia, and Germany and Russia, and Germany and France, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel from an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship), shall have previously departed until after the expiration of at least 24 hours from the departure of such last mentioned vessel beyond the jurisdiction of the United States.

"If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead or waters of the United States, such vessel shall be required to depart and to put to sea within 24 hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any or which cases the authorities of the port or nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of 24 hours, without permitting her to take in supplies beyond what may be necessary for her immediate use, and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than 24 hours after her necessary repairs shall have been completed, unless within such 24 hours a vessel, whether ship of war, privateer, or merchant ship, of an opposing belligerent shall have departed therefrom, in which case the time limit for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than 24 hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead or waters.

"No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead or waters of the United States more than 24 hours, by reason of the successive departures from such port, harbor, roadstead or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation.

THE WORLD WAR—PRESIDENT'S PROCLAMATION OF NEUTRALITY—*Continued.*

"No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country, or, in case the vessel is rigged to go under sail and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead or waters of the United States, without special permission, until after the expiration of 3 months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer since last thus supplied have entered a port of the Govt. to which she belongs."

Subsequent proclamations applied the same provisions to all of the belligerents.

RELIEF WORK IN U. S. TO AID WAR SUFFERERS.

From the time the war became general throughout Europe, and particularly after the devastation of Belgium, the people of the U. S. began to take measures to relieve the suffering and needy victims of war. Relief societies were established everywhere; churches, clubs, and organizations of every kind took part in this work. Carloads of supplies, food, clothing, bedding, medicines and surgical appliances were sent from all parts of the country, New York being the outlet for most of these supplies. The women of the U. S. of all classes and creeds, gave their services to the cause of humanity, and working in clubs, or individually, made thousands of surgical bandages, knitted gray socks, shawls, wristlets and sweaters for the soldiers in the trenches.

The largest collier in the U. S. Navy, the Jason, was loaned by the Government to carry Christmas gifts to the children of the warring nations. Carloads of gifts of all kinds were sent from all parts of the country; railroads and express companies transported them free of charge to the Bush Terminal, Bkln., where storage loft and docking space was donated, and a squad of U. S. soldiers from Governor's Island took charge of the tons of food, shoes, clothing, toys and comforts of all kinds. The "Christmas Ship" Jason left N. Y. Nov. 14, landed in Devonport, England, Nov. 25, docked at Marseilles, France, Dec. 5, and on Dec. 7, at Genoa, Italy from which port gifts were sent to German and Austrian children by the Italian Government.

The Rockefeller Foundation shipped food and clothing valued at $300,000 on the steamship Massapequa from N. Y., Nov. 3, 1914. This cargo was collected and shipped in very short time in order to relieve starving Belgians. The steamship Maskinonge with $300,000 cargo of wheat, was sent on Dec. 17, 1914, by American Commission for relief in Belgium. Two relief ships sailed Dec. 23, 1914, for Belgium bearing cargoes valued at $650,000. The St. Kentigern sailed from N. Y. with 240,000 bushels of wheat, and the Ferrona left Phila. with 280,000 bushels made up of contributions from the Belgian Relief Fund, the Rockefeller Foundation and the Commission for Relief in Belgium.

With 67 cases of surgical instruments and hospital supplies aboard, the S. S. Chicago, of the French line, sailed Dec. 29. 127 large boxes of clothing for women and children in France, together with two carloads of Christmas presents for Russia, were also part of the cargo.

Mayor's Committee Work.

During a brief period following the breaking out of the European War, the sum of $7,310.34 was expended by the Mayor's Committee in respect to N. Y. City citizens stranded in Europe. The committee, headed by ex-Mayor Seth Low, met 135 returning vessels, carrying 103,276 passengers, giving material assistance to 810 families and extended their good offices to 1,200 other families. The expenses of the committee, amounting to $2,515.09, were paid by the city.

The Bkln. branch of the committee, with the co-operation of The Eagle Information Bureau, and its branches in Washington, Paris and London, gave valuable and timely assistance.

Funds to December 28, 1914.

Cash contributions through the various N. Y. committees for war relief totaled to Dec. 28, 1914, more than $2,880,000. Add to this the value of food cargoes sent to Belgium and the cash value of the charity handled in N. Y. approximates $4,000,000. The value of food already shipped to Belgium was more than $1,000,000, independent of the supplies bought by the Belgian Relief Committee, whose fund was more than $737,000, and the Dollar Christmas Fund, also for Belgians, which was about $50,000.

Funds and the approximate amounts collected for each to Dec. 28, 1914, are as follows:

Belgian Relief Fund, $737,853; Red Cross, $415,089; German Bazaar Fund, $350,000; Amer. Hospital, Paris, $257,736; Jewish Rel. Comm., $222,122; Prince of Wales Relief, $101,000; German Soldiers Fund, $117,000; German General Fund, $175,000; Women and Children of France, $49,877; Comm. of Mercy, $91,130; Swiss Relief Fund, $75,000; Austro-Hungarian Fund, $75,000; Dollar Christmas Fund, $50,000; War Children's Christmas Fund, $25,000; Vacation Comm. Fund, $22,132; Central Jewish Comm., $40,000; Servian Fund, $25,000; Polish Fund, $6,488; Various other funds, $50,000. Total, $2,884,527.

Relief Committee Officers and Results Achieved.

Belgian Relief Fund for women, children and other noncombatants—direction of Emanuel Havenith, Belgian Minister to the U. S., and Pierre Mail, consul general; Rev. J. F. Stillemans, pres.; R. W. De Forest, ch. of executive comm., 10 Bridge, N. Y. City. Bkln. branch, 176 Montague. A. T. White, ch.

In the first official report of the Belgian Relief Fund, issued Dec. 27, 1914, it was announced that 31,881 tons of food, valued at $1,617,693, had been distributed in 11 provinces and 8 large cities in Belgium up to Dec. 7. These supplies were sent from the U. S. aboard 14 ships and in addition 18 lighters, lent for immediate use by the Dutch Government, were towed, laden with food, from Rotterdam by canal to various points in the war stricken country.

In addition to the food, which was widely distributed and which saved hundreds of thousands of men, women and children from actual starvation, there were distributed 336 packages of clothing, 191 packages of medical supplies and large quantities of lumber. The lumber was imperative to furnish scanty refuges for the homeless against the coming of winter.

The report of the extent of the distribution shows that even the most distant provinces not in the hands of the German forces with military bases were reached. The provinces of Brabant and Louvain, the most accessible and populous, received 17,537 tons of foodstuffs. Liege and Namur received 2,585 tons, the next largest quantity. Hainaut, the most southerly province, is in deep distress. Here the battles of Mons, Charleroi and Chimay were fought. The densely populated country has been laid waste and is difficult of access. The commission managed to get into Hainaut some 2,282 tons of food over the railroads at periods when the Germans were not using them.

The hilly province of Luxemburg received 583 tons of food, but in West Flanders, where the fighting was in progress at the time, only 101 tons were gotten through.

The medical stores sent by the commission were nearly all used in Holland. The Belgian refugees were seriously in need of them, as their flight left them all in badly weakened condition. Louvain, partly destroyed by the Germans, was one of the cities where active work by the commission prevented deaths by starvation. On Dec. 4, a special consignment of 704 tons of food was hurried there.

A "Shilling Fund for Anesthetics" purchased a quantity of chloroform. Bkln. Branch, 239 Gates av. Henry Clews, treas., The Dollar Christmas Fund, amount reached $51,000 on Christmas Day, 1914; the money was used in purchasing food supplies for the destitute Belgians. This fund is the American branch of the London Shilling Fund, which up to Dec. 25 had raised more than $500,000 for the Belgian relief work.

American Ambulance Hospital Fund—Mrs. Robt. Bacon, ch.; Mrs. William Greenough, sec.; hdq., 14 Wall, N. Y. C. Funds raised are used for the purchase and equipment of automobile ambulances to transfer wounded from field to base hospitals. Cars carry the Amer. flag, and are operated by Americans, many of whom are college graduates. Mrs. H. P. Whitney established and equipped a hospital in Paris for this work.

Jewish Relief Comm. carries on work through a number of sub-comm., organized among the various trades and professions. Hdqtrs., 174 2d av., Mhtn.; Louis Marshall, ch.; F. M. Warburg, treas. C. L. Sulzberger, sec.

The Lafayette Comm., organized in memory of the Marquis de Lafayette, to provide comfort kits for the French soldiers, co-operated with the Vacation War Relief Comm., formed to employ women whose positions have been lost through the war. The working arrangement was completed by Miss Anne Morgan, of the Vacation War Relief Comm., and Mrs. W. A. Chanler and Forbes Morgan, of the Lafayette Comm.

Among the women aided by the war relief comm. were wives of reservists who had gone to the front. Through co-operation with 15 benevolent, educational and fraternal women's organizations, the comm. was enabled to provide work for these in various lines.

Among the articles sent in the kits were fleece lined underwear, woollen socks and gloves. The Lafayette Comm. also sent a large shipment of knitted and linen goods for hospitals. These goods were made in the workrooms of the War Relief Comm., at 38 W. 39th, Mhtn.

ALBANIA.

The crumbling of the Turkish empire was one of the important events of 1914. It left Albania desirous of independence, but the Powers decided that an autonomous state should be created. The crown of Albania was then offered to Prince William of Wied, a member of an old German house and the commander of a troop of lancers in Kaiser William's army. The prince formally accepted the crown on Feb. 3 but his administration of affairs met with opposition almost from the start. On May 6 a revolt occurred which was led by Essad Pasha, a native Albanian, who had been Minister of War. The opposition to the prince's reign became so threatening that the ruler, his wife, and suite took refuge on the Italian cruiser Masurata. On June 10 George Fred Williams, American Minister to Greece, issued a circular to the European Powers offering them the good offices of the U. S. for the restoration of peace in Albania. The latter was asked to resign as Minister to Greece by President Wilson. On Sept. 2 Durazzo was bombarded by the rebel forces and on the 4th, Prince William abandoned Albania and abdicated the throne on Sept. 23.

Dec. 27 Italy intervened in the affairs of Albania, notifying the Powers that the independence, integrity and neutrality of Albania must be preserved and that Italy would not tolerate any change in Albanian government and would not allow Albanians to participate in a war against Servia and Montenegro. Italy declared she would undertake to restore order.

MEXICO.

The year 1914 was marked by a continuance of the factional war in Mexico which for a time involved the U. S. On Feb. 20 Wm. S. Benton, an English ranch owner was killed while in the custody of Gen. Francisco Villa commanding the Constitutionalist forces. A commission was appointed by the U. S. Govt. at Washington to investigate this occurrence but it was turned back by Gen. Villa when it attempted to look into the killing of Benton. The most serious phase of the Mexican situation for the U. S. was reached on April 7, when a launch from the U. S. gunboat Dolphin carrying the paymaster and a small detachment of marines landed at Tampico. They came for a supply of gasolene, were unarmed though in uniform, while the launch flew the Amer. flag. The detachment was placed under arrest by the Mexican commander and paraded through the streets of Tampico and were detained for a time.

Admiral Mayo, in command of the Amer. naval force at Tampico, protested at the treatment of his men and demanded of the Mexicans a salute of 21 guns as reparation for the insult to the American flag. The same demand was made by President Wilson on the Huerta government, but without satisfactory results. Consequently on April 21 Admiral Fletcher landed marines and sailors from the battleships Utah, Florida and transport Prairie at Vera Cruz and seized the Custom House. This force numbered 1,000. Fighting followed the landing of the Americans and 17 men were killed and a number wounded. (See page 117 for Tribute to Vera Cruz Dead.) On April 30 a brigade of U. S. regulars under command of Gen. Frederick Funston was landed at Vera Cruz and relieved the naval force.

After various efforts looking to the conciliation of the contending forces in Mexico, the diplomatic representatives of Argentine, Brazil and Chile met at Niagara Falls on May 20 to devise a plan which might restore peace. The U. S., and the Mexican faction represented by Huerta, sent delegates to represent them before what became known as the A. B. C. Commissioners. After many conferences extending into the first week of July and after the public had entertained sanguine expectation of a happy result with the establishment of peace in the war-worn republic, the efforts of the commission proved abortive and it disbanded.

Another scene in the Mexican drama was enacted on July 15 when Provisional President of Mexico Victoriano Huerta resigned and Dr. Francisco Carbajal succeeded him. Ex-President Huerta went immediately to Puerta Mexico and later to Kingston, Jamaica. The Constitutionalist army entered the City of Mexico Aug. 15 and took peaceful possession. Later Gen. Carranza, 1st chief of the Constitutionalists, was welcomed by a committee of citizens.

The peace which followed the accession of Carranza soon gave way to a dispute between Carranza and Villa, the old one revived. Villa issued an ultimatum that Carranza must retire, and a convention of all the revolutionary chiefs was called for Aguascalientes, Oct. 10, to decide upon the best way to proceed in the establishment of a government. The majority sentiment of this convention favored Villa, and it was announced Carranza had resigned and that Villareal had succeeded him, but Carranza refused to give up control of the government. The convention remained in session and early in Nov. the convention proclaimed Gen. Eulalie Gutierrez Provisional Pres. of the Republic. Gen. Villa immediately took steps to see that Gutierrez was installed in office, though Carranza continued to give signs of opposition. Both Carranza and Villa mobilized their military forces, and Villa began his march on the capital. The Carranzistas were hopelessly outnumbered in the territory between Aguascalientes and the capital, and the stronghold of Queretaro was surrendered to Villa without a fight. Carranza immediately thereafter abandoned the capital, taking his forces toward Vera Cruz, whence it had been expected the American troops would be removed. The American soldiers were embarked Nov. 23 and the actual military occupation of the Mexican seaport was ended, though the North Atlantic fleet remained in the harbor for the protection of American and other foreign interests in the troubles which seemed to be threatening.

With the capital menaced by Zapata's forces, Gen. Carranza evacuated the City of Mexico Nov. 21, all of his loyal officers accompanying him, except Gen. Lucio Blanco, who took over supreme command in order to ward off the Zapatistas and police the city. Blanco evacuated the city Nov. 24 and the Zapata troops moved in without the great disorder which had been feared. Nov. 26 Carranza occupied Vera Cruz and proclaimed it the capital, and the following day Villa's troops began to move into the City of Mexico to install the government decided upon by the Aguascalientes convention. Thus the lines were drawn for the struggle between Carranza, the deposed First Chief, and the majority of his former generals who had preferred to support the governmental ideas of Gen. Villa.

Early in Dec. excitement was caused by the firing of Mexican factions across the border at Naco, Ariz., and on Dec. 20 the U. S. forces were strengthened at Naco. On Dec. 23 Provisional Pres. Gutierrez was forced out of the capital and on Dec. 25 he formed a coalition cabinet.

UNITED BOYS BRIGADES OF AMERICA.

The United Boys Brigades of America was organized as a national body in 1889 and has established branch headquarters in the various States of the Union. The Hdqtrs. of the N. Y. OPENING OF PANAMA CANAL.

The Panama Canal was formally opened to the world's commerce on Aug. 15, 1914. The steamship Ancon, which is owned by the War Department and leased to the Panama R. R. for service in the N. Y.-Colon trade, signalized the opening of the great waterway to all ships up to 10,000 tons register by making the trip from the Atlantic to the Pacific. She carried the regular cargo brought from N. Y., in order to give the canal a full test with the ship drawing its full depth of water.

As the official celebration takes place in the spring of 1915, the United States was not officially represented except by Col. Goethals and others in charge of the work.

From Aug. 15 to Oct. 15, 1914, 583,949 tons of cargo passed through the Panama Canal. (For complete data concerning the Panama Canal see 1914 Eagle Almanac, pp. 490-493.)

PANAMA CANAL TOLLS REPEAL ACT.

The long drawn-out fight in Congress over the repeal of the law exempting American ships from the payment of tolls in the Panama Canal, resulted in the repeal measure passing in the House of Representatives by a vote of 247 as against 162.

The repeal was based on Sec. 1, article 111, of a treaty negotiated between the U. S. and Great Britain in 1901, by John Hay, Sec. of State and Lord Pauncefote, British Ambassador at Washington, and ratified by President Roosevelt on Dec. 26, 1901. The treaty became effective on Feb. 22, 1902.

The controversy over Panama resulted in the signing on April 7, 1914, of a treaty between the U. S. and Columbia, by which the latter received the sum of $25,000,000 and the free use in perpetuity of its troops, supplies and warships through the canal.

DEATH OF PROF. FRANKLIN W. HOOPER.

Prof. Franklin W. Hooper, for 25 years director of the Brooklyn Institute of Arts and Sciences, and regarded as one of the greatest forces for good in Brooklyn, died on Aug. 1, 1914, in his sixty-third year, at his summer home, Walpole, N. H., in the same house in which he was born on Feb. 11, 1851.

He went first to a district school in Walpole and afterwards to Antioch College Preparatory School in Ohio and to Harvard, where his career was one succession of honors.

After a year of post-graduate work he became agent for the Smithsonian Institution, and in the fall of 1876 he was made principal of the high school at Keene, N. H., and then came to Brooklyn as instructor of chemistry and geology in Adelphi Academy.

His interest in the Brooklyn Institute of Arts and Sciences was keen even in those early days. In 1887 he was made a trustee of the Institute, and in 1889 became its Director.

Under his direction the Bklyn. Inst. of Arts and Sciences became known throughout the world.

Professor Hooper was survived by his widow and two children, Mrs. Rebecca Lane Hooper Eastman and Franklin Dana Hooper. He was buried at Walpole, N. H., with simple ceremonies. A memorial meeting was held for Prof. Hooper in the Academy of Music on Nov. 1, 1914.

DEATH OF ADLAI STEVENSON.

Adlai E. Stevenson, Vice Pres. of the U. S. during Grover Cleveland's 2d term as Pres., died in a hospital in Chicago, Ill., on June 14, 1914. He had been ill a long time.

Mr. Stevenson was a native of Christian County, Ky., and was born on Oct. 23, 1835. He was educated in the local schools and at Centre College, Kentucky. He was admitted to the bar in the very year and month in which Grover Cleveland was also admitted at Buffalo.

WHY?

Many nice people live in Brooklyn Borough and each year as the sultry summer days come these folk feel that they would like very much to have a little change of their environment. Why not accept the generosity of Brooklyn's great home paper? You are cordially invited to call at the Free Information Bureau in The Eagle Building, Washington and Johnson streets, any day, and secure all knowledge as to just where you desire to go and rest a while. If you cannot get the time to call personally, The Eagle has employed a number of clerks who will be glad to give you full details, if you call Main 6200.

DISCOURAGED ABOUT YOUR COMPLEXION?

A generation of **"Fair Women"** all over two continents have proved the wonderful efficacy of **Dr. James P. Campbell's Safe Arsenic Complexion Wafers.** The Greatest Known Specific for Beautifying the Complexion and Developing the Form. **Stage Beauties,** beautiful off the stage, **Society Ladies, Blushing Brides** and **Smiling Debutantes,** whose lovely complexions do not fade with the morning light, know that the secret of their pure and spotless complexion and beauty lines is the magic of these blood-purifying, skin-transforming, safe and absolutely harmless wafers.

This world-famous prescription for the complexion is the most scientific and marvelous remedy for all facial blemishes, restoring to **Spotless purity and youthful bloom** all complexions marred by pimples, blackheads, sallowness, wrinkles, redness or other blemishes on or under the skin. 50 cents and $1.00 per box by mail in plain cover, on receipt of price, from **RICHARD FINK CO., Dept. 93, 415 Broadway, New York.** Every druggist can get Dr. Campbell's Arsenic Wafers for you from his wholesale dealer.

Look *for* this Sign--*the* Sign *of* Quality

It means a safe haven for motorists who know the importance of getting gasoline of uniformly high quality. The "Standard gasoline," which careful drivers have always insisted upon, now has a new name

SOCONY
MOTOR GASOLINE

It's the same gasoline—the best the Standard Oil Company can make. SOCONY Motor Gasoline is a clean, straight-distilled product. It is absolutely uniform in quality. It costs no more by the gallon than others—and it costs considerably less by the mile.

SOCONY Motor Gasoline and Polarine, the Standard oil for all motors, are sold wherever you see the SOCONY sign. Look for it. It's a quality sign in motordom.
